

2009-10 Operations, Information & Technology Seminars

Spring 2010

Date	Speaker	Title
Apr 7	Paul Zipkin Duke University	Supply Streams
Apr 14	Albert Ha Hong Kong University of Science and Technology	Sharing Imperfect Demand Information in Competing Supply Chains with Production Diseconomies
Apr 21	Martin Lariviere Northwestern University	Saving Seats for Strategic Customers
May 5	Charles Fine MIT	From Operations Dynamics to Value Chain Dynamics: A Mule's Perspective
May 19	Hyo duk Shin Northwestern University	Optimal Timing of Sequential Distribution: The Impact of Congestion Externalities and Day-and-Date Strategies

Winter 2010

Date	Speaker	Title
Jan 13	Alejandro Toriello Georgia Institute of Technology	Decomposing Multi-Period Fixed-Charge Network Flows with Approximate Value Functions
Jan 27	Pnina Feldman University of Pennsylvania	Dynamic Versus Static Pricing in the Presence of Strategic Consumers
Feb 3	Denis Saure Columbia University	Dynamic Learning and Customization in Display-based Online Advertisement
Feb 5	Kostas Bimpikis MIT	Dynamics of Information Exchange in Endogenous Social Networks
Mar 5	Andy Skrzypacz Stanford GSB	Optimal Dynamic Auctions for Durable Goods: Posted Prices and Fire-Sales

Fall 2009

Date	Speaker	Title
Sep 30	PhD Student Presentations	
Oct 7	David Brown Duke University	Information Relaxations and Duality in Stochastic Dynamic Programs
Oct 28	Sarang Deo Northwestern University	The Impact of Size and Occupancy of Hospital on the Extent of Ambulance Diversion: Theory and Evidence

Nov 11	Retsef Levi MIT Sloan School of Management	Non-Parametric Data-Driven Policies for Stochastic Inventory Control Models Related papers: Provably Near-Optimal Sampling-Based Policies for Stochastic Inventory Control Models Adaptive Data-Driven Inventory Control Policies Based on Kaplan-Meier Estimator
Nov 18	Garrett van Ryzin Columbia University	Creating Sales with Stock-Outs
Dec 2	Gerard Cachon University of Pennsylvania	The Cost of Carbon and Supply Chain Design
