### Fund ESG Ratings

MSCI ESG Rating™:

**MSCI**  
ESG RATINGS

CCC B BB BBB A AA AAA

Produced by MSCI ESG Research as of 26.01.24.

### SFDR Classification

Please see the fund's [Sustainability-related disclosures](#) and [SFDR Pre-contractual Disclosures](#), available on our website, for more information. [Periodic Reports](#) are also available.

### Fund Profile

#### Benchmark

MSCI Golden Dragon Index

#### Investment Objective

An equity fund investing primarily in companies that are listed in Greater China or derive at least 50% of their revenues from business activities in the region. The Fund is actively managed and uses the MSCI Golden Dragon Index as a comparator benchmark only.

#### Investment Case

Gives exposure to economic expansion and demographic trends in China and Taiwan. We believe that over the next twenty years China will experience rising incomes, the spread of wealth and the continuing expansion of its consumer market. This economic transition should lead to more sustainable growth than the industrial and infrastructure-led growth that China has already experienced.

<sup>2</sup>Cluster munitions, landmines, and biological and chemical weapons.

<sup>3</sup>Companies that generate more than 30% of revenues via thermal coal extraction or thermal coal power generation.

### ESG Integration Summary

ESG analysis is incorporated into investment decision-making on an ongoing basis, accompanied by a detailed review of each company. The review considers the Environmental, Social and Governance risks facing the company, the ways in which management mitigates them and their progress in doing so. The company's business is first assessed for the material risks posed by the industry and by the company's operations. The review consists of company-specific analysis of these material and relevant Environmental and Social risks. Regardless of industry, each company is assessed on carbon risk and employee relations, as well as Governance. Further information is available in the investment team's Approach to Responsible Investment and ESG paper, available [here](#).

### Fund Weighted Average Carbon Intensity (WACI)\* in tCO<sub>2</sub>e/\$M revenue

The fund's carbon intensity is measured and reported over time.

Source: Guinness Global Investors, CDP; Coverage: 100% (2021), 90% (2022), 93% (2023).

\*The Weighted Average Carbon Intensity (WACI) metric is calculated by multiplying the carbon intensity (emissions relative to revenue in millions USD) of each fund holding by its portfolio weight (the value of the holding relative to the total value of the portfolio, excluding cash). Carbon intensity is based on Scope 1 and 2 emissions. Scope 1 emissions are direct greenhouse gas emissions from sources that are owned or controlled by the company. Scope 2 emissions are indirect greenhouse gas emissions from the generation of energy purchased by the company (Reference: GHG Protocol). Coverage refers to the percentage of the carbon intensity data available at the date of publication for underlying fund holdings (as a percentage of total assets excluding cash).

## Stewardship

Stewardship activities are integral to the investment process applied by the team. We believe that resourcing our stewardship activities with the investment team itself, with dedicated assistance as required, is the best way to ensure effective stewardship. The investment team's ESG incorporation approach often informs their proxy voting and engagement activity. In a spirit of transparency, we disclose fund-level voting and engagement statistics and case studies for calendar year 2023 below.

## Voting

The investment team make their own voting decisions based on their own research, supported by proxy voting research from Glass Lewis. All voting is undertaken by the investment team, with oversight provided by our Responsible Investment Committee. In order to vote, some markets require shares to be temporarily immobilised from trading until after the shareholder meeting has taken place (referred to as 'share blocking'). Some other markets require a local representative to be hired, under a Power-of-Attorney (POA), to attend the meeting and vote on our behalf. In such instances, it may sometimes be in clients' best interests to refrain from voting. But in all other circumstances we endeavour to exercise our voting responsibilities on clients' behalf. For more information, please see our Voting Policy, available on our website.

Voting Overview*	
Number of available proposals	529
% voted	100%
% did not vote	0%
% votes in line with management	82%
% votes against management	18%

Votes against management by topic (%)\*\*

<span style="color: black;">●</span> Audit/Financials	9%
<span style="color: grey;">●</span> Board Related	34%
<span style="color: red;">●</span> Capital allocation	16%
<span style="color: green;">●</span> Compensation	24%
<span style="color: blue;">●</span> Other	16%

\*\*May not sum to 100% due to rounding.

\*1st January 2023 to 31st December 2023

## Voting Case Studies

### 網易 NETEASE

**NetEase** is a Chinese internet company that primarily derives revenues from publishing mobile and PC games. The company also has advertising and e-commerce services. In June 2023, we voted against the elections of two board members: Alice Yu-Fen Cheng and Michael Man Kit Leung. In the context of an entrenched NetEase board, we considered neither candidate independent of management. Cheng had a 16-year tenure and was a member of all board committees, and Leung had a 21-year tenure, previously participated on all board committees, and was serving as the Chair of Audit Committee, so we therefore did not consider him to be independent.

