SOCIAL CIRCLES

Circle any and all that apply!

In a social setting I:

Tend to introduce myself   Tend to wait for others to introduce themselves

When attracted to someone I:

Prefer to be the pursuer   Prefer to be the one pursued

I am most comfortable:

By myself   At work   Just watching others

With one other person   Socializing with a group of people

In my relationships:

I tend to make most of the decisions

I let others make most of the decisions

I like it when others ask me ....

I dislike it when others ask me ...
