# 2024 Championship Memories

## Meet Glendale's CEO, Jose Barreto

Welcome to the fall, 2024 Glendale catalog. My name is Jose Barreto and I am the new owner of this exceptional company. I am a 17 year (and counting) member of the Armed Forces who, like many of you, began purchasing products from Glendale as a young recruit.

When the opportunity to purchase Glendale came along, I was thrilled. There are not too many companies that have been around for nearly one hundred years anymore, and certainly none with the proud military affiliation of Glendale.

### But who will carry the flag forward?

In a world where the significance of national symbols seems to be fading and recruitment faces unprecedented challenges, Glendale Parade Store and our sister company, The Drill Dojo, are committed to restoring pride in America's military and first responder symbols.

### New Products

Our team is focused on providing best-in-class products for JROTC, ROTC, first responders, and military color guards. We are constantly evaluating and adding new items to meet your needs and expectations. We are creating separate catalogs for ROTC/JROTC, First Responders and Military. As always, you'll find our full assortment at Glendale.com.

### Free Training

Glendale offers the largest free drill program in the world through our sister company, The Drill Dojo. This innovative one-on-one online program inspires personal growth and helps instill a sense of tradition, legacy, and valor in today's youth. (See p. 5)

### Unrivaled Support

Have product questions or suggestions? The Glendale team has your back. Placing a large order? We're ready to help. We'll even send an expert to measure your team for uniforms where you practice and/or create money saving product bundles.

We also attend hundreds of events every year. If you see us at one of yours, please stop by and introduce yourself.

Thank you for being a Glendale customer.

Sincerely,  

Jose Alejandro Barreto Martinez  
Owner, Glendale Parade Store and The Drill Dojo

# Here's What's New!

### Two New Swords! See pages 18 - 22.

There's lots going on at Glendale—a new CEO, a new service team, a new website, dozens of new products and new catalogs that are tailored to you and your needs—all designed to improve our service and your experience. We're excited about the changes and hope you are, too. Please let us know how we're doing. We'd love to hear from you.

### JROTC Wallets **GLENDALE EXCLUSIVE**

A useful gift and a treasured memory in one. See page 41.

### Raider Gear

Glendale is proud to introduce a new line of gear designed for the rigors of Raider training. See page 52.

### Thoughtful Gifts

Glendale makes it easier than ever to celebrate life's milestones with gifts drillers will love. From Swords to Graduation Stoles, to cufflinks, you'll find just what you're looking for on page 77.

### Rocky® Lightweight Commercial Military Boots

The comfort of an athletic shoe meets the performance of a tactical boot. See page 40.

# The Drill Dojo Story

In 2009, young Adam Jeup competed in the World Drill Championships for the first time. There, he joined a community that was invested in sharing their collective knowledge and growing the art of rifle exhibition drill. Motivated by their message, Adam began cataloging tricks through an online training resource he created called Independent Drill. Less than one year later, the military drill world had a new standard in online education.

But as the channel grew, so too did Adam's skills. This led to the release of more advanced tricks on his website. But he realized that while posting videos was an ideal way to showcase technique, it wasn't effective at all for providing feedback. The advanced nature of these moves created a gap where many drillers attempted tricks outside their skillset, highlighting the need for a more comprehensive drill training program.

To address this, Adam enlisted fellow champion drillers Justin Delaurier, Justin Ghan, Andres Ryan, and Neriah Guerin to reimagine program's platform. The new project created a curriculum that helped guide drillers from their first spin all the way to septuple aerials. It soon became known as the Drill Dojo.

Drill Dojo qualified the first drillers in September, 2020. Over the years, the Drill Dojo has certified thousands of military members, veterans, JROTC instructors, first responders, cadets, academy students, service team members, honor guard members, and civilians alike. It has become an integral part of JROTC's exhibition drill phase and a core training component of world champion drillers. In short, there is no finer place to learn exhibition drill anywhere in the world.

## The World's Best Rifle Exhibition Drill Training Tool is Free!

Are you worried about trying dangerous tricks way outside of your skillset? Not sure when it's time to move on to the next level? Want to be sure you're doing a trick right? The Drill Dojo has your back!

The Drill Dojo, the world's best rifle exhibition drill training tool, gives you immediate online access to over a hundred training materials and our custom martial arts style training curriculum. To participate in the program, just learn the tricks in our online videos, film yourself performing them, and submit your video. Our team of World Champion drillers will review your certification videos and check for details like rifle control, body precision, and hand pins. Each month, you'll get detailed feedback on a livestream that will help you grow as a driller and stay safe as your progress.

After you've earned your certification, you can celebrate by purchasing one of our new certified slings (shown on page 4). Invented by us, these Velcro-adhesive slings have been optimized for exhibition drill with a limited-metal design that will reduce injuries to your hands. They are a great way to show off your accomplishments to the world.

There are no sign ups, no expenses, and no hassles. And it's free to use! Just visit [www.drilldojo.com](http://www.drilldojo.com) to get started.

