

INDIANA DEPARTMENT OF NATURAL RESOURCES
DIVISION OF STATE PARKS

2024 STATE PARK DEER MANAGEMENT HUNT INFORMATION SHEET

Indiana Department
of Natural Resources

Versailles State Park
812-689-6424

THIS IS A FIREARMS ONLY HUNT

Please print a copy of this document for your reference. You are responsible for understanding all the following information.

Important Note

We appreciate your willingness to help manage the impact from deer browsing. For this management hunt to be effective, please harvest any deer that presents a safe and ethical shot (within established bag limits), especially those that are antlerless. Please make every effort to be present during the management hunt. The number of hunters allowed at each park is strategically calculated. Your absence affects how successfully we reach our objective of a balanced ecosystem. Our #1 concern during this hunt is safety. With this in mind, the following information and rules apply:

- General:** All Indiana DNR Property Rules and Indiana Hunting Regulations will be enforced. Hunters are permitted to harvest deer only. No other animals may be taken during the management hunt. Friends and family will not be permitted to wait for hunters on the property during the hunt periods.
- Date & Time:** The 2024 deer management hunts will be conducted on November 18th & 19th and December 2nd & 3rd. The park will be closed to the general public from 8 p.m. ET (7 p.m., CT) on Sunday, November 17th through 8 a.m. ET (7 a.m. CT) on Wednesday, November 20th and from 8 p.m. on Sunday, December 1st through 8 a.m. ET (7 a.m. CT) Wednesday, December 4th. **ALL HUNTERS WILL NEED A PHOTO ID TO ENTER AND EXIT THE PROPERTY.**
- Hunt Hours:** Hunting hours are ½ hour before sunrise until 4 p.m. ET (3 p.m. CT) on the days of the hunt. Hunters must be out of their hunting area by 5 p.m. Check station closes at 5:30 p.m.
- Open House:** On Sunday, November 17th and Sunday December 1st, an open house will be held at the Park Office (located at the entrance of the park) from noon to 4 p.m. Personnel will be available to answer questions and register hunters who would like to camp during the hunt.

- Hunter Sign-In:** Hunters must check in at the Main Gate each morning of the 2-day hunt before proceeding to their hunting area. Check-in will begin at 5 a.m. each morning. At check-in, hunters will receive their tag, which will always need to be displayed on their rearview mirror. A photo ID and hunting license will need to be shown to enter the property.
- Bag Limit:** During each hunt period for which you have been drawn you are allowed to take up to three deer, only one of which can be antlered. These deer do not count against your regular state deer hunting license or bag limit. Please do not pass on antlerless deer for deer with antlers.
- Firearms:** All firearms that may be legally used to hunt deer on public land in Indiana (as seen in the 2024-2025 Indiana Hunting & Trapping Guide) will be allowed. Archery equipment, including the use of crossbows, will NOT be permitted for these hunts.
- Check Station:** All deer must be transported to the check station in the designated location on the property for biological data collection prior to leaving the property. You will be asked the sex of the deer and whether it is antlered or antlerless. Legal check-in is the responsibility of the hunter and is described below. The check station is located at the main office and will be open from 7:30 a.m. until 5:30 p.m.
- Deer Check-In:** Hunters who successfully harvest a deer at state park deer management hunts must bring the deer to the designated location on the property for biological information to be recorded. The deer must have a temporary transportation tag completed and attached immediately upon harvest. Temporary transportation tags are provided below. The deer must also be checked in through the online check-in system. Staff at parks are only keeping tallies of harvested deer, not checking them in. It is the hunter's responsibility to complete the legal check-in.

Deer can be checked in 3 ways:

- Online CheckIN Game System:
<https://secure.in.gov/apps/dnr/portal/#/checkin/customer-information>
- Traditional check stations: <https://www.in.gov/dnr/fish-and-wildlife/hunting-and-trapping/hunting-trapping-guide/hunting-check-stations/>
- Phone-in option at 1-800-419-1326, however there will be a \$3 charge for this service (Visa or Mastercard only).

For general instructions on using the CheckIN Game system, visit this link: https://www.in.gov/dnr/fishwild/files/fw-CheckIN_Game_how_to.pdf

To check-in state park deer management harvests, use the following information:

- For county of harvest, please note that some properties span multiple counties
- You must select “Public – State” when asked for land type
- Select the appropriate property
- For license type, choose either “Early State Park Reduction” or “Late State Park Reduction.” Do not choose “Deer Reduction Zone.” The early management hunt is November 18 & 19, and the late management hunt is December 2 & 3; choose accordingly.

