

CONTENTS

SECTION 1: BASIC CONCEPTS OF EMERGENCY MEDICINE

1. Essential Qualities for Emergency Physician	1
<i>K Hari Prasad</i>	
• Qualities of Good Emergency Physician 1 • Other Basic Skills 3	
2. Designing and Staffing of Emergency Department	5
<i>Saleh Fares, Omar Ghazanfar</i>	
• Challenges for Emergency Department in India 5 • Emergency Department Function 5 • Requirements for Creating New Infrastructure as Emergency Department 5 • General Considerations for Designing Emergency Department 6 • Other Requirements 6 • Patient Flow 7 • Dedicated Area within Emergency Department 7 • New Concepts in Emergency Department Design 7 • Staffing Model for Emergency Department 7 • Deciding Factors for Staffing in Emergency 9 • Requirements of Emergency Physician for Emergency Department 9 • Requirements of Staff Nurse in Emergency Department 9 • Emergency Medical Technicians 9 • Staff for Minor Operation Theater 9 • Other Staff 9	
3. Observation and Isolation Unit	11
<i>Devendra Richhariya</i>	
• Observation Unit Design and Layout 11 • Protocol Development 12 • Observation Unit Management 13 • Quality Assurance Process and Metrics 14 • Guidelines for Setting up an Isolation Unit 14	
4. Observation Medicine	18
<i>M Rajadurai, Akmal Areeb, Devendra Richhariya</i>	
• Clinical Decision Rules 18 • Chest Pain 19 • Atrial Fibrillation 20 • Acute Heart Failure 20 • Syncope 20 • Venous Thromboembolism 20 • Acute Abdominal Pain 22 • Appendicitis 23 • Gastrointestinal Bleeding 25 • Acute Pancreatitis 26 • Transient Ischemic Attack/Minor Stroke 27 • Dizziness/Vertigo 28 • Back Pain 29 • Headache 29 • Seizures 32 • Asthma/Chronic Obstructive Pulmonary Disease 32 • Community-Acquired Pneumonia 33 • Infections 33 • Acute Traumatic Conditions 34 • Metabolic and Endocrine Conditions 34 • Additional Clinical Conditions 34	
5. Triage	40
<i>Devendra Richhariya</i>	
• Emergency Department Triage 40 • Requirement for Triage 40 • Triage Scales 40 • Triage Process 41 • Benefits of Triage 42 • Early Warning Score 42 • Triage in Mass Casualty Incident 42	
6. Rapid Assessment and Early Treatment	45
<i>Devendra Richhariya</i>	
• Benefits of Rapid Assessment 45 • Steps for Rapid Assessment and Early Treatment 45 • Clinical Quality Indicators for Rapid Assessment 46 • Implementation of Rapid Assessment and Early Treatment (Sepsis, Stroke, and Trauma) 47	

- 7. Patient Safety and Quality in Emergency Department 49**
Saravana Kumar
 • Background of Emergency Department 49 • Approach to Quality Issues in the Emergency Department 50 • Adverse Events in the Emergency Department 50 • Safety Practice and Implementation Strategy 50 • Clinical Audit 53 • Fishbone Analysis for Quality Improvement in Emergency Department 53
- 8. Hazardous Material (HAZMAT) and Waste 55**
KV Sarma, Devendra Richhariya
 • Classification of Hazardous Material 55 • Storage and Transportation of Hazardous Materials 57 • Safe use of Hazardous Material 57 • Chemical Spill and Decontamination 58 • Hazardous Waste and Segregation 58 • Degree of Hazard Identification for Hazardous Materials 59 • Hazardous Material Safety Booklet 59 • Performance Standards and Performance Improvement 60 • Personal Protective Equipment in Hazardous Material Incidents 60
- 9. Infection Prevention in Emergency Department 63**
Josephine Cyrill, Angelika Masih
 • Adherence to Standard Infection Control Precautions 63 • Predetection and Triage Management 64 • Transmission-based Precautions 64 • Disinfection and Sterilization of Reusable Medical Devices 65 • Device-associated Infections 65 • Education and Training 66
- 10. Personal Protective Equipment 68**
TV Ramakrishnan, Akilan Elangovan
 • Standard Precautions 68 • Personal Protective Equipment 68 • Hand Hygiene 68 • Types of Personal Protective Equipment Used in Healthcare Settings 68 • Donning and Doffing Personal Protective Equipment 70 • Selecting the Appropriate Personal Protective Equipment for Healthcare Workers 74 • Transmission-based Precautions 74 • Levels of Personal Protective Equipment and Types of Precautions for Infection Control 75 • Optimizing Personal Protective Equipment Usage during Crisis 75 • Decontamination of Personal Protective Equipment for Reuse 75 • Limitations of Personal Protective Equipment 76 • Regulations and Efficiency of Personal Protective Equipment Usage 76

SECTION 2: RECENT CONCEPTS IN EMERGENCY MEDICINE

- 11. Research Methodology 80**
Padam Singh, Pooja Sharma, Manish K Singh
 • Literature Review 80 • Formulating a Research Question 80 • Essentials of Biostatistics 80 • Research Designs 82 • Sample Size 84 • Statistical Analysis 86 • Test of Significance for Population Mean (μ) 86 • Test for Proportions 88 • Other Commonly used Tests 88 • Statistical Software 88 • How to Read a Scientific Paper 88
- 12. Transforming Emergency Department with Digital Technology 91**
Rajesh Kumar Gupta
 • Ambulance Management 91 • Check-in at Emergency Room 93 • Triage 93 • Clinical Documentation 93 • Initiating a Care Protocol 95 • Discharge Home or Transfer to Inpatient Department 96 • Emergency Room Admin Dashboard 96 • Technology Hand in Hand with Emergency Room 97
- 13. Advanced and Future Technology in the Emergency Department 99**
Devendra Richhariya
 • Online Check-in 99 • Patient Flow Software 99 • Real-time Locating System 99 • Miniaturization of Imaging and Diagnostic Equipment 99 • Telemedicine 101 • Barcode Scanner 101

- Computers on Wheels 101 • Medical Drones 102 • Driverless Ambulance 103
- Apps Simplifying Communication Administration and In-flight Emergencies 103 • Video Games for Practicing Real Situations 103 • Future of Emergency Medicine 103

14. Artificial Intelligence in Healthcare 105

Sandhya Shankar Pandey, Devendra Richhariya

- Mapping Mind and Machine Through Brain-computer Interfaces 105 • Artificial Intelligence in Developing the Next Generation of Radiology Tools 105 • Artificial Intelligence in Expanding Healthcare in Developing Regions 106 • Artificial Intelligence in Reducing the Burdens of Electronic Health Record 106 • Artificial Intelligence and Antibiotic Resistance 106 • Artificial Intelligence in Analysis of Pathology Images 106 • Artificial Intelligence in Medical Devices and Machines 106 • Advancing the Use of Immunotherapy for Cancer Treatment 106 • Electronic Health Record as a Reliable Risk Predictor 106 • Artificial Intelligence in Monitoring Health Through Wearables and Personal Devices 107 • Making Smartphone Selfies into Powerful Diagnostic Tools 107 • Bedside Clinical Decision-making with Artificial Intelligence 107
- Administrative Applications of Artificial Intelligence 107

15. Use of Simulation-based Education in Emergency Medicine 108

Asit Misra, Brad Gable

- History of Simulation 108 • Educational Theory 108 • Simulation Types and Methods 110 • Planning a Simulation Case 110 • Use of Simulation in Emergency Medicine 111 • How to Integrate Simulation Education into an Emergency Medicine Curriculum 111

SECTION 3: SPECIAL SITUATIONS IN EMERGENCY MEDICINE

16. Overcrowding Management in Emergency Department 114

MI Nizami, Ashima Sharma

- Definition of Overcrowding 114 • Causes of Overcrowding 117 • Interventions 117

17. Difficult Patient and Situations 119

AN Venkatesh

- Difficult Situations 119 • Types of Difficult Patient 120 • Clinicians as Causative Factors 120 • How to Deal with Difficult Situations? 120 • Role of Emergency Physician to Resolve Difficult Situations 121

