Certified HIPAA Privacy Security Expert (CHPSE)

Introduction:

This HIPAA Compliance training will help you to understand the HIPAA law requirement for HIPAA Privacy & HIPAA security rule and guide you on how to make your organization HIPAA compliant. All the modifications to the HIPAA regulations due to Health Information Technology for Economic and Clinical Health (HITECH) Act which is part of American Recovery and Reinvestment Act of 2009 (ARRA) Omnibus rule of 2013 and Electronic Health Records (EHR) & meaningful use incentives are adequately included in this course. This training will prepare you comprehensively for HIPAA certification test of Certified HIPAA Privacy Security Expert (CHPSE).

Target Audience:

- HIPAA Privacy Officer, HIPAA Security Officer, and HIPAA Compliance Officer
- Core Compliance employees
- IT Professionals servicing Healthcare Industry
- Chief Information Officers
- Risk Managers
- Lawyers involved in Healthcare
- Software Architect
- Business Analyst
- Team Lead of Software Developers
- Health Care Quality Assurance and Risk Managers
- Business Associates of Covered Entities
- Project Manager
- IT Auditors
- Senior Consultants

Course Learning Objectives / Course Outline:

The length of the Course is 24 Hours audio and it covers 1049 slides in all. The topics discussed under informative 27 Chapters are:

Chapter 1 – Introduction to HIPAA

- Topic A: Introduction to HIPAA
- Topic B: Administrative Simplification
- Topic C: Violation Penalties
- Topic D: Advisory & Regulatory Organizations
- Topic E: Definitions & Terminology

Chapter 2 – Transactions & Code Sets Overview

- Topic A: Transactions & code sets overview

Chapter 3 – Advanced Transactions and Code Sets

- Topic A: ANSI ASC X12 & NCPCP standards

Chapter 4 – Code Sets & National Identifiers

- Topic A: Code Sets
- Topic B: National Health Care Identifiers

Chapter 5 – Privacy & Security Basics

- Topic A: HIPAA & Health Data Exchange
- Topic B: Planning for Privacy Compliance
- Topic C: Planning for Security Compliance
- Topic D: Example Compliance Framework

Chapter 6 – Privacy Rule Basics

- Topic A: Privacy Rule Introduction

Chapter 7 – Organizational & Individual Responsibilities

- Topic A: Organizational Requirements & Relationships
- Topic B: Individual Privacy Rights

Chapter 8 – Notice of Privacy Practices

- Topic A: Notice of Privacy Practices & Authorizations

Chapter 9 – Privacy Uses and disclosures

- Topic A: Uses and Disclosures: General
- Topic B: Uses and Disclosures: Treatment, Payment, and Health Care Operations (TPO)
- Topic C: Uses and Disclosures: Public Purposes

Chapter 10 – Privacy Safeguards

- Topic A: Safeguards

Chapter 11 – Overview of the Security Rule

- Topic A: Security Rule Scope Overview
- Topic B: Threats to Business Information
- Topic C: Security Terminology & Categories
- Topic D: Administrative Safeguards
- Topic E: Physical Safeguards
- Topic F: Technical Safeguards
- Topic G: Organizational Requirements
- Topic H: Policies, Procedures, & Documentation Standards

Chapter 12 – Security Rule – Threats and Technology Options

- Topic A: Security Threats
- Topic B: Security Technology Options

Chapter 13 – Advanced Administrative Safeguards

- Topic A: Security Awareness and Training
- Topic B: Security Incident Procedures
- Topic C: Contingency Plans
- Topic D: Evaluation
- Topic E: Business Associate Agreements and Other Written Arrangements

Chapter 14 – Security Physical Safeguards

- Topic A: Security Rule Physical Safeguards

Chapter 15 – Advanced Physical Safeguards

- Topic A: Requirements
- Topic B: Facility Access Controls
- Topic C: Workstation Use and Security
- Topic D: Specific Steps – Physical Security Implementation

Chapter 16 – Data & Media Management

- Topic A: Device and Media Controls

Chapter 17 – General Technical Safeguards

- Topic A: Requirements
- Topic B: Access Control
- Topic C: Audit Controls
- Topic D: Integrity
- Topic E: Person or Entity Authentication
- Topic F: Transmission Security

Chapter 18 –Advanced Technical Safeguards

- Topic A: Transmission security
- Topic B: TCP/IP network infrastructure
- Topic C: Firewall systems
- Topic D: Virtual Private Networks (VPNs)
- Topic E: Wireless transmission security
- Topic F: Encryption
- Topic H: Case study: General Security Recommendations