After submitting your information, you will be given a Confirmation Number that must be recorded on your temporary transportation tag and kept on the carcass until processing.

- Accessibility: If you have special needs, you should call the property office before 11/04/2024 for the first hunt and before 11/18/2024 for the second hunt, so we can try to accommodate you. If desired, drawn hunters who possess a person-with-disabilities hunting permit may bring a non-hunting individual at least eighteen (18) years of age by November 18, 2024 to assist them.
- Tree Stands: Non-penetrating tree stands may be put up by those drawn for the hunts. Steps must also be non-penetrating. A safety harness is highly recommended. Any stand left overnight in the park must have owner’s name, address, and phone number attached to the stand in some manner. We strongly suggest you place a lock on your stand. The park does not provide security for tree stands and is not responsible for missing or damaged stands. Tree stands may be put up in the park from November 4 through Nov. 15 for the first hunt. Tree stands may be put up in the park from Nov. 20 through Nov. 30 for the second hunt.
- Ribbon/Flagging: Ribbon/flagging is permitted, but all ribbon must be removed before the end of the hunt.
- Ground Blinds: Ground blinds will not be allowed for these management hunts.
- Non-hunters: If you encounter any non-hunters, other than those accompanying drawn hunters, please contact property personnel, and they will handle it.
- Hunter Orange: Hunters must wear both a solid hunter orange head covering (hat or cap) AND a solid hunter orange outer garment, such as vest, coat, or coveralls, during the time they are hunting in the park. This gear should be worn at all times.
- Lodging: Sites 1 through 96 have been set aside for hunters who wish to camp at

Versailles State Park. All other campsites are closed. Our winter camping rate of \$17.12 per night will be charged. The modern restrooms and showers will be closed. A vault toilet, water, and electricity will be available. Hunters who choose to camp at Versailles will be restricted to the camping area during non-hunting hours. You will be allowed to exit and re-enter the park until 11 p.m.

Alcoholic Beverages: Absolutely NO ALCOHOLIC BEVERAGES shall be possessed or consumed in the park or during the hunt.

Scouting: Pre-hunt scouting will be allowed and is encouraged. All normal park fees apply. Trail cameras may not be used for the management hunts.

Safety Zones: Safety zones have been established, and you may not enter these areas to retrieve a deer. Loaded firearms are not permitted in safety zones, buildings, or service areas. Do not shoot toward the safety zones if you are hunting near the boundaries. Shooting is not permitted into or across roadways, into or across waterways, toward permanent manmade structures, or into or across private property. Safety zones will be marked with yellow ribbons.

Park Boundaries: Boundaries are marked with white flagging. It is the responsibility of each hunter to know these boundaries and to safely confine all hunting activities to these prescribed areas. Public scrutiny demands you act as responsible hunters. Respect the property of adjacent landowners.

Field Dressing: Please do not field dress deer in any mowed or public area; field dress at least 50 feet from any road or trail and cover the entrails with leaf litter. Field dressing should occur out of sight from trails, roads, and off property residences. All items and equipment used to dress a harvested deer must be removed by the hunter upon departure.

Retrieval: You are responsible to retrieve your deer from the field. All deer must be brought to the check station prior to leaving the park. Never leave a wounded deer down inside the property. DO NOT leave the property and trespass on private property in an attempt to retrieve a downed deer. Contact the check station, park personnel, or Law Enforcement personnel immediately. If you do need assistance, please make the check-in station, or main gate aware of this, and if staff is available, an effort will be made to assist.

Assigned Unit: There are no assigned hunting units for these management hunts. You may hunt anywhere except safety zones.

- Meat Handling:** You must take possession of all deer you harvest. All hunters will be responsible for the processing of their own meat. No harvested deer should be left at the park. Please consider donating your deer to Hunt for Hunger (on.IN.gov/huntforhunger) if your freezer is full by the time of the hunt. When leaving the property with harvested deer, please cover them with a tarp or other suitable material. Hunters staying overnight in the area will be able to hang deer in assigned areas on the property.
- Hunter Image:** Please leave a positive image of deer hunters for other park users by removing any trash at the conclusion of your hunt, picking up all spent shells and casings, and covering any harvested deer while leaving the property. As a rule, please take out anything you bring into the park. Please practice “leave no trace” ethics to ensure a clean and high-quality park.
- Parking:** You may park only in designated areas. All parking areas are designated by a sign and are marked on the map. If you do not see a sign or a marking for the area on the map, do NOT park there.
- Other Information:** Boats are permitted to be used to access areas and retrieve deer. Boats are electric trolling motor only, and all other state and property rules apply.

