Redefining the Art of Beauty & Skin Care

## Chamomile Azulene

The Chamomile Azulene line is ideal for dry skin and sensitive skin. Chamomile flower extract is naturally rich in properties that reduce erythema (redness), and soothes sensitive skin that is irritated or inflamed. Azulene obtained from the flowers of chamomile, has the sedatives, anti-inflammatory and refreshing properties to soothe and tone tired skin, and repair and protect delicate or irritable skin.

The properties contained in the Chamomile Azulene line increase the peripheral circulation of the skin while giving elasticity and softness to sensitive skin that suffers from inflammation and irritation.