## At Drill Dojo Certification is earned!

The Drill Dojo drill training method marks each level of achievement with a different color (similar to karate and other disciplines that require agility, skill, and commitment). As you progress through the ranks, you can purchase a special Drill Dojo branded sling that is only available to drillers who have been certified. Earning a Drill Dojo sling acknowledges that you have the dedication and desire to achieve excellence for yourself and for your drill team.

# DrillAmerica® 1903 Springfield Replica Rifle

## Beauty, balance, and authentic tone.

With the look, the feel and even the sound of the revered 1903 Springfield rifle, this highly detailed replica will take your drill team, honor guard or color guard to the next level. Known for both its beauty and balance, the 1903 Springfield is the functional equivalent of the drill rifles issued to each service, but with better balance, durability, and quality! Our DrillAmerica® 1903 Springfield is 43.3" long, weighs in at 8.5-8.6 lbs., and is made of the same tough, scratch-resistant high-impact resin as our DrillAmerica® M1 Garand.

### What sets our DrillAmerica® 1903 Springfield Replica Rifle apart:

- Better balance: Bolt and 24" barrel are one continuous piece, distributing weight across the rifle for exceptional balance.
- Exceptional sound: The multi-component rifle has a bit of a tone when you slap or spin it and just enough give when you catch it. You'll appreciate its moving bolt for Inspection Arms.
- Superior durability: We went back to the 1903 original to capture the untouchable strength and toughness of its rear end swivel.
- More authentic look: The beautifully detailed appearance, the serialized bolt, and the black metal parts (also available in chrome) mirror the look of the 1903 original.
- Additional options: Vulcanized butt plate and sling sold separately (accepts any Glendale sling except the MK1 Parade Rifle Strap)

Introduce your team to the 1903 Springfield today and experience for yourself its precise center balance and outstanding sound.

# DrillAmerica® M1 Garand Replica Rifle

## Exceptional balance and quality

The overwhelming choice of drill teams, honor guards and color guards. The M1 Garand features a solid barrel which provides balance and durability. The front and rear swivels are reinforced and more durable than ordinary drill rifles so the M1 Garands can take anything you throw, (or spin) at them. Weighs 9 lbs. Features include a moving bolt to enable Inspection Arms, a trigger that "clicks" for effect, a reversible black rubber butt pad and a metal butt plate. Made of high-impact plastic with a wood-grain appearance, exterior chromed metal parts and a solid barrel. Approved for all JROTC competitions as a demilitarized weapon. Does not have bayonet lug. Length 43". Accepts any Glendale web or leather sling (not included).

All bolts can be engraved on one line, 24 characters maximum. We present the DrillAmerica® M1 Garand with pride. Use it wisely and well!

## DrillAmerica® MK1 Replica Rifle

**DrillAmerica® makes the best drill rifle you can buy. Period!**

When you’re competing, you need enough mass to spin and enough sass to win. The MK1 rifle is weightier, sturdier, and, frankly, classier than other Mark 1’s—and easy on the wallet! Molded from high-impact resin for greater durability, the MK1 uses chrome-plated, non-moving parts and borrows its sturdy, durable metal front band and hardware from our most expensive rifles. 39” Long and roughly 4.3 pounds, which makes it a superior drill rifle for spinning. Can be fitted with any of our leather or cotton web slings.

# DrillAmerica® MK1 and Masters Level MK1 Replica Rifles

## MK1 Masters Level Replica Rifle

MK1 Masters Level Replica Rifle

An emerging legend in precision performance

"Back in the day", explained Michael M. Anderson, 1SG, USA (Ret.) and leader of the perennial champion Heights High School "Rough Riders" from Houston, Texas, "the Mark 1 Drill Rifle we had been using suffered from a number of deficiencies. They were underweighted, fragile and the quality was inconsistent. Our drill team went through stacks of them every year. That all changed when we met Joe Rivas from the Glendale Parade Store."

1SG Anderson told Joe that the MK1 needed some upgrades to earn the loyalty of people who spin heavy weapons. Joe listened and went to work with a respected drill rifle manufacturer. Here's what they did.

### Heavier, more durable construction -

The MK1 Masters Level weighs 5.5 lbs. (a full pound heavier than our standard MK1). The stock is made from high impact resin to add weight and be nearly indestructible.

**Full heavyweight barrel -** The addition of a full-length metal barrel adds heft and improves the rifle's balance, so it makes spinning effortless.

The result? "We were so impressed with these rifles that we entered competitions using the prototypes that Joe sent us. The fact that we did says all you need to know about how great these rifles are. I placed an order for our whole team as soon as they were available."

# Full Size, Half the Weight 100% DrillAmerica®!

## Building a Reliable Parade Rifle, One Test at a Time

Drill America® is more than a name, it is your guarantee that each rifle is the best you can buy. When we developed the Drill America DA30 Parade Rifle we made sure that it would deliver the consistency of weight and appearance that alternative arms drillers need to train effectively. Our high-impact resin parade rifle passed all of our quality tests—but we knew who the real experts were. We sent our rifles out to schools to be field-tested by numerous drill teams. Reports from the field helped us make a good rifle even better. Drillers told us to eliminate the front-stacking swivel and lower the screw-head profile to reduce risk of cuts. They asked us to improve the stiffness of the bolt spring so it wears better. Our testers told us what they wanted. We listened. And together we created a reliable drill-tested rifle perfect for practice and parades.

