EXPECT DIFFERENT

The Igloo event structure is exclusive to Few's Marquees in the UK, and featuring cutting edge structural technology alongside excellent acoustics. The Igloo event structure allows event designers to create amazing event spaces with unparalleled levels of height and light at their disposal. It also serves a market specifically where height, width and suspended weight are critical. The Igloo event structure is suitable for large productions. The aluminium structure can be designed in modular widths with PVC coverings available in crystal clear, white opaque, and black out finishes.

Winterised options for Igloo

A redesign of the existing Igloo event structure with enhanced engineering and new materials has meant that it can withstand winds of up to 31 m/s or 77 miles per hour. This will significantly reduce the risk of events being cancelled due to adverse weather conditions, especially during the "off season".

The change in aluminium from 6005 T6 to 6082 T6, a much stronger material, and the addition of new bolted purlins when required and cross bracing means the winterised version can achieve the required wind speed.

Huge suspended loading calculated on individual applications

Wave is the largest event structure we offer. Available in widths of 55 metres and 70 metres. The vast size and scope of the Wave event structure makes it a perfect candidate for hosting even the largest events.

A show-stopping event structure boasting enormous size and versatility

- 55 and 70 metre widths available
- Unlimited length in 5m increments
- White opaque, clear and two tone
- Black out PVC available
- Unique internal height of up to 22 metres

A sustainable approach to business

Fews are committed to environmental sustainability, and it forms part of our long-term planning. Wherever possible we look for ways to adopt sustainable working practices. We generate our own power through Biomass and Solar, invest in the latest efficient vehicles and machinery, and recycle carpets and other goods consumed in the process of running the business.