18. Medicolegal Cases and Writing Medicolegal Reports 123

Amit Nabar, Devendra Richhariya, Vivekanshu Verma

- Medicolegal Cases 123 • Medicolegal Reports 123 • Medicolegal Classification of Injuries 127 • How Does the Law Protect the Victim in Medicolegal Cases? 128 • Practical Tips for Medicolegal Case Writing 128 • Do's and Don'ts in Medicolegal Case Writing to Avoid Legal Punishment 129

19. Medicolegal Issues in the Emergency Department 131

Adarsh Kumar, Vivekanshu Verma, Devendra Richhariya

- What is Duty of Care Toward a Patient? 131 • What is Breach in Duty to Care? 132
- What is Doctrine of RES IPSA LOQUITUR? 132 • Why Medical Services were Included Under the Consumer Protection Act, 1986? 132 • What Kind of Medicolegal Issues are Faced in Dealing with International Patients? 133 • Medicolegal Guidelines for Managing a Terminally Ill Patient in the Emergency Department 133 • Patients with Weak Financial Background in a Private Hospital 133 • Medical Negligence 133 • Medical Malpractice Stress Syndrome 134 • Medical Indemnity Insurance 134 • Do not Attempt Resuscitation Guidelines 134 • Euthanasia 135 • Discharge Against the Medical Advice from the Emergency Department 135 • Medicolegal Implications of a Prisoner Absconding from the Emergency Department 136 • How to Declare a Patient Brought Dead? 136 • Grief Counseling 136

- 20. Examination of Sexual Abuse Victim 138**
Nikhil D Datar, Meghna Shedge
 • Definition of Rape 138 • Presentation in an Emergency Department 138
 • Examination 139 • Quick Assessment 139 • General Examination and Injuries 139 • Documentation 141 • Treatment 141 • Emergency Contraception 141
- 21. End-of-life and Palliative Care in the Emergency Department 143**
Naeem Toosy
 • Trajectory of Dying and End-of-life Decision-making 143 • Palliative Care and Bioethics 144 • Communication at the End of life 144 • End-of-life Symptoms Management 145
- 22. Death Declaration 147**
Rammohan Radhakrishnan, Sahanya Ramesh Shetty
 • Possible Circumstances of Death 147 • Effect of Death on Survivors 147
 • Effect on Emergency Department Physicians 147 • Communication Strategies 148
 • Viewing of the Body 149 • Medical Examination: Autopsy 149 • Organ Donation 149
 • Organ Donation: Death of a Child 149
- 23. Brain Death 151**
Bhawana Sharma, Devendra Richhariya
 • Pathophysiology of Brain Death 151 • Recommendation 151 • Definition 152
 • Prerequisites 152 • Documentation of Coma 152 • Documentation of Absence of Brainstem Reflexes 152 • Documentation of Apnea 153 • Additional Tests 154
 • Other Tests 154 • Brain Death Mimic 154 • Movement Observable after Brain Death 155 • Brain Death Declaration and Organ Donation 155
 • Care of the Potential Organ Donor 155
- 24. Organ Donation and Transplantation 159**
Devendra Richhariya, Bhawana Sharma
 • History of Organ Transplant: Worldwide and in India 159 • Evolution of Law: Transplantation of Human Organ Act 160 • Challenges 160 • How to Curb the Problems 161

SECTION 4: PREHOSPITAL AND DISASTER MANAGEMENT

- 25. Ground Medical Transfer 163**
GV Ramana Rao
 • What is Ground Medical Transfer? 163 • Salient Historical Milestones 163
 • Current Context 163 • Key Principles Guiding the Ground Medical Transfers 163
 • Models of Ground Medical Transfers 164 • Basic Tasks and Tenants 164 • Types of Road Ambulances 165 • Planning and Coordination 165 • Training Schedule for Emergency Medical Technician 166 • Quality Assurance 166
- 26. Air Medical Transfer 168**
Saleh Fares, Michael J Nolan
 • Decision for Air Medical Transfer 168 • Flight Physiology 168 • Standards of Care: Air Medical Transfer 169 • Special Considerations 170 • Recent Advances 170
- 27. Basic Concepts of Disaster Management 172**
Venkat Changavalli, Devendra Richhariya
 • Definitions 172 • Classification of Disasters 172 • Disaster Management Cycle 173
 • Disaster Response Management 174 • Incident Command System 174 • Multiagency

Coordination during Response 174 • Early Warning System for Disaster 175
 • Role of Technology as Decision Support Tools 176 • Humanitarian Consideration in Disaster
 Response 176 • Conducting Exercise for Disaster Management 176 • Preparing the Emergency
 Department for Mass Casualties 177 • Mass Casualty Management 178

28. Mass Casualty Management 180

Saurabh Dalal

• Background 180 • Case Studies 181 • Innovation and Best Practices 181
 • Bridging the Gap 182 • Incident Response System 182 • National Emergency Operational and
 Preparedness Structure 182 • Way Forward 182

29. Preparedness for Chemical, Biological, Radiological, and Nuclear/Energetics Disasters 185

Shaza Karrar, Mohammad Anzal Rehman, Saleh Fares

• CBRN Preparedness among Emergency Providers 185 • Approach to a Cbrne Incident 185
 • Mitigation 186 • Preparedness 186 • Response 186 • CBRN Scene Management
 Zones 187 • Recovery 188 • Chemical Agents 188 • Biologic Agents 188
 • Radiation/Energetics 191 • Mass Casualty Training 192

30. Military Medicine 195

Ahmed Humaid, Saleh Fares, Abdulla Alhmoudi

• Tactical Combat Casualty Care Principles 195 • Field Triage 196 • Approach to the Injured
 Soldier 196 • Medical Evacuation 199 • Challenges and Innovations 199

SECTION 5: RESUSCITATION

31. Basic and Nondefinitive Airways 201

Advait Thakor

• How to Recognize Airway Obstruction in an Emergency Department? 201
 • Airway Positioning Maneuvers 201 • Airway Adjuncts 202 • Suctioning 203
 • Bag-valve-mask Ventilation 203 • Supraglottic Airway Devices 205

32. Advanced Airway Management 208

Venugopalan Poovathumparambil

• Applied Anatomy 208 • Advanced Airway Management 209
 • Airway Assessment 210 • Laryngoscopic Grading for Difficult Intubation 211
 • Position for Intubation 211 • Technique of Intubation 212 • Rapid Sequence
 Intubation 212 • Delayed Sequence Intubation 215 • Intubation without Pharmacologic
 Agents 215 • Difficult Airway 215 • Failed Airway 215 • Protected Intubation in Highly
 Infected Patient—In View of Covid-19 216 • Capnography 216

33. Cardiopulmonary Resuscitation 219

Mabel Vasnaik

• Steps of Resuscitation 219 • Postcardiac Arrest Care 222 • Cardiopulmonary
 Resuscitation in Children—how is it Different? 222 • Special Situations 223
 • Defibrillation 224 • Cardioversion 226 • Recent Advances 227 • Recent Updates on
 Cardiopulmonary Resuscitation 227

34. Cardiopulmonary Resuscitation in Special Situation 230

Jesús Daniel López Tapia, Andrea Pechir Cerrillo

• Hypoxia 230 • Electrolyte Imbalances 230 • Hypothermia 230 • Hypovolemia 231
 • Cardiac Tamponade 231 • Tension Pneumothorax 231 • Thrombosis (Coronary and
 Pulmonary) 231 • Toxins (Poisoning and Intoxications) 231 • Special Patients 231

35. Postcardiac Arrest Syndrome 234

Devendra Richhariya, Bhawana Sharma

- Postcardiac Arrest Syndrome—pathophysiology 234 • Airway and Breathing 234
- Circulation 236 • Disability-optimizing Neurologic Recovery 236 • Targeted Temperature Management 237 • Prognostication 238 • Rehabilitation 240 • Organ Donation 240