### SUOFEIYA

**Suofeiya** is a Chinese company that designs, produces, and sells customised wardrobes and related furniture. In November 2023, we voted against an extension to a resolution involving a share offering to two controlling shareholders for the repayment of bank loans and the replenishment of working capital. The share offering had been originally proposed in November 2022, and we had concerns over the shares' discount rate and lack of preemptive rights.

### Engagement

The investment team focused their engagements in 2023 around seeking improved ESG disclosures from portfolio companies. In May, members of the team travelled to China to visit some of the holdings in the fund.

Engagement Overview*	
Number of company interactions	10
Number of engagements	9
Engagements by topic	
Environment	56%
Social	56%
Governance	67%
Strategy***	56%

Source (table/graph): Glass Lewis; Guinness Global Investors (31.01.24)  
\*1st January 2023 to 31st December 2023

\*\*In some cases, multiple topics are covered in a single meeting and the totals do not add up to 100%.  
\*\*\*Strategy includes disclosures, opportunities in sustainable products, positive impact, and regulation.

### Engagement Case Studies

**China Overseas Land & Investment (“COLI”)** is a housebuilder that has historically succeeded amongst the disruptions in the Chinese real estate sector. We contacted the company in 2023, acting as a ‘lead signatory’ on behalf of the 2023 CDP Non-Disclosure Campaign, to encourage COLI to submit to the CDP Climate Change questionnaire. We were pleased that the company’s Investor Relations team confirmed COLI’s participation in both the 2023 CDP Climate Change and Water Security questionnaires.

**Venustech** provides network security products including security management platforms, and specialised security services. During 2023, we visited Venustech in China, and asked them to consider the following suggestions: disclosing more human capital policies, publishing a separate ESG report, ensuring all members of the audit committee are independent of management, nominating an independent member to the supervisory board, and incorporating a return on equity target into the company’s employee stock ownership plan. We await the publication of Venustech’s next ESG report, and plan on contacting management ahead of a scheduled trip to China in 2024.

### Collaborative engagement

We are a member of **CDP**, which allows us access to environmental data for all companies that report to CDP. Through our membership, we participate in collaborative engagements, such as the **CDP Non-Disclosure Campaign (NDC)**. The NDC aims to drive further corporate transparency around climate change, deforestation and water security, by encouraging companies to respond to CDP’s disclosure requests. In 2023, we joined the **CDP Science-Based Targets (SBT) Campaign**, to encourage portfolio companies to commit to and set 1.5°C-aligned science-based targets.

### Initiatives

We participate in relevant industry initiatives to promote the proper functioning of markets, responsible investing, and the management of market-wide and systemic risk. Where appropriate, members of the investment team will use initiatives to engage collaboratively with portfolio companies.

#### External company ratings

Signatory of:

We became signatories to the United Nations Principles for Responsible Investment (UN PRI) in 2019, which provides external assurance on our stewardship approach broken down by activity.

In our latest Assessment Report, published in 2023, we received the following scores:

**Policy Governance and Strategy**

**Direct - Listed Equity - Active Fundamental**

**Confidence Building Measures**

### Industry Initiatives

**CFA UK's** mission is to build a better investment profession by serving the public interest by educating investment professionals, by promoting and enforcing ethical and professional standards and by explaining what is happening in the profession to regulators, policymakers, and the media. A member of the investment team at Guinness is part of the Sustainability Community Champions group.

As the trade body for the UK investment management industry, the **Investment Association (IA)** seeks to represent the industry interests, improve the investment landscape through thematic initiatives, which highlight topics such as diversity and inclusion, and by improving standards and best practice.

The **Independent Investment Management Initiative (IIMI)** aims to contribute effective financial regulation and promote client-centred models of investment management. Our CEO, Edward Guinness sits on the board of IIMI.

We are public supporters of the **Task Force on Climate-Related Financial Disclosures (TCFD)**, and we seek to improved climate-related financial disclosure that is consistent, comparable, reliable, and clear to enhance our investment processes.

The **UK Stewardship Code 2020** sets high stewardship standards for those investing money on behalf of UK savers and pensioners. It comprises a set of 12 'apply and explain' Principles for asset managers and asset owners to demonstrate their stewardship role and performance.

The **UK Sustainable Investment and Finance Association (UKSIF)** aims to support its members to grow sustainable and responsible finance in the UK. It also seeks to influence policymaking that promotes the growth of sustainable finance. Our Responsible Investment Lead is a member of the Industry Development Committee, and another member of investment team serves on the Membership Committee.
