

2013-14 Operations, Information & Technology Seminars

Spring 2014

Date	Speaker	Title
Apr 23	David Simchi-Levi MIT	Abstract: Understanding the Effectiveness of Sparse Process Flexibility
Apr 30	Itai Ashlagi MIT	Abstract: Optimal Allocation without Money: An Engineering Approach Joint with Peng Shi
May 6	Cynthia Rudin , MIT Gah-Yi Vahm , London Business School	The Big Data Newsvendor Practical Insights from Machine Learning
May 7	Costis Maglaras Columbia Business School	Abstract: Queueing Dynamics and State Space Collapse in Fragmented Limit Order Book Markets
May 21	Gad Allon Kellogg School of Management	
May 28	Dan Iancu Stanford GSB	Abstract: Operationalizing Financial Covenants
Jun 4	Kostas Bimpikis Stanford GSB	Abstract: Multi-Sourcing and Miscoordination in Supply Chain Networks

Winter 2014

Date	Speaker	Title
Jan 8	Kuang Xu MIT	Queueing System Topologies with Limited Flexibility Queueing with Future Information On the Power of (Even a Little) Resource Pooling
Jan 22	Florin Ciocan MIT	Model Predictive Control for Dynamic Resource Allocation
Jan 29	Ruomeng Cui Kellogg School of Management, Northwestern University	Information Sharing in Supply Chains: An Empirical and Theoretical Valuation
Feb 5	Nitsh Jain INSEAD	Managing Global Sourcing: Inventory Performance
Feb 12	Yonatan Gur Columbia DRO	Optimization in Online Content Recommendation Services: From Clicks to Engagement Non-Stationary Stochastic Optimization
Feb 19	Shiliang (John) Cui The Wharton School of Business	A Model of Rational Retrials in Queues

Fall 2013

Date	Speaker	Title
------	---------	-------

Sep 25	Baris Ata Booth School of Business, University of Chicago	Structural Estimation of Callers' Sensitivity in Call Centers
Oct 2	Alex Nikulkov , Stanford GSB Joel Goh , Stanford GSB	Effect of Upstream Competition in Spot Market on Short Life Product Supply Chain Joint with Hau Lee
Oct 16	Vish Krishnan Rady School of Management, University of California San Diego	Inclusive Innovation Broader Market Coverage for Innovative Products Joint with Oleksiy Mnyshenko and Hyoduk Shin
Oct 23	Gabriel Weintraub Columbia Business School	Measuring the Performance of Large-Scale Combinatorial Auctions: A Structural Estimation Approach
Nov 6	Rene Caldentey NYU Stern	Abstract: Insider Trading with Incomplete Information
Nov 13	Ozalp Ozer Dallas School of Management, The University of Texas	Abstract: Trust, Trustworthiness and Information Sharing in Global Supply Chains
Dec 4	Jiawei Zhang NYU Stern	Abstract: Process Flexibility: Performance Guarantee of Sparse Flexibility Structures