SECTION 6: MANAGING CRITICALLY ILL PATIENT IN EMERGENCY DEPARTMENT

36. Oxygen Therapy and Oxygen Delivery System 241

Bhawana Sharma, Devendra Richhariya

- Indications 241 • Classification of Oxygen Delivery System 242 • Low-flow System 242
- High-flow System 244 • Selection of Oxygen Delivery System 244 • Initiation of Oxygen Therapy in Emergency Department 244 • Long-term Oxygen Therapy 245 • Oxygen Toxicity 245
- High-flow Nasal Cannula Oxygen Therapy 245 • Medical Oxygen Cylinders: Types Capacity and Estimation of Running Time 246

37. Hyperbaric Oxygen Therapy 249

Amit Gupta

- History 249 • Physiology 249 • Rationale of use of Hyperbaric Oxygen Therapy/Mechanism of Action 249 • Equipment and Procedure 250 • Indications 250 • Contraindications 251
- Clinical Application 251 • Potential Harm, Safety, and Precautions 252

38. Noninvasive Ventilation 254

Kishalay Datta

- Modes of Noninvasive Ventilation 254 • Physiologic Changes with NIV: How does NIPPV Works? 255 • Selection Criteria for NIPPV 255 • Interface or Mask for NIPPV 255
- How to Initiate NIPPV in Patients? 256 • Monitoring of Patients on NIPPV 256
- Predictors of Success of NIPPV 256 • What Type of Ventilators can be used for NIPPV? 257
- What Modes of Ventilator can be used for Noninvasive Ventilation? 257 • How to Set the Ventilator for NIPPV? 257 • Weaning 257 • Complications of NIPPV 257 • High-flow Nasal Cannula 258

39. Mechanical Ventilation 259

Mrinal Sircar, Saurabh Mehra, Devendra Richhariya

- Physiology of Breathing 259 • Mechanical Determinants of “Patient–Ventilator” Interactions 259
- Indications of Mechanical Ventilation 260 • Types of Mechanical Ventilation 260 • Modes of Ventilation 261 • Initiation of Ventilation 263 • Monitoring after Initiating Ventilation 264
- Complications of Intubation and Ventilation 265 • Airway Pressures, Alarms, and Troubleshooting 265 • Mechanical Ventilation in Special Conditions 266

40. Sedation and Analgesics for Mechanically Ventilated Patients 270

Manish Garg, Devendra Richhariya

- Goals and Principles 270 • Medications 270 • Assessment 272 • Special Situations 273

41. Extubation in Emergency Department 275

Joanne Hng Mei Hwa, Ahmad Zulkarnain Ahmad Zahedi

- Patient Selection and the “ABC” Procedural Consideration 275 • Postextubation Complications and Management 277 • Palliative Extubation in Emergency Department 278

42. Vascular Access 280

Eric Revue

- Basic Knowledge of Pathophysiology 280 • How to Choose Appropriate Vascular Device? 281 • Peripheral Access 281 • Central Venous Catheters 283
- Midline Catheters 285 • Peripherally Inserted Central Catheters 285

• Use of Ultrasound for Central Venous Catheter Insertion 286 • Removal of Catheter 286 • Arterial Access 286 • Arterial Blood Pressure 287 • Emergency Conditions Where Femoral Artery Access is Recommended 287 • Intraosseous Device 288 • Complications 289	
43. Intravenous Fluids	291
<i>Ripenmeet Salhotra, Supradip Ghosh</i>	
• Crystalloids 291 • Balanced Salt Solutions 292 • Colloids 293 • Maintenance Fluids 293	
44. Assessment of Volume Status and Hemodynamic Monitoring	296
<i>Sangeeta Chakraborty, Debashish Dhar, Devendra Richhariya</i>	
• Static Methods of Volume Assessment and its Limitations 296 • Dynamic Methods of Volume Assessment and its Limitations 298 • Devices for Hemodynamic Monitoring 300	
• Invasive Hemodynamic Monitors 300 • Noninvasive Hemodynamic Monitors 301	
45. Arterial Blood Gas Analysis	303
<i>Devendra Richhariya, Bhawana Sharma</i>	
• Basics of Pulmonary Gas Exchange 303 • Disorders of Gas Exchange 304 • Basics of Acid-base Balance 304 • Disturbance of Acid-base Balance 305 • Concepts in Acid-base Disorders and Formulas 305 • Steps in the Interpretation of Arterial Blood Gas 305 • Strong Ion Difference Approach versus Traditional Approach 305 • Arterial Blood Gas Sampling Technique 309	
46. Electrolyte Imbalances	311
<i>Ayşegül Bayır</i>	
• Hyponatremia 311 • Hyponatremia 312 • Hyperkalemia 314 • Hypokalemia 315	
• Hypocalcemia 316 • Hypermagnesemia 317 • Hypomagnesemia 317	
47. Sepsis	319
<i>Ravi Jain, Yash Javeri</i>	
• Definition 319 • Epidemiology 319 • Pathophysiology 319 • Differentials 320 • Screening and Diagnosis of Sepsis 320 • Management 321 • Other Supportive Therapies 326	
• Disposition 326 • Code Sepsis 326	
48. Overview of Shock	328
<i>Khusrav Bajan, Devendra Richhariya</i>	
• Clinical Presentation 329 • Use of Ultrasound in Evaluation and Diagnosis of Shock 329 • Management of Shock 330 • Specific Measures 333	
49. Vasopressors and Inotropes in Resuscitation	335
<i>Manish Mehta</i>	
• Physiology: Receptors and Mechanisms of Action 335 • Common Pharmacological Agents 336 • Clinical Application of Vasopressors and Inotropes in Shock Resuscitation 338	
• Fundamental Concepts for use and Practical Issues 338 • Complications 339	
• Summary and Recommendations 340	
50. Perfusion Endpoint in Resuscitation of Shock	341
<i>Nisreen Hamza Maghraby, Zainab Musa Al Alawi</i>	
• Macrocirculatory Endpoint 341 • Microcirculatory Endpoint 342	
• Clinical Assessment of Perfusion 343	
51. Extracorporeal Membrane Oxygenation	345
<i>Basar Cander</i>	
• Historical Development of Extracorporeal Membrane Oxygenation 345 • Extracorporeal Membrane Oxygenation Techniques 345 • Extracorporeal Membrane Oxygenation	

- Components 346 • Weaning 346 • Indications 347 • Contraindications 347
- Complications 347 • Extracorporeal Membrane Oxygenation in Special Patient Groups 348
- Future Projections 349

52. Procedural Sedation and Analgesia 350

Devendra Richhariya, Bhawana Sharma

- Sedation Policy and Guidelines 351 • Indications in Emergency Department 351 • Presedation Patient Evaluation 351 • Preparation 351 • Technique for Procedural Sedation and Analgesia 352

53. Pain Management in Emergency Department 355

Radhika Rani Chandra, Devendra Richhariya

- Pathophysiology 355 • Assessment of Pain in Emergency Department 356
- Assessment Tools for Pain 356 • Pharmacologic Therapy for Pain 357 • Anesthetic Agents in Pain Management 361 • Regional Anesthesia (Peripheral Nerve Block) 362 • Nonpharmacologic Intervention for Pain 362

54. Point-of-care Ultrasound in Resuscitation 364

Won-Jun Kuk, Mohamed Moheb El Abd, Tiffany Fong

- Step 1: Pump 364 • Step 2: Tank 366 • Step 3: Pipes 369

55. Ultrasound-guided Procedures 374

Richa Manglorkar, Mohamed Moheb El Abd, Tiffany Fong

- Physics of Ultrasound 374 • Transducers 375 • Knobology 375 • Technique Overview 375 • Peripheral Venous Catheter Placement with Ultrasound Guidance 375
- Central Venous Catheter Placement with Ultrasound Guidance 376 • Ultrasound-guided Pericardiocentesis 384 • Ultrasound-guided Peripheral Nerve Blocks 386

56. Cricothyrotomy 394

Sanjay Shah

- Applied Anatomy 394 • Indications 394 • Position of the Patient 395
- Needle Cricothyrotomy 395 • Percutaneous Cricothyroidotomy (Seldinger Technique) 395
- Surgical Cricothyroidotomy 396 • Complications 397

57. Tracheostomy Related Emergencies 398

Devendra Richhariya, Bhawana Sharma

- Emergent Life-threatening Complications 398 • Urgent Complications 400
- Myiasis (Maggots) of Tracheostomy Wound 401