### Drill America® DA30 Parade Rifle

Just a few ounces either way can change the feel and performance of a drill rifle, something drillers quickly learn as they train. Wooden parade rifles can vary in weight by almost half a pound. The Drill America® Parade Rifle, a replica of the 1903 Springfield, lets drillers train with a full-size (42") high impact resin rifle that, at 4.2 lbs., is exactly half the weight of our other Drill America® rifles. Great for parade use and Alternative Arms Drillers. Built to last, these rifles won't fade, crack or discolor over time. Field-tested by school teams, who helped us make this parade rifle a winner. With nickel-plated barrel and bolt, rubber butt plate, operating bolt action and clicking trigger. Includes a black nylon web rifle sling with nickel hardware. No bayonet lug.

**Please Note:**

**Rifles are NOT RETURNABLE.**

Before ordering a quantity of rifles, we suggest ordering a single piece for your examination to be certain it meets your requirements.

**Rifles Cannot Be Guaranteed Against Breakage.**

You will spin them, throw them, pound them and drop them. Wooden rifles are prone to breakage. For a more durable option consider our DrillAmerica Rifles. They are built really tough, and while we can't guarantee you won't break them, it won't be easy.

**Magnetic 22 Gun Rotary Gun Rack**

Keep drill rifles tidy and easy to reach. This magnetic gun rack rotates around a 30" pedestal, and securely holds up to 22 rifles in only 30" of floor space. Reduces unnecessary damage and teaches respect for the rifles. Turn any corner into a showcase.

Since 1883, Weyersberg, Kirschbaum & Co. (WKC) has manufactured swords and cutlery of impeccable quality in Solingen, Germany, a city famous since the middle ages for its metal-working and craftsmanship in sword making. Today, as the oldest and largest sword manufacturer in Germany, this family-owned business is the leading supplier to military schools and services worldwide. The WKC sword and scabbard are still handmade by skilled sword assemblers and weapon polishers. Even the detailed damascened ornaments of the blades are still etched by hand! No wonder WKC ceremonial swords are worn with pride by U.S. military academies, heads of state, kings and princes, ministers of defense and chiefs of police. Glendale is proud to offer these precision swords and sabers to our customers. Returns for other than defects will be subject to a 15% restocking charge. Engraved Swords can not be returned.

## Sabers & Swords

Sizes available on sabers and swords: 28", 30" and 32" blades. All sabers and swords are handcrafted and include scabbards. The Army Saber is carbon steel, nickel plated. All others are premium stainless steel.

## The History of the Mameluke Sword

Though now designated for ceremonial duty, the swords Marine Officers carry are the oldest weapons still in service in the United States Armed Forces and represent the Marine Corps' rich legacy of fighting by those who our Nation trusts to win.

The "Mameluke," as the sword is now called, is cross-hilted, curved, and developed from the sabers of the Mamluk warriors of the Ottoman Empire in the seventeenth century. During the Napoleonic Wars, the French conquest of Egypt brought these beautiful and functional swords to the attention of Europeans, and the style became very popular for light cavalry officers in both France and Britain. In 1831, the Mameluke became a regulation pattern for British general officers; the 1831 pattern is still in use today. The American victory over the rebellious forces in the citadel of Tripoli in 1805 during the First Barbary War led to the presentation of a bejeweled example of this sword as a sign of respect and praise to U.S. Marine Lieutenant Presley O'Bannon. Lt O'Bannon and his Marines had marched across 600 miles of North African desert to rid the "shores of Tripoli" of pirates and rescue the kidnapped crew of the USS Philadelphia.

By 1825, all Marine Officers carried the Mameluke Sword in recognition of this historic battle—the Marine Corps' first on foreign soil. Today's swords closely resemble those first worn nearly 100 years ago.

A drone made for learning

## Drones Essential to Battlefield (and Trainee) Readiness

Drones have transformed modern warfare and drone pilots will have a leg up on other recruits.

According to a report by the Modern War Institute at West Point, the Army has taken steps to train drone pilots, such as setting up a drone warfare school, but “not enough attention has been given to how soldiers can go on the offensive with small drones at the unit level” and that “the service should consider outfitting formations with affordable commercial drones so units can try using the devices in new ways.” (Source - Stars and Stripes online, March 7, 2024.)

There’s no better way to gain that training experience than with our Co-Drone packages that are easy to fly, 889 compliant, and ready for training and competition.

## Help Their Skills Soar!

### JROTC Drones **NEW!**

Skilled drone pilots are coveted by the military, and the uses for drones are literally just taking off. Glendale has proudly partnered with CoDrone to offer this best-in-class drone to help you teach your JROTC students piloting, programming and communication skills and/or prepare them for JROTC drone flying competitions. Includes quick-start guide, extra propellers, 8 landing pads, smart controller, rechargeable batteries and charger. American Security Drone Act (Section 889) compliant and ready to fly.

