

Fortinet Security Awareness and Training Service

Highlights

Aligns to the National Institute of Standards and Technology framework (NIST 800-50 and NIST 800-16)

Includes quarterly training alerts mapped from Fortinet Threat Signals reports

Delivers engaging, interactive training through video, text, audio, imagery, and animations

Interactive quizzes and knowledge checks

Admins can monitor and run reports on training campaigns, user completion and performance, cross-organizational usage, and other results

Comprehensive SaaS-based Solution

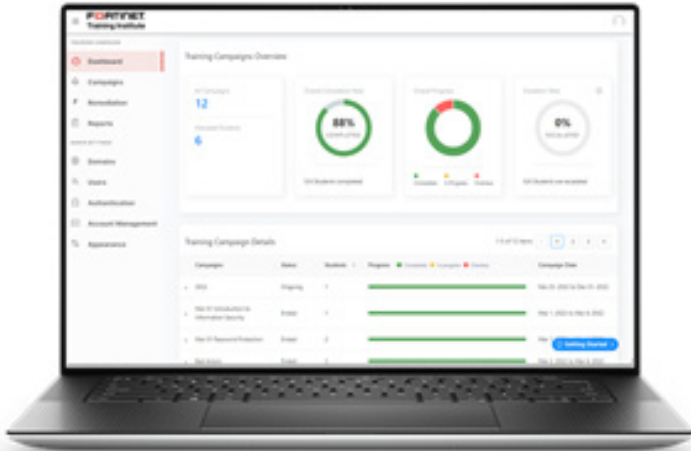

Train employees with a guided security training program. Created by the Fortinet Training Institute, the Fortinet Security Awareness and Training service helps IT, Security, and Compliance leaders build a cyber-aware culture where employees recognize and avoid falling victim to cyberattacks.

The Fortinet Security Awareness and Training service is developed by Fortinet's award-winning Fortinet Training Institute.

With content incorporating threat intelligence insights from FortiGuard Labs, the service arms your employees with the latest knowledge, guidance, and tips to make smarter choices when confronted by cyber attacks and other risks to your organization.

Highlights

- ✓ High Quality Security Training
- ✓ Engaging Learning and Learning Reinforcement Resources
- ✓ Easy to Use Administration and Management
- ✓ Active Monitoring and Reporting
- ✓ FortiPhish Integration with Remediation Training

Key Benefits

Train employees to recognize and report on potential security threats whether in an email, online, or in a physical setting.

Satisfy requirements for security and awareness training across major frameworks including PCI DSS, GDPR, CCPA, and other frameworks.

Prevent the impact of breaches caused by employee errors and poor judgement.

Ensure employees are aware of data privacy and security, and are motivated to protect personally identifiable information and other sensitive data.

Reduce the costs and strain on security and IT in managing infections and removing malware.

FortiPhish Integration

Integrates with FortiPhish for a complete phishing simulation and training solution.

Intelligence-driven Training

Powered by FortiGuard Labs active threat intelligence to ensure courseware and communications are timely and informed by developments observed across the threat landscape.

How the service is different

Designed by security experts and aligned to NIST 800-50 and NIST 800-16, the Fortinet Security Awareness and Training service is designed to help IT, Security, and Compliance leaders build a cyber-aware culture among employees. The service is also available for partners to custom brand and co-brand. Fortinet provides deployment guidance and training as part of the service.

High quality and engaging training

- Training is aesthetic and modern to engage audiences
- Courses introduce users to key concepts, re-engage, and reinforce learning to continually secure organizations
- Allows for remediation actions to ensure employees are on track and behaviors align with corporate objectives

Award-winning training and certification

- Developed by award-winning Fortinet Training Institute which is committed to closing the cybersecurity skills gap
- For security pros, the Institute has separately issued over 740 000 NSE certifications and provided more than 1.5 million free registrations for Fortinet’s cybersecurity training

Intuitive user and admin interfaces

- Admin portal with up-to-date activity monitoring and real-time views of activities by user, groups, modules, and more
- Planning, deployment training, and guidance provided by Fortinet for platform administrators

Closing the cybersecurity skills gap

- Feature rich while being competitively priced to help organizations build a cyber-aware culture, affordably

Responsive to the threat landscape

- Course creations are based on world-class threat intelligence from FortiGuard Labs
- Admins receive quarterly alerts with top threat signals to identify end-user training for addressing relevant threats

Partner-ready

- Provides multi-tenancy to allow partners to offer completed security awareness training services to their customers
- Custom brand and co-brand to manage the full experience from user provisioning to reporting

For more information on additional modules and resources available as part of the service, see the [Course Modules Data Sheet](#).

Solution Overview

Engaging and interactive courses

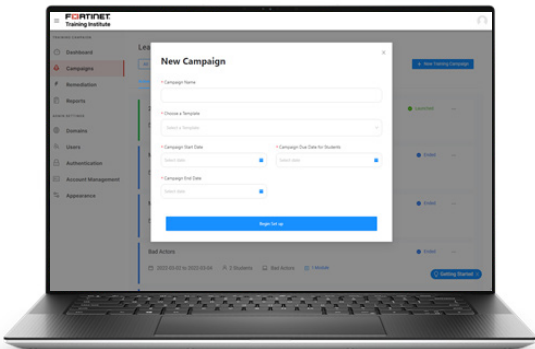

- Role-based training for end-users, managers, and executives
- Courses are designed for optimal learning with introductory modules averaging approximately eight minutes
- Includes re-engagement micro modules averaging approximately two minutes in length

Learning reinforcement resources

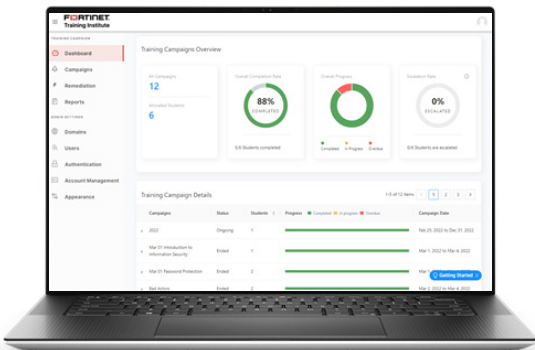

- Reinforce key teachings from the course modules with videos and other assets
- Mix and match assets with different courses and use them to run targeted campaigns on key timely threats:
 - ✓ Nano videos
 - ✓ Posters
 - ✓ Screensavers
 - ✓ Banners
 - ✓ Tip sheets

Campaign builder

- Build custom campaigns with select training modules to address organizational needs
- Set-up automation triggers for learning
- Send "getting started," reminder and course completion emails to users

Monitoring and reporting

- Up-to-date dashboard of user activity
- Out-of-the-box reports available in pdf format
- Report weekly, monthly, or at campaign completion
- Flexible and intuitive report builder gives admins the power to create custom reports
- Campaign reports for executives