SECTION 7: CARDIOVASCULAR EMERGENCIES

58. Chest Pain Evaluation in Emergency Department 403

Devendra Richhariya

- Causes of Chest Pain 403 • Evaluation 405 • Diagnostic Approach 405
- Electrocardiogram 407 • Other Studies 408

59. Palpitation 409

Roberta Petrino, Aldo Tua

- Etiology 409 • Pathophysiology 409 • Clinical Presentation 412 • Red Flags 412
- Evaluation 412 • Investigations 413 • Treatment 413

- 60. Syncope** **415**
Brajesh Kumar Mishra
 • Epidemiology 415 • Pathophysiology 415 • Classification 415 • Life-threatening Causes of Syncope 415 • Common Causes of Syncope 416 • Other Causes of Syncope 416
 • Objectives for Evaluation 417 • Investigation 418 • Treatment 419 • Risk Stratification for Syncope in Emergency Department 420 • Future Perspective 420
- 61. Interpretation of ECG** **421**
Kartikeya Bhargava
 • Cardiac Arrhythmias 421 • Tachyarrhythmias 421 • Bradyarrhythmia 425
 • ST-T Changes 426 • QRS Morphology Amplitude Duration and Axis Pattern 430
 • Miscellaneous ECG Findings in Emergency 432
- 62. Cardiac Biomarkers** **434**
Omar Ghazanfar, Israa M Salih, Saleh Fares
 • Ideal Cardiac Biomarker 434 • Troponin 434 • Creatinine Kinase-MB 435 • Myoglobin 435
 • Natriuretic Peptide 435 • Other Markers 435 • Multiple Marker Approach 435
 • Future Perspective 437
- 63. Echocardiography in Emergency Department** **438**
Manish Bansal
 • Echo in Assessment of Acute Chest Pain 438 • Echo in Assessment of Dyspnea/Shortness of Breath 441 • Echo in Assessment of Hypotension and Hemodynamic Instability 444
 • Echo in Assessment of Stroke Patients 446 • Echo in Assessment of Syncope 447
 • Echo in Assessment of Pyrexia of Unknown Origin 448
- 64. Coronary Computed Tomography in Chest Pain Evaluation** **449**
Devendra Richhariya
 • Indications of Coronary CT Angiography 449 • Contraindications for Coronary CT 450 • Factors Affecting the Quality of Coronary CT Images 450 • Preparation and Instructions for Coronary CT 450
 • Triple Rule-out Protocol 450 • Interpretation of Coronary CT 451 • Coronary CT as Decision Making Tool 451
- 65. Acute Coronary Syndrome** **453**
Naveen Bhamri, Devendra Kumar Agarwal, Sudhanshu Sekhar Parida
 • Etiopathogenesis and Risk Factors 453 • Management of Acute Coronary Syndrome 453
 • Common Strategies for STemi and NSTEMI Management 457 • Non-ST Elevation—ACS Management 457 • STemi Management 457 • Special Consideration in STemi/NSTEMI Management 457 • Disposition 459
- 66. Cardiogenic Shock** **460**
Devendra Richhariya
 • Definition 460 • Etiology 460 • Pathophysiology 460 • Diagnosis 461
 • Management 462 • Critical Care Support 462 • Revascularization Support 463
 • Mechanical Support 464 • Special Situation 466 • Reversible Myocardial Dysfunction (Myocarditis, Sepsis-induced Myocardial Dysfunction) 467
- 67. Acute Heart Failure** **468**
Devendra Richhariya
 • Pathophysiology 468 • Precipitating Factors 468 • Classification 468
 • Clinical Features 469 • Diagnosis 469 • Emergency Department Treatment 469
 • Pharmacologic Therapy 469 • Mechanical Assistance 471 • Disposition 472

68. Cardiac Arrhythmias: Identification and Management	473
<i>Ives Hubloue, Jamal Yusuf</i>	
• Bradyarrhythmias 473 • Tachyarrhythmias 476 • Supraventricular Tachycardias 476	
• Ventricular Tachycardias 478	
69. Cardiomyopathies	481
<i>Jamal Yusuf, Saurabh Sharma, Bhushan Shah</i>	
• Pathophysiology 481 • Clinical Presentation 482 • Diagnostic Evaluation 482	
• Treatment 483 • Mechanical Circulatory Support 483	
70. Valvular Emergencies	486
<i>Rahul Mehrotra, Mayank Gupta</i>	
• General Concepts of a Cardiac Murmur 486 • Acute Mitral Regurgitation 487 • Acute Aortic Regurgitation 488 • Prosthetic Heart Valve Thrombosis 488 • Acute Rheumatic Fever 490	
71. Cardiac Tamponade and Pericardiocentesis	492
<i>Laila Ali Hussein, Ayesha Almemari, Devendra Richhariya</i>	
• Overview of Cardiac Tamponade 492 • Etiology 492 • Clinical Features 492	
• Diagnostic Testing 492 • Management 494 • Pericardiocentesis 494	
• Methods for Removal of Pericardial Fluids 494	
72. Cardiac Temporary Pacing	497
<i>Kartikeya Bhargava</i>	
• Types of Temporary Pacing 497 • Indications of Temporary Pacing 498 • Temporary Pacing Procedure 498 • Complications of Temporary Pacing 499 • Postprocedure Care 499	
73. Postcardiac Surgery Emergencies	501
<i>Yatin Mehta, Devendra Richhariya</i>	
• Paravalvular Aortic/Mitral Regurgitation 501 • Bleeding 501 • Arrhythmias 502	
• Tension Pneumothorax 503 • Cardiac Tamponade 503 • Acute Coronary Syndrome Following Cardiac Surgery 505 • Intractable Hypotension 505 • Gastrointestinal Emergencies 505 • Stroke and Other Neurosurgical/Neurological Complications 506	
• Cardiac Surgery Associated Acute Kidney Injury 506 • Acute Decompensated Heart Failure 507	
• Perioperative Respiratory Failure 508 • Prevention of Postcardiac Surgery Complications 508	
74. Systemic Hypertension	510
<i>Au Kin Heng Constantine, Quintin Kwok</i>	
• Definition Classification Grading 510 • Etiology and Pathophysiology 510	
• Clinical Presentation 511 • Evaluation of Hypertension 512 • Stepwise Approach to Systemic Hypertension 512 • Therapeutic Approach to Hypertensive Emergencies and Urgencies 514	
75. Pulmonary Hypertension	517
<i>Asaad S Shujaa, Marah Alatrash, Noor Bamohammed</i>	
• Classification 517 • Pathophysiology of Pulmonary Hypertension 518	
• Clinical Presentation 518 • Evaluation 519 • Investigations and Interpretation 519	
• Treatments for Pulmonary Hypertension 519 • Disposition 520	
76. Pulmonary Embolism	521
<i>Ashima Sharma</i>	
• Risk Factors 522 • Clinical Presentation 522 • Pretest Probability, Scoring System and PERC 522	
• Diagnostic Workup 523 • Treatment 526	

77. Acute Aortic Dissection	530
<i>Devendra Richhariya</i>	
• Epidemiology 530 • Pathogenesis and Risk Factors of Aortic Dissection 530 • Classification of Acute Aortic Dissection 531 • Clinical Presentation of Acute Aortic Dissection 531 • Diagnostic Strategies for Acute Aortic Dissection in the Emergency Department 532 • Treatment 532

SECTION 9: GASTROINTESTINAL EMERGENCIES

- 91. Abdominal Pain** **633**
Roberta Petrino, Aldo Tua
 • Etiology 633 • Pathophysiology 633 • Clinical Presentation 633
 • Evaluation 636 • Investigations 637 • Treatment 638
- 92. Nausea, Vomiting, Hiccups, Constipation** **640**
Devendra Richhariya
 • Nausea and Vomiting 640 • Hiccups 643 • Constipation 646
- 93. Diarrhea-associated Diseases** **649**
Sanjay Kumar
 • Pathophysiology 649 • Approach to Acute Diarrhea 649 • Traveler's Diarrhea 651
 • Persistent and Chronic Diarrhea 651 • *Clostridium Difficile*-induced Diarrhea 651
 • Inflammatory Bowel Disease 653 • Celiac Disease 653