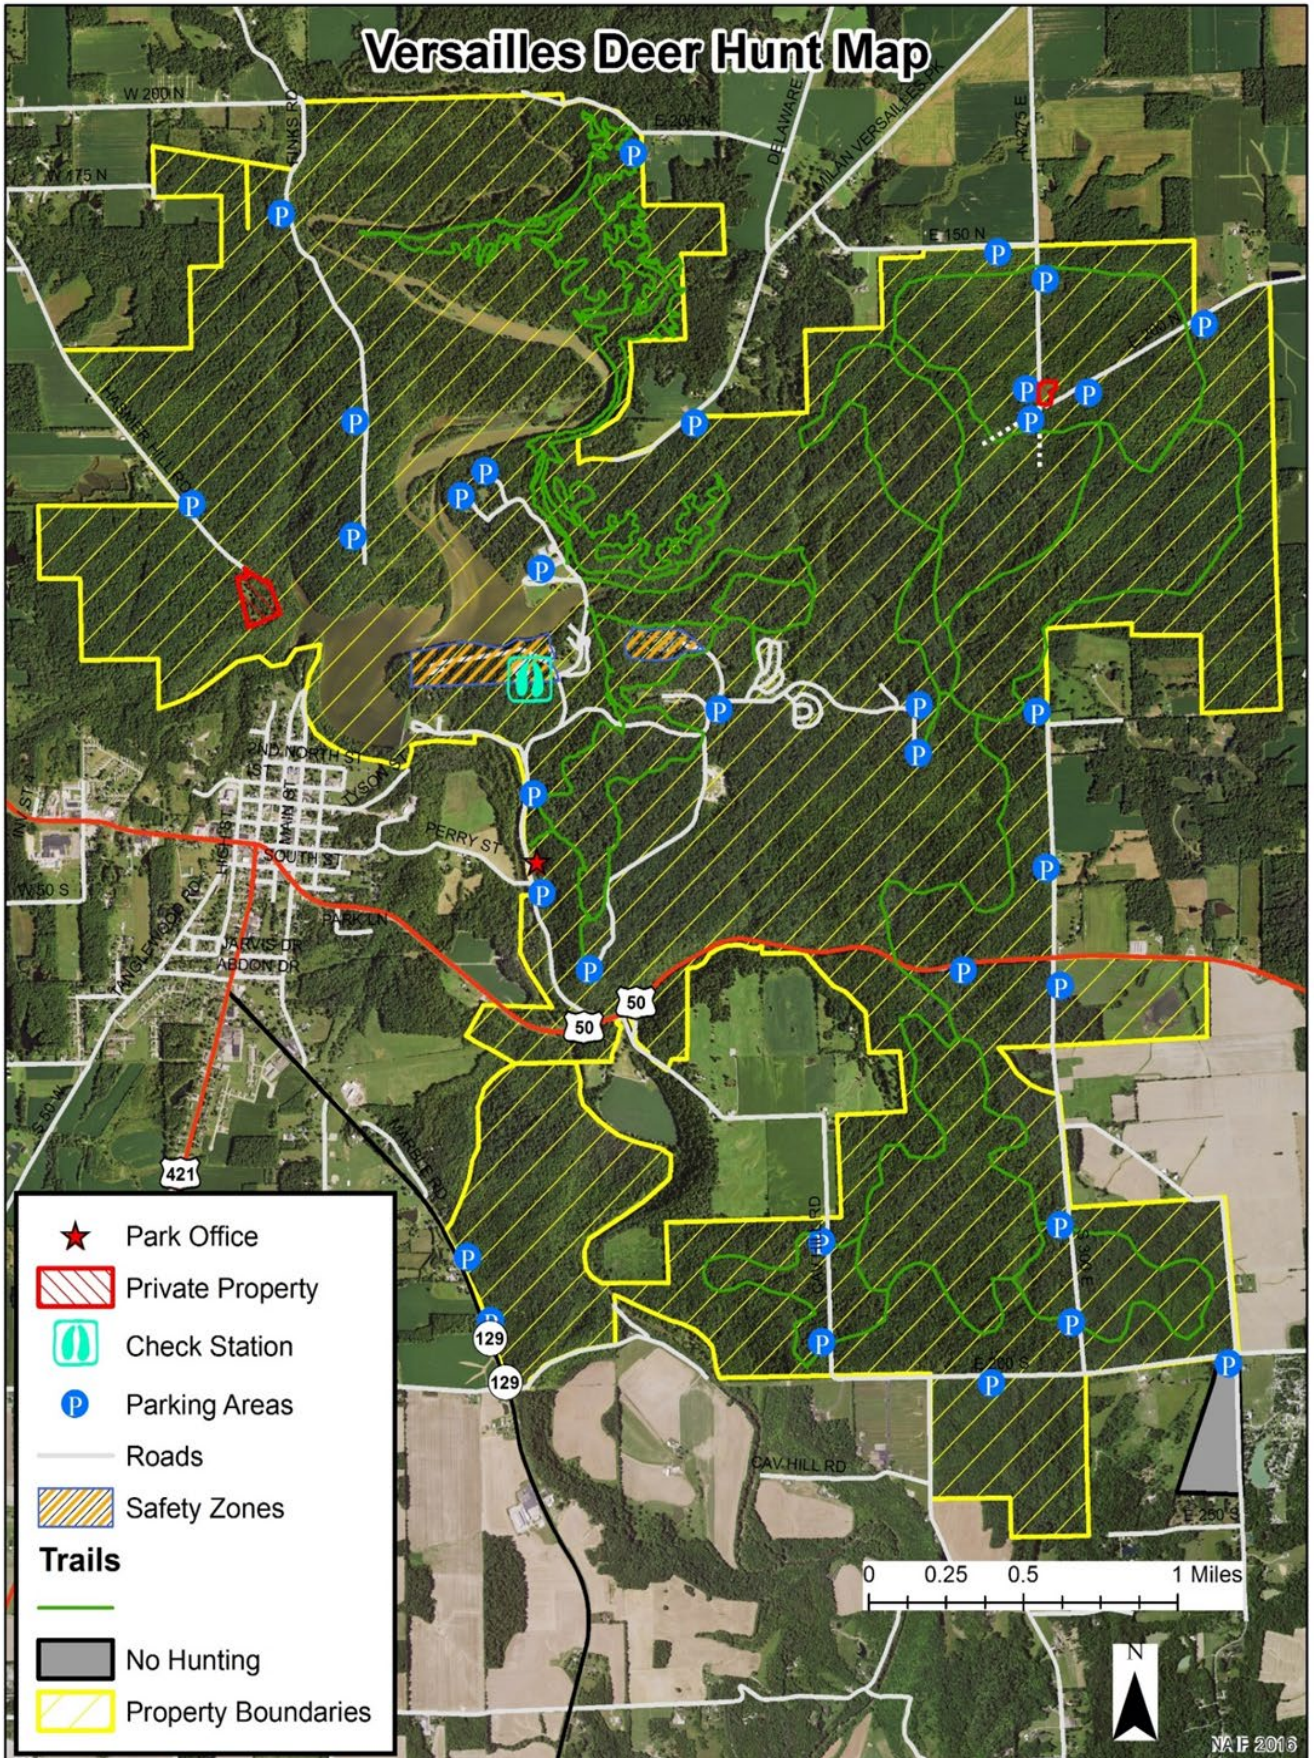

TAKING OF ANTLERED & ANTLERLESS DEER

Please keep in mind the purpose of your deer hunting opportunity on Division of State Parks properties is to manage the deer herd in order to prevent overbrowsing and the resulting damage to the properties’ vegetation.

Our primary goal is to take does because they have the largest long-term impact on a population. However, we recognize that antlered deer also directly contribute to the grazing impacts on the properties and appreciate your help with their removal. We are concerned that some hunters may be passing up antlerless deer and deer with small antlers. Those hunters who pass on opportunities to remove deer with no or small antlers are actually hurting our ability to reduce the overbrowsing problem. Whenever you have an opportunity to safely make an accurate, well-placed shot, please help us by taking that deer, regardless of the antler size.

We may also have hunters passing up deer because they have filled their freezer. While we do not want deer to be taken that will be wasted, if you do not need the meat from the 2nd or 3rd deer, please consider trying to locate someone prior to our deer management hunt who needs additional deer meat. Thank you for your help in this important effort.