# When Every Catch Needs to Be Perfect

When a secure hold is a matter of honor, when each slip means a demerit, it's time to graduate to our sure-grip gloves (page 25). While we offer a wide assortment of gloves for every need, our Sure-Grip Flag Bearer Gloves are a clear customer favorite for top competitors.

And for good reason. First and foremost, the patented dots spread over the palms and between the thumb and index fingers and the small and ring fingers secure your grip. Because the gloves are breathable 100% cotton, they stay cool and comfortable even on the hottest of parade grounds. Wrist grips keep them precisely in place. Double reinforcement makes them tough.

To be a top competitor, you need the right equipment. Don't overlook the importance of the right gloves!

## SURE-GRIP

*Sure Grip Gloves feature patented patterns of rubber-like dots on the fingers and palms to give you the extra grip needed to perform exacting maneuvers with confidence and precision.*

# Infantry Style Shoulder Cords

For color brilliance, thickness, smoothness, strength, and weight, we really do have the finest cords made in the United States! Each cord — braided, knotted, and sewn by hand — is a true testament to quality and craftsmanship. Because the same U.S. factory both creates the braid and makes the finished cord, our customers are assured of consistent top quality year after year.

The button loop-style is designed to be worn with an epaulet that unbuttons. The open-end style with hook-and-eye closure is designed for epaulets that do not open. The wrapped pin attachment style can be worn on uniforms or shirts without epaulets or with epaulets that unbutton.

## Think Pink Shoulder Cord **CUSTOMER FAVORITE!**

Wear a pink cord and show you care! Use our button-loop bright pink shoulder cord for fundraising and to reward your cadets for community service in the fight against breast cancer. We're proud to donate a portion of the proceeds for every sale of this cord to the Susan G. Komen Foundation.

# Competition Color Guard Checklist

For the color guard unit looking to be highly proficient in competitions, Glendale Parade Store enlisted the help of professional drill team trainers to determine the best gear for competition color guards!

After more than a decade of National Championship-winning excellence, this gear comes recommended by the top color guard instructor in the country, Edford Luckey, MSG, USA (Ret.) formerly of Alamo Heights High School in San Antonio, TX.

NOTE: This gear checklist does NOT apply to MCJROTC units who must drill in strict accordance with their service guidance.

## Start with Poles and Toppers

Traditional Fit Two-Piece Aluminum Poles: see page 87

For male/mixed teams, select 8'x1 1/4".

#84S (Silver) or #84G (Gold)

For all-female teams, select 8'x1".

#81S (Silver) or #81G (Gold)

Aluminum poles add snap and pop to all your standing manual, ensuring your unit catches the judge's eye!

Round Spears are the BEST choice for uncasing/casing of the colors in competition due to their rounded edges!

Styrene Traditional Fit Round Spears see page 85

#85SC (Silver) or #85SG (Gold)

Traditional Fit 7" Army Spades see page 85

#22C (Chrome) or #22B (Brass)

Suitable for both National and Organizational/State colors!

## You'll want the best carriers...

Leather Flag Carrier, Double-Harness with Plastic Cup

#1802BK (Black) or #1802WH (White) see page 80

The larger diameter and material of the cup ensures no misses and amazing audio to "WOW" the judges! Also available in Clarino high-gloss finishes!

## Don't forget casings to protect the colors...

Canvas Flag Covers

#68 (Choose Your Color/Imprinting) see page 81

Choose from our wide variety of colors and imprint with lettering of your choice for a sharp look! These can be pressed and starched for crisp performance!

## Each member will need a belt...

Military Police Belt #180 (Choose Your Color/Finish) see page 35

Easy to maintain and classy, these belts will compliment each of your color guard cadets! Make sure to get one for each member of your color guard!

## Last but not least...

3x4 Un-Fringed American flag #0223 see page 95

and State Colors call for custom quote on state flags!

The 3x4 size ensures that flags do not hang in cadets' faces helping vision/alignment and displaying their amazing bearing to the judges! The shorter length means fewer cranks while uncasing/casing the colors! We recommend NO fringe for competition units, especially those uncasing/casing the colors!

## Do you need rifles?

Check out our selection of competition-ready drill rifles on pages 4-14! While any of these rifles are suitable for competition, we recommend the DrillAmerica 1903 Springfield replica rifle for its sharp appearance and exceptional balance!