- 94. Gastrointestinal Bleeding** **656**
Anukalp Prakash, Anshu Nagpal
 • Epidemiology 656 • Causes 656 • Initial Assessment and Prognostication 657
 • History and Physical Examination 657 • Laboratory Investigations 658
 • Treatment 658 • Endoscopy Therapy 659
- 95. Esophageal Emergencies** **662**
Purushottam Vashistha
 • Atypical Chest Pain 662 • Acute Dysphagia or Odynophagia 662 • Pill Injury 663
 • Esophageal Foreign Body 663 • Caustic Injury to Esophagus 664 • Esophageal Injury and Perforations 664 • Mallory–Weiss Syndrome 665 • Boerhaave's Syndrome 665
- 96. Dyspepsia and Peptic Ulcer Disease** **666**
Ravindra Kale
 • Etiology 666 • Pathophysiology 666 • Clinical Presentation 666
 • Evaluation 667 • Treatment 667 • Prognosis 668
- 97. Acute Pancreatitis and Cholecystitis** **669**
Sanjay Kumar
 • Acute Pancreatitis 669 • Acute Cholecystitis 672
- 98. Acute Hepatitis** **674**
Amit Mittal, Akanksha Rastogi
 • Etiology 674 • Pathophysiology 674 • Clinical Presentation 675
 • Evaluation 675 • Investigations 675 • Treatment 676
- 99. Chronic Liver Disease and Complications** **677**
Ravindra Kale
 • Malnutrition 677 • Infections 677 • Gastrointestinal Bleeding 678
 • Ascites 678 • Pulmonary Complications 678 • Hepatorenal Syndrome 679
 • Hepatocellular Carcinoma 679 • Hepatic Encephalopathy 679
- 100. End-stage Liver Disease** **682**
Uday Sanglodkar, Neeraj Mangla
 • Definitions 682 • Management of Hepatic Encephalopathy 683 • Management of Gastrointestinal Bleed 683 • Management of Acute Kidney Injury 684 • Management of Sepsis 686 • Management of Ascites 687 • Management of Hepatic Hydrothorax 688
 • Liver Transplantation in Critically Ill ESLD Patients 688
- 101. Liver Transplant and Related Complications** **690**
Amit Ganguly
 • Indications 690 • Contraindications 691 • Brain Dead Donor and Optimization 691
 • Liver Transplant Procedure 691 • Complications of Liver Transplant 691 • Immunosuppression and Rejection 692 • Outcome 692
- 102. Bowel Obstruction** **694**
Jesús Daniel López Tapia, Aldo Emigdio Bartolini Salinas
 • Etiology 694 • Pathophysiology 695 • Clinical Presentation 695 • Evaluation: History and Physical Examination 695 • Investigations 696 • Treatment 697

- 103. Acute Appendicitis** **699**
Mukund Khetan
 • Anatomy 699 • History 699 • Etiopathogenesis 699 • Presentation 700 • Evaluation 700
 • Investigations 701 • Appendicitis in Special Population 702 • Treatment 702
 • Special Considerations during Appendectomy 703 • Recent Advances 704
- 104. Anorectal Diseases** **706**
Ashok Kumar Puranik, Devendra Richhariya
 • Hemorrhoids 706 • Anal Fissure 708 • Anorectal Abscess 709 • Anal Fistula 711
 • Pilonidal Disease 712 • Rectal Prolapse 714 • Rectal Trauma/Foreign Body 714
 • Proctitis 715 • Pruritus Ani 715 • Proctalgia Fugax 715
- 105. Vascular Abdominal Emergencies** **717**
Devendra Richhariya
 • Vascular Abdominal Anatomy 717 • Abdominal Vascular Thromboses 718 • Ischemic Bowel 719
 • Aneurysm 720 • Visceral Artery Aneurysms 722
- SECTION 10: RENAL AND GENITOURINARY EMERGENCIES**
- 106. Imaging Modalities in Genitourinary Disease** **723**
Aman Gupta
 • Conventional Plain Film Radiography 723 • Intravenous Urography 723 • Retrograde Urography 724 • Cystography 725 • Retrograde Urethrography and Voiding Cystourethrogram 725 • Percutaneous Nephrostomy and Antegrade Pyelography 725
 • Ultrasound 726 • Doppler Sonography 727 • Computed Tomography 727
 • Magnetic Resonance Imaging 728 • Nuclear Medicine 729

Puneet Ahluwalia
 • Classification of Hematuria 731 • Etiology 731 • History and Initial Evaluation 731
 • Stepwise Approach for Evaluation 733 • Unexplained Hematuria 734 • Follow-up after Initial Negative Evaluation 734 • Treatment 734
- 108. Acute Urinary Retention** **738**
Puneet Ahluwalia
 • Epidemiology 738 • Etiopathogenesis 738 • Categories of Urinary Retention 740
 • Clinical Presentation 740 • Evaluation 740 • Initial Management of Acute Urinary Retention 741
- 109. Acute Kidney Injury and Rhabdomyolysis** **743**
Ankit Purohit, Devendra Richhariya
 • Pathophysiology 743 • Acute Kidney Injury 744 • Definition 744 • Risk Factors and Causes for Acute Kidney Injury 744 • Clinical Evaluation 747 • Diagnostic Testing 747
 • Management of Acute Kidney Injury in the Emergency Department 747
 • Acid-base Derangement in the Critically Ill Acute Kidney Injury 749
 • Renal Replacement Therapy 750 • Rhabdomyolysis 750 • Disposition 751
- 110. End-stage Renal Disease** **753**
Devendra Richhariya
 • Chronic Kidney Disease 753 • End-stage Renal Disease 754 • Pathophysiology 754 • Clinical Features of Uremia 754 • Hemodialysis 756 • Peritoneal Dialysis 758 • Renal Transplant 759

- 111. Kidney and Ureteral Stones** **761**
Devendra Richhariya
 • Risk Factors 761 • Cause 762 • Clinical Presentation 762 • Emergency Department Evaluation 762 • Imaging Modalities 763 • Management and Treatment 764
 • Prognosis 764 • Complications 764 • Special Concerns 765
- 112. Urinary Tract Infection** **766**
Krunal Desai
 • Definitions and Classification 766 • Pathophysiology 766 • Risk Factors and Uropathogens 766 • Clinical Features 767 • Differential Diagnosis 767 • Diagnostic Evaluation 767 • Treatment 768 • Disposition 771
- 113. Penile Emergencies** **773**
Puneet Ahluwalia, Devendra Richhariya
 • Anatomy 773 • Priapism 773 • Zipper Injury and Penile Entrapment 775
 • Balanitis and Posthitis 775 • Peyronie's Disease 776 • Penile Calciphylaxis 776
 • Phimosis 776 • Paraphimosis 779 • Penile Fracture 781
- 114. Acute Scrotal Emergencies** **784**
Devendra Richhariya
 • Anatomy 784 • Etiology of Acute Scrotum 784 • Painful Scrotum 785
 • Painless Swollen Scrotum 787 • Erythematous Scrotum 787 • Traumatic Scrotum 787
 • Diagnosis 787 • Treatment 788
- 115. Renal Transplant Related Complications** **791**
Vishal Saxena, Yogeshman Anand
 • Hypertension Following Kidney Transplant 791 • Surgical and Urologic Complication 791
 • Infection after Kidney Transplantation 793 • Cytomegalovirus Infection 793 • BK Polyomavirus Infection 793 • Fungal Infections Post-transplant 793 • Allograft Rejection 793 • New-onset Diabetes after Transplant 794 • Post-transplant Malignancy 794

