

GROTE LIGHT BAR CHANGE NOTIFICATION

As part of Grote's commitment to continuous product improvement, we have implemented changes to our **LED Off-Road Light Bars**.

Grote's LED Off-Road Light Bars have increased in size. Please take note of new overall dimensions and mounting hole positioning. Additionally, Grote's LED Off-Road Light Bars now feature:

- 50% brighter output (64J11 = 5400 lumens, 64J21 = 10800 lumens, and 64J31 = 16200 lumens)
- The same or lower amperage draw as previous versions
- Dual mounting options (adjustable pedestal or side mount)
- An updated wiring harness with a DT Deutsch connector, illuminated switch, 40A relay, and total length of 8.25'
- Full color, retail-friendly packaging

PRODUCT NUMBERS AFFECTED:

64J11-5 64J21-5 64J31-5