**Sam Browne Belts and Accessories**

So how did this classic duty belt get its name? British General Sir Samuel Browne (1824-1901) designed it after his left arm was severed during battle in India; the strap helped stabilize the belt for the one-handed drawing of a saber. Our Sam Brownes are made of top grain leather, 2 1/4" wide with panel stitching for beauty and durability. Plain black waist belts and shoulder straps are available half-lined, and fully lined with top and bottom stitching. Clarino (high gloss) belts and straps are fully lined with top and bottom stitching. The "D" rings on shoulder straps are sewn into belt when ordered together; if you buy the belt only, then later decide to add a shoulder strap, sliding "D" rings will be required to attach strap to belt. When selecting your size, remember to add at least 2" if the belt will be worn over a jacket. **Shoulder straps are made in proportion to belt size. When ordering shoulder straps separately, order by length.** If you need assistance in belt or strap measurements, please call, or visit [www.paradestore.com/SamBrowne](http://www.paradestore.com/SamBrowne). Belts and straps are custom-made. Returns will be subject to a 15% restocking charge.

## Made with Pride, to be Worn with Pride

Glendale makes Made in America a top priority whenever we add new products. We know what a difference working with American companies makes to our communities and our customers.

Our Made in America products range from wallets and badge holders to badges, buttons, socks, and flags, but they share a single thread — they are all crafted by people dedicated to supporting you and your team with products you can rely on when it really counts.

When you see the Made in America logo in our catalog, it means we carry that product with an extra measure of pride, so that you can, too.

Here are just a few of the companies we are proud to work with:

### Smith & Warren

Maker of badges, insignia, and uniform accessories of the absolute highest quality standards since 1925.

### Perfect Fit

Hand-tooled wallets, badge holders, and accessories made in Maine one piece of leather at a time.

### Wilson Brown Sock Company

From day one, on a mission to supply the US Military with performance socks.

### Waterbury Button Company

Founded in 1812 to supply American soldiers with buttons for their uniforms.

### Flags

All of our American flags are FMAA certified as made in the U.S.A. with domestic resources and labor.

## New Air Force Warrant Officer Program Creates Cyber Security Experts

For the first time in 65 years, the U.S. Air Force has created a new warrant officer program. The new Warrant Officer Training School is currently an eight-week program that gives existing Air Force IT and cyber security specialists the enhanced training they need to become the link between war fighters and their leaders serving on the front lines.

The new training school creates "a way service members can progress their careers without having to broaden and generalize their skills to rise up the ranks of NCO leaders," said Maj. Nathaniel Roesler in a recent issue of Air and Space Force Magazine.

In addition, the Air Force is developing a 10-14 day "on ramp" designed to recruit civilians with specialist skills directly into the warrant officer program. This is an exciting development for potential recruits who are interested in serving our country in a technical capacity, especially when those skills are so highly valued.

Klench Fasteners, brass #2162

Klench Fasteners, brass with protective clear back #2163

## Klench Fasteners

Both fasteners have the same strong holding capability—the magic is in the urethane membrane. The fasteners with a clear back have a flexible protective back and will accept a longer pin backing on insignia, name tags and ribbon bars and hold them flush to the surface of the uniform. Neither will cause skin abrasion. Sold in a packaged set of 6.

# Ribbon Mounts

## Metal Ribbon Mounts

These contoured Uni-mounts are for standard metal ribbon mounts and right staggered ribbon mounts for the left collar. Single, Double and Triple mounts are made of brass, all other mounts are made of durable but lightweight stainless steel.

## Standard Metal Ribbon Mounts **BEST SELLER!**

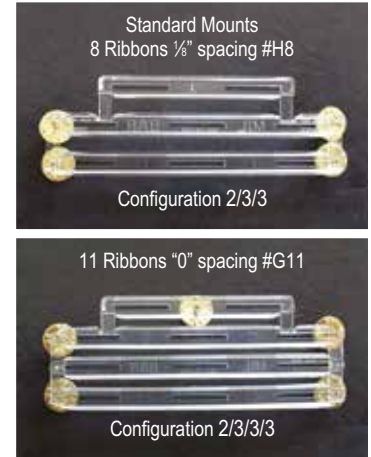

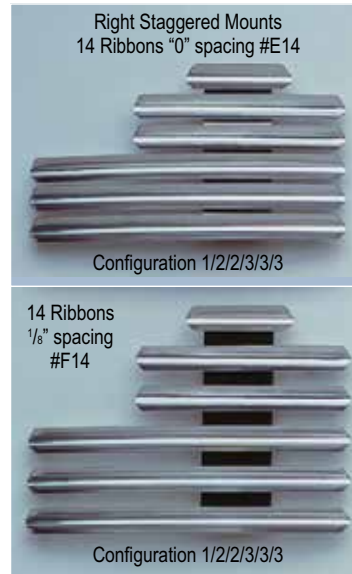

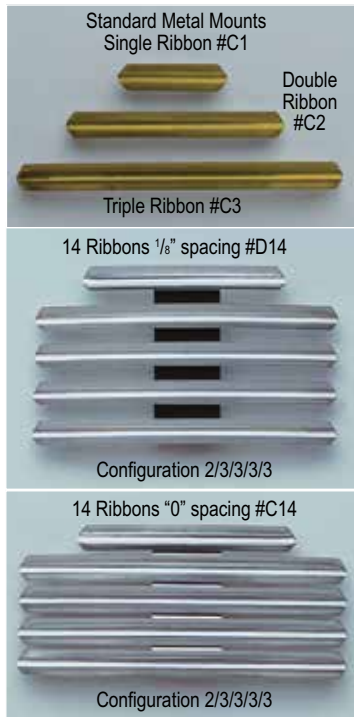

All ribbon holders are center mount and include clutches.