SECTION 11: NEUROLOGICAL EMERGENCIES

- 116. Headache** **796**
Devendra Richhariya
 • Etiology 796 • Pathophysiology 796 • Clinical Presentation 797
 • Evaluation 797 • Investigations 797 • Treatment 798
- 117. Acute Dizziness and Vertigo** **801**
Ramyajit Lahiri, Subhra Choudhury
 • Definition 801 • Etiology 801 • Physiology 802 • Pathophysiology 803
 • Concerning Clinical Features 804 • Evaluation-history and Physical Examination 804
 • Other Test 808 • Investigations 809 • Management 809
- 118. Altered Mental Status: Delirium** **814**
Devendra Richhariya
 • Definition 814 • Subtype of Delirium 815 • Recognizing the Delirium 815 • Pathophysiology of Delirium 815 • Etiology 815 • Evaluation 816 • Management 817 • Disposition 818

- 119. Acute Ischemic Stroke 820**
Chandril Chugh
 • Epidemiology and Risk Factors 820 • Ischemic Stroke Classification 820
 • Clinical Presentation 821 • Radiological Investigations in Acute Stroke 821
 • Management of Acute Stroke 823 • Intravenous Thrombolysis 824
 • Endovascular Treatment for Stroke 825 • Cryptogenic Stroke 826
- 120. Subarachnoid and Intracerebral Hemorrhage 828**
Alireza Baratloo, Arash Safaie
 • Etiology/Causes 828 • Pathophysiology of the Condition 828
 • Clinical Presentation and Red Flags 829 • Evaluation and Interpretation of Findings 829
 • Investigations 829 • Treatment 829 • Disposition 831
- 121. Seizures and Status Epilepticus 833**
Gouri A Ranade, Priyanka G Mahale
 • Common Causes of Status Epilepticus 833 • Classification and Stages of Status Epilepticus 833
 • Initial Evaluation and Management 834 • Phase Wise Management of Status Epilepticus 834
 • Special Situations in Status Epilepticus 835 • Systemic Complications of Status Epilepticus 836
- 122. Acute Flaccid Paralysis 838**
Priyanka G Mahale, Rahul Kulkarni, Devendra Richhariya
 • Guillain-Barré Syndrome 838 • Myasthenia Gravis 839 • Transverse Myelitis 839
 • Botulism 840 • Inflammatory Myopathy 840 • Systemic or Metabolic Disorders Causing Acute Flaccid Paralysis 840 • Weakness Associated with Critical Illness 841 • Trauma Induced Acute Flaccid Paralysis 841 • Evaluation of Acute Flaccid Paralysis 842 • Lathyrism 842
- 123. Meningitis Encephalitis and Brain Abscess 844**
Atul Tungikar, Priyanka G Mahale, Devendra Richhariya
 • Evaluation of Meningitis 844 • Management of Meningitis 845 • Encephalitis 846
 • Brain Abscess 848
- 124. Coma: Evaluation and Management 849**
Noel Fernando
 • Pathophysiology 849 • Differential Diagnosis 849 • Clinical Finding 849 • Clinical Examination 849 • Grading of Coma 851 • Investigations 851 • Treatment 851

SECTION 12: ENDOCRINAL EMERGENCIES

- 125. Type 1 Diabetes Mellitus and Insulins 855**
Amit Gupta, Vinod Kumar
 • Type 1 Diabetes Mellitus 855 • Diagnosis 855 • Insulin 856
- 126. Type 2 Diabetes Mellitus: Management 859**
Ashok K Taneja
 • Epidemiology: Prevalence in World and India 859 • Risk Factors 859
 • Etiology and Pathogenesis 859 • Diagnosis and Screening 860 • Management 860
 • Stepwise Approach of Managing Type 2 Diabetes Mellitus 865

- 127. Hypoglycemia** **867**
Jugal Kishor Sharma, Dinesh Sharma
 • Etiology 867 • Pathophysiology 868 • Clinical Features 868 • Diagnosis 868
 • Classification of Hypoglycemic Events 868 • Treatment 869 • Prevention 869
- 128. Diabetic Ketoacidosis** **871**
Rajeev Chawla, Shalini Jaggi, Sidhant Trehan
 • Epidemiological Aspect 871 • Pathogenesis of Diabetic Ketoacidosis 871 • Precipitating Factors for Diabetic Ketoacidosis 871 • Presenting Features for Diabetic Ketoacidosis 871
 • Ketosis Prone Type 2 Diabetes Mellitus 871 • Evaluation of Patient for Diabetes Ketoacidosis 872
 • Diagnostic Criteria for Diabetic Ketoacidosis 872 • Treatment Goals for Diabetic Ketoacidosis 873
 • Complications of Diabetic Ketoacidosis 875 • Preventive Measures for Diabetic Ketoacidosis 875
- 129. Hyperosmolar Hyperglycemic Syndrome** **877**
Dheeraj Kapoor
 • Diabetes Overview 877 • Etiology 877 • Pathophysiology 878 • Diagnosis 879
 • Differential Diagnosis 879 • Treatment Approach 880 • Prognosis 880
- 130. Hypothyroidism and Myxedema Coma** **882**
Ajay Agarwal, Danendra Sahu, Rupak Wadhwa
 • Classification and Etiopathogenesis 882 • Clinical Presentation 882
 • Diagnosis 883 • Myxedema Coma 883 • Treatment 885
- 131. Hyperthyroidism—Graves' Disease and Thyroid Storm** **888**
Dheeraj Kapoor, Abhishek Goyal
 • Epidemiology 888 • Clinical Presentation 888 • Pathogenesis 888 • Diagnosis 889
 • Treatment 889 • Thyroid Storm 891
- 132. Acute Adrenal Crisis** **893**
Dheeraj Kapoor, Abhishek Goyal
 • Basic Anatomy and Physiology of the Adrenal Gland 893 • Classification 894
 • Pathophysiology 894 • Causes 895 • Clinical Presentation 895 • Diagnosis 896
 • Confirmatory Diagnostic Testing 896 • Evaluation and Management in Emergency Department 897 • Prevention and Patient Education 897

SECTION 13: EYE, EAR, NOSE, THROAT, AND ORAL EMERGENCIES

- 133. Eye Emergencies** **899**
Carreen Pakrasi, Sudipto Pakrasi
 • Anatomy 899 • Penetrating Ocular Injuries 900 • Nonpenetrating Ocular Injuries 901
 • Chemical Injuries 903 • Contact Lens-related Emergencies 903 • Conjunctivitis 903
 • Corneal Ulcers 903 • Uveitis 904 • Glaucoma Emergencies 904
 • Neuro-ophthalmology Emergencies 904 • Optic Neuritis 904 • Papilledema 904
 • Vascular Emergencies 904 • Vitreous Hemorrhage 905
- 134. Ear Emergencies** **907**
Shaarang Sachdev, Salil Malik
 • Anatomy of Ear 907 • Common Symptoms of Ear Problems 908 • Outer Ear Infections 909
 • Middle Ear Infection 910 • Inner Ear Infections 911 • Trauma to Ear 911
 • Procedures Related to Ear 912

- 135. Nasal Emergencies 915**
Harshil Mehta
 • Epistaxis 915 • Nasal Fracture 918 • Nasal Septal Hematoma 919
- 136. Face and Jaw Emergencies 921**
Devendra Richhariya, Harshil Mehta
 • Facial Swelling 921 • Localized Facial Swelling 921 • Generalized Facial Swelling 922
 • Facial Cellulitis 923 • Jaw Dislocation 924
- 137. Neck, Throat, Oral, and Dental Emergencies 928**
Aman Sharma, Devendra Richhariya
 • Pharyngitis 928 • Epiglottitis 929 • Peritonsillar Abscess 930 • Ludwig's Angina 931
 • Retropharyngeal Abscess 932 • Infectious Mononucleosis 933 • Oral Candidiasis 934
 • Oral Herpes Simplex 935 • Dental Pain 936 • Gingivitis 936 • Dental Abscess 940
 • Bleeding after Dental Surgery 940 • Dental Trauma 941
- 138. Management of Foreign Bodies of Ear, Nose and Throat 944**
Mohammad Anzal Rehman, Neha Hudlikar, El Rasheed Salih
 • History Taking and Presentation 944 • Approach and Management 944 • Foreign Bodies of the Ear 945
 • Foreign Bodies of the Nose 947 • Foreign Bodies of the Throat 948