Chapter 19 – Digital Signatures and Certs

- Topic A: Requirements
- Topic B: Digital signatures
- Topic C: Digital certificates
- Topic D: Public Key Infrastructure (PKI)

Chapter 20 – Security Policy and Standards

- Topic A: Threats, risk management, and policy
- Topic B: ISO/IEC-27002 security standards
- Topic C: Security policy considerations
- Topic D: Sample security policy documents

Chapter 21 – HITECH Act and Red Flag Rule

- Topic A: The HITECH Act
- Topic B: The Red Flags Rule

Chapter 22 – The Omnibus Rule

- Background
- Breach Notification Rule
- New Limits on Uses and Disclosures of PHI
- Business Associates
- Increased Patient Rights
- Notice of Privacy Practices
- Increased Enforcement
- Program Updating

Chapter 23 – Healthcare and Cloud Computing

- Cloud Computing: What it is, Why It Matters and How it is Used
- Key Drivers and Characteristics
- Examination of the Benefits, Threats and Risks of Using Cloud Computing
- Examining the HIPAA Regulatory Issues Associated with Using Cloud Computing
- DHHS Guidance on Cloud Computing – Questions and Answers

Chapter 24 – HIPAA Compliance and Enforcement

- Topic A: Compliance Enforcement

Chapter 25 – Social media, Mobile Technology, and Big Data

- Topic A: Social Media
- Topic B: Mobile Technology
- Topic C: Big Data
- Topic D: Applications in Healthcare
- Topic E: Privacy and Security in the Digital Universe

Chapter 26 – HIPAA Compliance Solutions Part 1

- Risk Analysis
- Audit Program – Annual and Periodic

Chapter 26 – HIPAA Compliance Solutions Part 2

- Secure Transmission of PHI
- Policy & Procedure Development
- Training – More Than Just an Annual Workshop
- Disaster Recovery/Emergency Mode Operations Plan

Chapter 27 – Annual Updates and Guidance

- Year-in-Review: 2020
- General Review
- Special topics:
 - OCR Audit Report Results
 - 21st Century Cures Act – The Final Rule on Information Blocking
 - Notices of Enforcement Discretion due to COVID-19 Pandemic
 - Health Information Exchanges (HIE) and PHI Reporting for Public Health
- Social Engineering

Continuing Education (CE) Requirements after Getting Certified:

All certified professionals are required to take Cyber Security Awareness For Employees within 1 month of getting certified. You can take this training before or after getting certified. If you are a cybersecurity professional, you can request for an exception (provide the reason why you should not take the training and provide your cybersecurity certification credentials) to take this training but you will have to complete the test.

OCR is focusing on cybersecurity awareness for covered entity and business associates after the FBI issued a warning for the healthcare industry. This training is a continuing education course needed

for all HIPAA certifications (CHPSE, CHPE and CHSE) professionals to maintain their credentials. This is non-technical course and anyone can take it. There are no prerequisites for it.

To maintain certification, the student has to take the update courses when they are released (normally in Jan-March). Students will receive a new certificate when their certificate expires if they are up to date on their CE courses. The student will NOT be required to take any test if you have taken the update courses regularly.

Find More information about CE Courses <https://www.hipaatraining.net/continuing-education/>

Certificate for Continuing Education Credits:

Students can buy CE credits certificate for this course at the time of registration. You will receive 25 CE credits for this course through Approved Provider of California Board of Registered Nursing after completing the course.

Training Options to pursue Certified HIPAA Privacy Security Expert (CHPSE) certification:

Click on following blue heading to read more about the course.

- [Online Anytime training – Certified HIPAA Privacy Security Expert \(CHPSE\)](#)
\$1299 (Additional Options to buy: \$300 printed manual, \$99 CHPSE practice test, \$250 two hours of Instructor support, \$180 additional CHPSE exam attempt)
- [Instructor-Led Training in Classroom for HIPAA Compliance \(level 1 & 2\)](#)
This training will prepare you for CHPSE certification test **\$2799** per person (Includes printed manual & meals during training. Does NOT include exam cost, One attempt for CHPSE test: \$180, Unlimited attempts: \$360)
- [Online Live Instructor-Led Training for HIPAA Compliance \(level 1 & 2\)](#)
This training will prepare you for CHPSE certification test **\$3299** per person (Includes printed manual. Does NOT include exam cost, One attempt for CHPSE test: \$180, Unlimited attempts: \$360)
