RUSTIC BEAUTY & PRACTICALITY COMBINED

IT'S ALL ABOUT THE EXPERIENCE

“Fews Marquees just made the wedding extra special. Problems were seemingly solved effortlessly, and Molly never tired of being contacted. She was very flexible with the shifting numbers and helped us rearrange with care and patience.

We don't think we have ever seen a more stunning marquee. Having clear PVC “windows”, which could be opened to allow perfect ventilation and also provided the most spectacular views of the lake and nearby beautiful Northamptonshire countryside.

DECISIONS TO MAKE

Our marquees come in denominations of 3 or 5 metre widths and can be sized to suit your guest numbers, dining style and utilisation.

To work out what size marquee will suit you perfectly, we simply need to know:

- How many guests are you expecting?
- What style of dining would you like?
- Will you be having a dance floor, and how much room does the DJ or band need?
- How much space do the caterers need for the preparation area and service (e.g. buffet tables)?
- Do you want some outside space?
- Do you want a more relaxed area with sofas and coffee tables?
- Will you have a separate bar area?
- What else might you need room for in the marquee?