SECTION 14: HEMATOLOGY AND ONCOLOGY

- 139. Anemia 952**
Akanksha Rastogi, Amit Mittal
 • Pathophysiology 952 • Types of Anemia 952 • Classifications 952 • Clinical Presentation 952
 • Red Flags 953 • Evaluation of Anemia 953 • Differential Diagnosis 954 • Investigations 954
 • Hemolytic Anemia 956 • Treatment 956
- 140. Approach to Pancytopenia 958**
Benita Florence, Dodi Herman
 • Definition 958 • Etiology 958 • Clinical Features 959 • Diagnostic Workup 959
 • Aplastic Anemia 959 • Inherited Aplastic Anemia 960
- 141. Approach to Leukemia 962**
Dodi Herman, Benita Florence
 • Epidemiology 962 • Risk Factors 962 • Clinical Presentation 962 • Classification 963
 • Clinical Manifestation and Assessment 963 • Investigations 963 • Treatment in the Emergency
 Department 964 • Other Emergencies 964 • Precautions 965
- 142. Oncological Emergencies 967**
Amit K Jain
 • Oncological Emergencies Related to Local Tumor Effects 967 • Oncological Emergencies
 Related to Biochemical Derangements 971 • Oncological Emergencies Related to Hematological
 Derangements 973 • Oncological Emergencies Related to Therapy 975
- 143. Thrombocytopenia, Bleeding, and Coagulopathy 979**
Ragesh Radhakrishnan Nair, Isha Gambhir
 • Primary Hemostasis 979 • Coagulation Cascade 980 • Approach to Thrombocytopenia 981
 • Disorders of Coagulation 983

- 144. Blood Transfusion Therapy and Related Complication** **986**
Aseem Kumar Tiwari, Geet Aggarwal
 • Responsibility of Emergency and Blood Bank Team 986 • Transfusion Approach and Massive Transfusion Protocol 987 • Role of Specific Blood Components 988 • Adverse Effect of Blood Transfusion 990 • Hemovigilance (Hemovigilance Program of India) 991
- 145. Therapeutic Plasmapheresis** **993**
Rahul Solanki, Devendra Richhariya
 • History 993 • Indications 993 • Techniques 994 • Complications 995
- 146. Sickle Cell Disease** **997**
Devendra Naik
 • Pathophysiology 997 • Clinical Features 997 • Approach to Sickle Cell Disease Patient in Emergency Department 999 • Management 999
- 147. Thrombotic Microangiopathies** **1002**
Sirisha Kadali, Devendra Richhariya
 • Thrombotic Thrombocytopenic Purpura 1002 • Hemolytic Uremic Syndrome 1005
 • Immune Thrombocytopenic Purpura 1005 • HELLP Syndrome 1006 • Disseminated Intravascular Coagulation 1007 • Heparin-induced Thrombocytopenia 1009

SECTION 15: DERMATOLOGY, RHEUMATOLOGY AND PSYCHIATRY

- 148. Approach to Skin Diseases in Emergency** **1013**
Ramanjit Singh, Nidhi R Sharma
 • History Taking 1013 • Examination of the Patient 1013 • Diagnostic Tests 1013
 • Bedside Tests in Dermatology 1018 • Evaluation of the Nature of Diseases 1021
 • Vesiculobullous Disorders 1021 • Drug Rash with Eosinophilia and Systemic Symptoms/Drug-induced Delayed Multiorgan Hypersensitivity 1021 • Infectious Diseases 1021 • Noninfectious Causes of Hemorrhagic Lesions 1022 • Necrotizing Fasciitis 1022 • Urticaria and Angioedema 1022 • Erythroderma 1022 • Inflammatory Cutaneous Disorders 1023 • Environmental Disorders 1023 • Acute Skin Failure 1023
- 149. Generalized Dermatologic Emergencies** **1025**
Tejas D Patel
 • Stevens–Johnson Syndrome and Toxic Epidermal Necrolysis 1025 • Pyoderma Gangrenosum 1026 • Staphylococcal Scalded Skin Syndrome 1027 • Necrotizing Fasciitis 1027 • Urticaria (Hives), Angioedema, and Anaphylaxis 1027 • Pemphigus Group of Diseases 1029 • Vasculitis 1030 • Lepra Reaction 1030 • Psoriasis (Erythrodermic Psoriasis) 1030 • Acute Skin Failure 1030
- 150. Approach to Joint Pain** **1033**
Sourabh Malviya
 • Evaluation of Joint Pain 1033 • Laboratory Tests 1035 • Synovial Fluid Analysis 1035 • Imaging 1035 • Treatment 1037
- 151. Overview of Rheumatological Disorders** **1039**
Neeraj Jain, Amit Dua
 • Classification and Definition 1039 • Etiology 1039 • Evaluation 1039
 • Diagnosis 1042 • Treatment 1044

152. Evaluation of Mental Health and Common Psychiatric Emergencies 1047

Mohammad Anzal Rehman, Mansoor Masarrat Husain

• Evaluation of Mental Health 1047 • Investigations 1049 • High-risk Psychiatric Presentations in the Emergency Department 1050 • Overview of Psychiatric Illness 1051 • Thought Disorders, Psychosis, and Schizophrenia 1054

SECTION 16: OBSTETRICS AND GYNECOLOGICAL EMERGENCIES

153. Acute Pelvic Pain 1056

Dolly C Yadav

• Anatomy, Pathophysiology, and Etiology 1056 • Emergency Department Evaluation 1056
• Treatment 1059 • Disposition and Follow-up 1059 • Specific Conditions in Nonpregnant Females 1060

154. Abnormal Uterine Bleeding 1066

Sanjukta Dutta, Mainak Majumdar

• Basic Physiology 1066 • Etiology 1066 • Evaluation of Abnormal Uterine Bleeding 1067
• Investigations 1069 • Management 1069 • Disposition 1070

155. Ectopic Pregnancy 1072

Sonal Parihar

• Causes 1072 • Types of Ectopic Pregnancy 1072 • Clinical Presentation 1073
• Evaluation 1074 • Investigations 1074 • Treatment 1075

156. Emergencies during Pregnancy 1078

Devyani Misra, Mariyum Faruqi

• Nausea and Vomiting of Pregnancy and Hyperemesis Gravidarum 1079
• Spontaneous Abortion 1081 • Septic Abortion 1083 • Hypertension in Pregnancy 1086
• Hellp Syndrome 1095 • Placenta Previa 1095 • Prelabor Rupture of Membranes 1098
• Preterm Labor 1099

157. Comorbid Conditions and Pregnancy 1104

Laxman Bhusal, Rabin Bom

• Diabetes 1104 • Thyroid Diseases 1105 • Cardiovascular Diseases 1105
• Asthma 1106 • Epilepsy 1106

158. Emergency Delivery 1108

Sangeeta Kaushik Sharma

• Prehospital Care 1108 • Emergency Department Care 1108 • Complicated Delivery 1110
• Umbilical Cord Prolapse 1110 • Cesarean Section 1112 • Postpartum Complications 1112

159. Resuscitation in Pregnant 1114

Vijaya Banu Mohan, Dodi Herman, Benita Florence

• Physiological Changes in Pregnancy 1114 • Critically Ill Maternal Patients 1114 • Maternal Collapse 1114 • Maternal Cardiac Arrest 1115 • Approach to Critically Ill Obstetric Patient 1115 • Approach to Maternal Cardiac Arrest 1116 • Management after Resuscitative Hysterotomy 1119 • Amniotic Fluid Embolism 1119

SECTION 17: PEDIATRIC EMERGENCIES

- 160. Pediatric and Neonatal Transport 1121**
Trevor L Tredway
 • Referring and Receiving Hospital Responsibilities 1121 • Criteria for Transfer 1121 • Mode of Transport 1121 • Transport Team 1122 • Patient Monitoring and Care 1122