## Right Staggered Metal Ribbon Mounts

These multiple ribbon mounts are staggered to fit around a lapel, so all ribbon awards will show. Includes clutches.

## Standard Plastic Ribbon Mounts

Unlike metal mounts, these flexible mounts contour to the shape of the body. In fact, they will bend to 90° and still revert back to original shape. All ribbon holders are center mount and include clutches.

Coat of arms of the United States Army Institute of Heraldry

## Who Designs Military Ribbons?

In 1918, the President directed the War Department to establish an office that could organize military insignia such as metal badges, ribbons, patches, and flags. Accordingly, the U.S. Army Institute of Heraldry was created one year later. Its original purpose was to take responsibility for the coordination and approval of coats of arms and other insignia for Army organizations. By the end of World War II, its role expanded to include the other military services.

“Our Nation’s premier team of heraldic experts...

The guardians of our National symbolic heritage.”

The Institute of Heraldry’s work encompasses all elements of National symbolism associated with research, design, development, standardization, quality control, and other services which are fundamental to the creation and custody of official coats of arms, decorations, medals, flags, streamers, agency seals, badges, and other types of official insignia. TIOH also provides the general public with limited research and information services.

In addition to ensuring the quality and consistency of design, TIOH honors the centuries old function of making sure emblems, insignia and ribbons provide clear visual communication and identification on the battlefield and wherever else they are worn or displayed.

### An honor that will last

Metals and inserts you can be proud to give, these are produced from top quality materials carefully selected for their metal integrity. To display a more specific message, place an insert into the shield where the "V" or laurel leaf symbol is located. Unless noted, all are available in gold, silver, or bronze tone. Because these medals do not require additional inserts, prices for medals and inserts are separate.

Engrave medals on the reverse side for \$5.00 per medal. Submit customized engraving in writing.

Mon-Fri 8 AM - 5 PM Central Time
- By Fax: 800-555-9269 or 201-767-3323  
7 days a week, 24 hours a day.
- Online: [www.ParadeStore.com](http://www.ParadeStore.com) (Also a great way to learn more about us, subscribe to the "Bugler" newsletter or send us an e-mail.
- By Mail: 12754 O'Connor Road San Antonio, TX 78233.  
(If a mailed order confirms a phone, fax, e-mail, or Web order, please mark it "CONFIRMATION" to avoid duplication.) Within TX, add 8.25% sales tax. If tax-exempt, notification must be included at time of order. Please make a note of your customer account number that appears above your name on the address label. Using it for each order or inquiry speeds response time! Order Processing: Most orders are processed and available items are shipped within 5 business days. (Refer to the UPS Ground Service map for time in transit.)

## Back Orders:

Unforeseen demand or manufacturer's delays occasionally result in items that are out of stock. Nevertheless, it is our policy to ship all available merchandise and back order the balance unless customer specifies otherwise. There are no additional delivery charges for multiple shipments within the contiguous U.S.

Custom Orders: Please plan accordingly. Custom work may take 4 - 10 weeks for delivery. Submit specifications for custom work, including imprinting, embroidery and engraving in writing. Credit cards will be charged and items cannot be canceled once production has begun.

## Prices:

Prices in this catalog are FOB San Antonio, TX effective August 1, 2024, and supersede all previously published prices. **We reserve the right to correct and change prices due to errors or frequent manufacturer increases.**

Payment Terms: Credit will be extended on authorized purchase orders of U.S. schools, military, police and fire units, and government agencies. Terms are Net 30 days. Visa, MasterCard, Discover, American Express and Impac/GPC/Smart Pay Visa orders are accepted. All other orders prior to shipment must be paid in full by check or money order to Glendale. Orders with declined credit cards will be canceled and are subject to a \$5 charge on reorders. When authorized, we will make partial shipments to meet customer deadlines; but partial invoices must be paid within our payment terms.

## Colors:

We try to accurately reproduce all colors shown in this catalog, but some variation may occur due to the printing process. Reorders are best handled by sending a sample for us to match colors. We aim for consistency, but variation in dye lots may occur. Small fabric swatches are available for cords, berets and bib scarves.

## Shortages or Damaged Goods:

Despite our quality assurance efforts, damages can occur in production or transit and order processing errors can be made. Please inspect all merchandise carefully. Call Customer Service at 1-800-653-5515 to report damages and claims. If a shipment is damaged in transit, it may be necessary for the carrier to inspect the shipment. Hold all cartons and packaging materials until you speak to us. We cannot accept responsibility for shortages or damages reported more than 48 hours after delivery.

## Glendale Exclusives:

Glendale has created and developed many unique and exclusive items. We are the only source for these products and reserve the right not to sell them for resale. Retail sales only.

