Fleet Management Solutions

Public Transportation

Real Time Updates Of Public Transit

+ Driver Safety

Manage drivers and vehicle maintenance in real-time to ensure that drivers are abiding to the rules of the road so passengers can travel risk-free

+ Fleet Maintenance

Monitor the utilization of vehicles to ensure breakdowns that cause route delays are prevented by conducting preventative maintenance

+ Route Management

Monitor and review route demand and passenger ridership to ensure that the appropriate number of vehicles are dispatched to remain efficient

+ Tracking Visibility

Track the location of vehicles to provide riders real-time updates on vehicle location, route changes, alternative transit routes and more

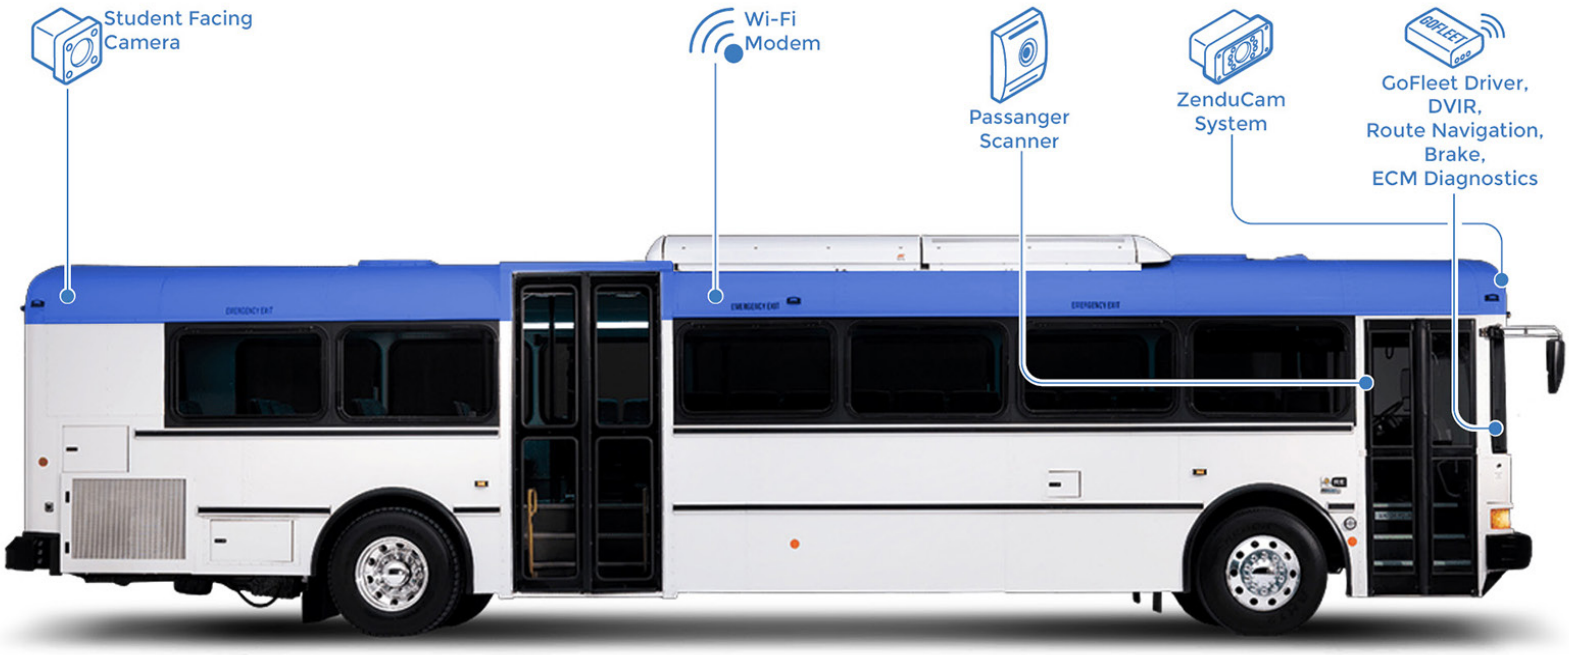
gofleet

Top Concerns We Address



Vehicle Upkeep

Manage vehicle health remotely with total visibility of sudden mechanical concerns or upcoming maintenance to reduce sudden breakdowns that stop work

Fuel Cost Management

Ensure fuel top up and use is monitored to reduce fuel wastage while monitoring driving behaviour to reduce expensive fuel-related activities like idling, speeding or route changes

Customer Demands

Manage driver behaviour, vehicles and routes to improve and optimize efforts so the transit riding experience remains consistent to keep customers happy

Passenger Counting

Monitor and track the number of passengers on a vehicle at any given time to adjust route frequency and to ensure that capacity restrictions are met

Increasing Size and Scale

Monitor rider demand to predict possible busy seasons or times when additional vehicles are required to efficiently transport the public

Give Riders Real-Time Updates While Commuting

Bus ETA

Give real-time live location updates of arriving buses to passenger's mobile apps while easily adjusting and creating new bus routes

ZenduCAM

Strengthen fleet safety and reduce risky driving behavior with innovative dash cameras that allow you to watch live playback of events, see trips and more

Mobile Dispatch

Quickly review previous, current and future routes that drivers are assigned and adjust routes based on driver or vehicle availability to maximize productivity

Geotabs & NFC Readers

Track the location of vehicles and individuals riding each vehicle when NFC tags are scanned on readers located within the bus

ZenduMaintenance

Access fault codes, schedule preventative maintenance, manage inventory and parts, set-up custom reports, and access maintenance cost accounting tools

goFleet

We don’t just provide another fleet tracking system.

We are in the business of providing you a solution. Our fleet consultants work with you to understand your business. We help you implement solutions based on everyday pain areas and industry best practices. Of course it helps having the industry’s most powerful and reliable GPS vehicle tracking system, but the real difference is made in our customer service. Let us show you the GoFleet difference.

+ Implement an equipment maintenance management program with solutions that analyze engine data against best practices

+ Know the real-time location of vehicles and deliveries with trackers that show visibility of fleets and customers

+ Integrate smart dash cameras that record not only the events leading up to an incident, but HD footage of the driver to monitor for unsafe behaviour

+ Keep incidents low by using advanced collision prevention solutions that alert drivers if they are approaching another vehicle or pedestrian

+ Reduce environmental strain and keep costs low with fuel management programs that monitor fuel utilization against industry KPIs

+ Measure, monitor and report on nearly anything with IOX expandability

Learn how we’re changing fleet management at gofleet.com

ZenduMaintenance
Automatically generate work orders, track your parts inventory, schedule downtime, and more

ZenduCAM
Leverage connected cameras to monitor the driving behaviour to encourage driving habits

Bus ETA
Track bus location and provide real-time updates of route information to mobile apps

ZenduLearn
Digital training that allows for quick course deployment, tracking and personalization

ZenduForms
Create custom forms with location recording, geofencing and approval requirements built-in

ZenduWork
Access all dispatching and work order tools to increase efficiency and productivity
