# Perfection Floor Tile

Perfection Floor Tile is a glexible interlocking floor tile that has been developed to provide an instant self-laying floor surface. A complete floor can be laid in a short time without need of expert labor. No adhesive in most applications.

- Easy DIY
- Loose Lay Lock Tiles
- Cover Old Concrete Cracks and Stains
- Ultra Durable
- Anti-Fatigue
- Virgin Vinyl - Carcinogen Free
- Made in USA

\* Anti-static tiles available in dark grey only (minimum order 650 sq feet)

\* UV Stability can be added to prevent fading on tiles to be installed in direct sunlight (min order 1000 sq feet)

Floors should be protected from sharp-point loads and heavy-static loads.

**4.5 and 5mm** T-Joint and Hidden Interlock tiles are the most economical solution for most applications. This tile can be laid quickly with minimal disruption over any hard surface. Perfect for residential home interior, garages, foot traffic, storerooms, locker areas, offices, vestibules, lobbies, and thousand of other uses.

**5mm** Commercial T-Joint is a popular commercial interlocking tile. Heavy Duty Tile, each tile can hold up to 15,000 lbs with no indentation. The popular T-Joint holds tightly and gives maximum performance under virtually all conditions. Ideal for use in auto repair facilities, high traffic areas, service shops, factories, warehouses, hangars, military installations, and many other commercial or industrial applications.

**7mm** T-Joint is our thickest, and strongest interlocking tile. A Heavy Duty Tile, each tile can hold up to 20,000 lbs with no indentation. Ideal for harsh, demanding environments such as loading docks, heavy manufacturing areas, airports, heavy truck facilities, mining operations, fork lift traffic, and many other commercial or industrial applications.