## Suggestions:

We appreciate any suggestions, comments, criticisms, or questions you may have about our catalog, website, products, or service.

## Guarantee:

We fully guarantee all merchandise against defects in material and workmanship.

## Returns and Exchanges:

If there are any problems, please notify us immediately upon receipt of order. Merchandise must be returned only with prior authorization within 30 days of receipt in "as shipped" condition, including all original and retail packaging. We cannot accept returns of rifles, two-color cords, three-color cords, personalized items, DVDs or CDs, books, medals with inserts, custom orders or used or altered merchandise. A 15% restocking charge will apply to all Sabers & Swords as well as Sam Browne belts and straps.

Return items to: Glendale, Attn: Returns, 12754 O'Connor Road San Antonio, TX 78233.

- We will refund the purchase price for returned items.
- Original shipping charges are not refundable nor can they be credited unless shipment is Glendale's error. Only then will we pay return and/or replacement shipping charges.

## Shipping Information:

All packages will ship UPS Ground or US Postal Service (USPS), whichever is more expedient. APO/FPO will be sent USPS Priority, and a receiver's signature will be required. UPS fees incurred for change-of-delivery address or address errors after package has shipped will be charged to customers.

## Please Note:

For UPS Ground delivery, include a street address in shipping instructions. For all orders shipped by ground service within the contiguous United States, shipping charges are determined by the MERCHANDISE VALUE + any additional shipping surcharges for flag pole floor stands, rifle cases and drill bars.

**Airliner Flag Carrying Case**

Designed for frequent travel, this rugged case is called the "Airliner" for a reason! The innovative three-piece telescoping design extends from 48" to 88" and has a diameter of 5 1/2" to accommodate a mounted flag. This tough molded tube is lockable for secure travel and has a comfortable molded handle for easy carrying. Because it nests to only 48", it can easily be shipped by US Mail to overseas customers. Airline approved!

- #65 **\$89.95** each (\*\$10)

\* There is a shipping surcharge for heavy items. The surcharge is in parentheses following the price. See page 79 for complete shipping information.

**Flag Carrying Case**

The perfect case for carrying or storing two poles up to 8 1/2" long or one mounted flag set with spear ornament. 4 1/4"-diameter tube telescopes from 60" - 102" and has protective foam padding at the top. Easy-to-load hinged door with padlock eyes. Please note: This case is oversized and can only be shipped by UPS Ground or Parcel Select.

**Imprinted Canvas Flag Covers**

Letters available in 2", upper case only. All orders for imprinting must be submitted in writing to avoid misprints. Email us at customerservice@glendale.com. Cover will be printed horizontally (as shown) with up to 25 characters/spaces. If a vertical design is needed, only 20 spaces are available. No punctuation marks.

**Step One**—choose cover color :

Navy - #68NV, Red - #68RD, Royal - #68RY, Black - #68BK, Green - #68GR

**Step Two**—choose direction of printing:

Horizontal - HI, Vertical - VI

**Step Three**—choose the color for the lettering:

White - WH, Gold - GO, Red - RD, Black - BK

**Step Four**—choose the number of letters

A: 1-6 (vertical or horizontal) **\$45.95** each

B: 7-13 (vertical or horizontal) **\$49.25** each

C: 14-25 (Horizontal only) **\$63.25** each

**Step Five**—put it all together. The code for a navy flag cover, with horizontal printing, white lettering, and 15 letters would be #68NV HI WH C.

**Firefighter, Police & EMT Mourning Cords**

This shoulder cord started a new tradition for funeral honor guards. Designed by a member of a police honor guard and, like all Glendale shoulder cords, handcrafted in the U.S. The button loop-style (shown here) is worn with an epaulet that unbuttons. The open-end style with hook-and-eye closure is worn with epaulets that do not open. The wrapped pin attachment style can be worn on uniforms or shirts without epaulets or with epaulets that unbutton. The funeral honor guard stands at attention – a mourning band covers each member's badge — and each uniform displays a unique mourning shoulder cord. It's a look that is both distinctive and respectful. **These cords generally have a 28" circumference.** They can be custom-made in two longer lengths. Add \$5 to the price for an additional 5" and \$8 for an additional 10". Then, add the length to the number -- for example, #4521106X5 or #4561107X10.

**State & Territorial Flags** (See page 94-99 for U.S. Flags) 

Unexcelled in beauty and craftsmanship and made to exacting specifications. Seals and designs are authentic and always in correct proportion to flag size. Emblems are dyed in fast, brilliant colors. (We cannot guarantee against fading or weathering.) **Indoor and Parade use flags** are made of lustrous 100% nylon. Finished with a flannel-lined pole hem with Velcro® tabs and golden yellow fringe. **Indoor flags** may also be ordered without fringe, if desired. **Outdoor display flags** are made of 100% heavyweight SolarMax nylon bunting (specially treated to minimize sun and chemical deterioration) and finished with strong canvas headings and large brass grommets. To order, indicate the flag number + state abbreviation. (For example #22035TX, for a Texas indoor flag size 3' x 5' or #22035UTX for the same without fringe.)

**Armed Forces Flags** 

**Nylon:** This high-quality fabric exceeds stringent U.S. Government specifications. It is the most popular flag material and offers both durability and beauty. Outdoor flags have strong canvas headings and brass grommets. Indoor flags are

finished with flannel-lined pole hems, Velcro® tabs, and golden yellow rayon fringe. A single seal flag is correct on one side; reverse on the other. A double seal flag reads correctly on both sides. Double seal flags 4 1/2" x 5 1/2" and

larger will have the branch of service seal appliquéd onto the larger background. The lining of double sided flags is heat sensitive. Do not press.

### Choosing Outdoor U.S. flags:

Glendale is proud to present a selection of outdoor flags designed to stand up to the varying weather conditions in which they fly. All styles are made with strong canvas heading and grommets for display on outdoor flag poles:

#### Polyester

The most durable flag fabric you can buy. Engineered for industrial, commercial and institutional use. (As with all flags, improper flag care, high winds, high temperatures and other environmental conditions that vary due to climate and location can reduce the fabric life.)

#### Nylon

Nylon is the most popular flag material. It is lightweight, holds dye well and can stand up to extreme conditions. Nylon flags can be recycled.

#### Cotton

An excellent quality flag made of extra-strength cotton weave bunting with rich colors that are resistant to sun and rain, making it suitable for a wide range of applications.

#### How long will a flag last?

The U.S. government generally expects a nylon or cotton bunting flag to last approximately 90 days, based on daily usage from sunrise to sunset — but not during periods of inclement weather. Tests have shown that in some cases a flag flown 24 hours a day will last only one-fourth as long as one flown during the daylight hours only. Regardless of how well it is constructed, a flag is, after all, only a piece of cloth and will sooner or later succumb to the elements. However, it has been well documented that reasonably good care can contribute greatly to longer life.

Government Spec U.S. Flag #4322

### Government-Spec Outdoor Display U.S. Flags

Made to U.S. government specifications in accordance with U.S. Code, Title 4, in the official government size (1:1.9) hoist fly ratio. Choose from high-tenacity, industrial strength-70 denier lightweight nylon or 2-ply mercerized cotton bunting. Heavy canvas duck heading is constructed to government specs. Lock-stitched seams, material and color-matched thread. Stars are 3/4".

### Appropriate flag sizes for outdoor poles:

Length of flag should be approximately 1/4 of the height of the flagpole:

20' pole - 3' x 5' flag.

25' pole - 4' x 6' flag.

40' pole - 6' x 10' flag.

A second flag flown under the U.S. flag should be one size smaller than the U.S. flag.

Our Solar Lighted Flag needs no plugs, cords or power to shine bright!

## Choosing Indoor & Parade U.S. flags

### Nylon

Very durable. Made of high quality nylon that exceeds stringent U.S. Government specifications. High-gloss, densely embroidered stars. Lock-stitched, hand-sewn stripes and hems. Finished with flannel-lined pole hems, Velcro® tabs and, if requested, golden yellow rayon fringe.

### Bemberg Rayon

The finest, most luxurious flag fabric available. Woven of heavy Bemberg rayon, this flag combines a beautiful appearance with superior form retention. A particular favorite of the federal government. Features large embroidered rayon stars. Finished with a flannel-lined pole hem and Velcro® tab. Available with golden yellow rayon fringe. Note: this fabric may stain if it gets wet.

### Recommended sizes

Flag Size	Pole Size	Tassels & Cord
2' x 3'	7'	3" & 5'
3' x 5'	8'	5" & 9'
4' x 6'	9'	5" & 9" or 6" & 9'

### Flag Spreader

The center part of this spreader snaps around an indoor pole, and the ends clip to the sides or to both corners at the bottom edge of the flag – holding an indoor flag open, so more of it can be seen when it's draped.

**4' x 6' mounted flag set.** Includes 4' x 6' fringed nylon flag (#0216), 9' x 1 1/4" wood pole with dark oak finish (#94W), brass-plated eagle with 7" wing span (#7A), 6" golden tassels with 9' cord (#119) and 8 lb. gold Liberty Floor Stand (#LG8) **\$379.95** each

## How to mount an indoor flag:

**On aluminum poles** – Pull out the Velcro® tabs inside the top and bottom of the pole hem. Loosen the set and eye screws of the aluminum ring, slide it down the pole, and position it where it will hold the bottom tab of the flag. Carefully slide top of pole up through the flag's pole hem. Attach the ornament to the top of the pole. Slip tab button holes over the eye screws of both the ornament and ring. Adjust aluminum ring so that pole hem is taut and tighten screws against pole. Instead of attaching tabs to the eye screws, Velcro® tabs can be more permanently fixed directly to the pole. Remove the adhesive backings, position the flag and press the sticky sides of the tabs to the flag pole.

**On wood poles** – No bottom ring is required. Top Velcro® tab may be attached to the eye screw of the ornament or the adhesive side may be affixed directly to the flag pole.