Sayuri Enriquez Saenz, Devendra Richhariya
 • Pathophysiology of Tetanus Toxin 1314 • Symptomatology of Tetanus 1314
 • Diagnosis 1315 • Treatment of Tetanus 1315 • The Role of Botulinum Toxin in Tetanus-induced Rigidity and Spasms 1315 • Advantages and Disadvantages of Botulinum Toxin Treatment in Tetanus 1316
- 189. Dengue Fever** **1317**
Sahanya Ramesh Shetty, Neeraj Mangla
 Epidemiology 1317 • Modes of Transmission 1317 • Transmission 1318
 • Immunopathogenesis 1318 • Clinical Picture 1318 • Clinical Manifestations 1318
 • Severe Dengue 1319 • Step-wise Approach to Treatment 1321 • Diagnosis 1321
 • Management 1322 • Complications in Severe Dengue 1323 • Complication: Compensatory Shock 1323 • Complication: Hypotensive Shock 1323 • Hemorrhagic Complications 1325
 • Complication: Fluid Overload 1326
- 190. Malaria** **1328**
Sahanya Ramesh Shetty, Neeraj Mangla, Devendra Richhariya
 • Incidence 1328 • Causative Agent, Types, and Life Cycle 1328
 • Pathophysiology 1329 • Clinical Features 1329 • Investigation and Diagnosis 1329
 • Treatment of Uncomplicated Malaria 1332 • Radical Treatment 1333 • Chemoprophylaxis to Travelers 1333 • Treatment of Severe Malaria 1333 • Chronic Complications of Malaria 1334 • Cerebral Malaria 1334
- 191. Tuberculosis** **1336**
Suman Thakur, Vivek Chauhan
 • Etiology/Causes 1336 • Pathophysiology 1336 • Clinical Presentation 1336
 • Evaluation 1337 • Investigations 1337 • Treatment 1338 • Disposition 1339

- 192. Rabies** **1341**
Ashok Mishra
 • Current Scenario 1341 • Pathogenesis 1342 • Clinical Presentation 1343
 • Diagnosis 1343 • Management of Human Rabies (Hydrophobia) 1344 • Prevention of Human Rabies 1344 • Modern Antirabies Vaccine 1345 • Rabies Immunoglobulin for Passive Immunization 1346 • Specific Situations 1346 • Control of Rabies 1347
- 193. Skin and Soft Tissue Infections** **1349**
Javier Saavedra Urbe, Devendra Richhariya
 • Microbiology 1349 • Impetigo 1349 • Abscess 1351 • Purulent Cellulitis 1352
 • Nonpurulent Cellulitis 1352 • Erysipelas 1353 • Necrotizing Soft Tissue Infections 1353
- 194. Musculoskeletal Infections** **1356**
Avdi S Tahiri, Artan Bejta
 • Osteomyelitis 1356 • Spondylodiscitis (Vertebral Osteomyelitis) 1358
 • Spinal Epidural Abscess 1359 • Septic Arthritis 1359 • Periprosthetic Joint Infection 1360
- 195. Management of Sexually Transmitted Infection** **1362**
Shahbaz Anees, Durre Aden
 • Epidemiology 1362 • Role of the Emergency Department 1362
 • Risk Factors 1362 • Evaluation 1362 • Investigations 1362 • *Chlamydia* 1363
 • Gonorrhoea 1363 • Trichomonas Vaginitis/Bacterial Vaginosis 1363 • Syphilis 1364
 • Herpes Simplex Virus 1364 • Pelvic Inflammatory Disease 1365 • Special Scenario 1365
- 196. HIV Infections** **1367**
Susmeet Mishra, Ushirin Bose
 • Etiology 1367 • Pathophysiology 1367 • Clinical Presentation 1368
 • Evaluation 1368 • Investigations 1369 • Treatment 1370 • Immune Reconstitution Inflammatory Syndrome 1370 • Postexposure Prophylaxis 1373 • Disposition 1373
- 197. Care of Immunocompromised and Transplant Patient** **1375**
Charu Malhotra, Brunda RL, Ritin Mohindra
 • Neutropenia 1375 • Diabetes 1377 • Alcoholism and Cirrhosis 1377
 • Renal Failure 1377 • Functional or Surgical Asplenia 1377 • Corticosteroid 1377
 • Transplant Patient Care 1377 • General Approach to Transplant Patient 1377
 • Graft-versus-Host Disease 1378 • Transplant-Specific Problems 1378

SECTION 20: TOXICOLOGY

- 198. Analytical Toxicology** **1381**
VV Pillay
 • Biochemical and Hematological Tests Useful in Toxicology 1382 • Analytical Methods used in Toxicology 1383 • Qualitative Assays 1383 • Quantitative Assays 1385
- 199. General Management of Poisoning** **1392**
VP Chandrasekaran, Balaji Muruga B
 • Setting up a Poisoning Center 1392 • Primary Toxicology Survey and Stabilization 1392
 • Secondary Toxicology Survey 1394 • Removal of Poisoning 1394

- 200. Common Pesticides Poisoning in India** **1404**
VV Pillay
 • Organophosphorus Poisoning 1404 • Carbamates 1415 • Aluminum Phosphide Poisoning 1417
- 201. Anticholinergics** **1421**
Shikha Tandon
 • History 1421 • Pharmacology 1421 • Etiology of Anticholinergic Toxicity 1422
 • History and Evaluation 1422 • Clinical Features 1422 • Differential Diagnosis 1422
 • Management 1423 • Disposition 1423
- 202. Antidepressant Antipsychotic** **1425**
Devendra Richhariya
 • Antidepressant 1425 • Overdose and Toxicity 1425 • Treatment 1427
 • Serotonin Syndrome 1428 • Antipsychotics 1428 • Extrapyramidal Symptoms 1429
 • Drug-induced Heat Stroke 1429 • Neuroleptic Malignant Syndrome 1429
- 203. Anticonvulsants Barbiturates and Phenytoin Toxicity** **1431**
Vivekanshu Verma
 • Barbiturates 1431 • Phenytoin Toxicity 1432
- 204. Sedatives Benzodiazepine and Nonbenzodiazepine** **1435**
Chidrupi Sharma
 • Benzodiazepines 1435 • Nonbenzodiazepines 1437
- 205. Opioids** **1439**
Olita Shilpakar
 • Pathophysiology 1439 • Toxicokinetics 1440 • Clinical Evaluation 1440
 • Differential Diagnosis 1440 • Investigation 1441 • Treatment 1441
 • Disposition 1441 • Opioid Withdrawal 1441
- 206. Substance Abuse** **1443**
Ramesh K Maharjan, Jukel Shrestha, Rashmisha Maharjan
 • History 1443 • Epidemiology 1443 • Hallucinogens 1444 • Lysergamides 1444
 • Marijuana and Synthetic Cannabinoids 1444 • Amphetamines 1445 • Cocaine 1446
- 207. Alcohol** **1449**
Ajay Singh Thapa, Devendra Richhariya
 • Alcohol Intoxication 1449 • Alcohol Withdrawal Syndrome 1451 • Methanol Poisoning 1452
- 208. Cardiovascular Drug Overdose** **1455**
Rahul Solanki
 • β -Adrenergic Antagonists and Calcium Channel Antagonists 1455
 • Cardioactive Steroid Toxicity 1459 • Antihypertensive 1461 • Antiarrhythmics 1463
- 209. Salicylates, Acetaminophen, and Nonsteroidal Anti-inflammatory Drugs** **1466**
Ajay K Mishra, Jitendra Chandrakar
 • Mechanism of Action 1466 • Salicylates 1466 • Acetaminophen 1467 • Nonsteroidal Anti-Inflammatory Drugs 1469

- 210. Hydrocarbons and Volatile Substances** **1472**
Atanu B Bhattacharya
 • Classification and Properties 1472 • Pathophysiology 1472 • Clinical Presentation 1473
 • Red Flags 1474 • Evaluation 1474 • Investigation 1474 • Treatment 1474 • Disposition 1475
- 211. Caustic Ingestion** **1477**
Narendra Nath Jena, Subbulakshmi Dhanabal
 • Pathophysiology 1477 • Etiology 1478 • Clinical Features 1478
 • Evaluation 1478 • Investigations 1479 • Management 1479 • Complications 1479
 • Disposition and Follow-up 1479
- 212. Inhaled Toxins** **1481**
Subramanian Senthilkumaran, Ponniah Thirumalaikolundusubramanian
 • Etiology 1481 • Pathogenesis 1481 • Clinical Features 1482
 • Investigation 1482 • Diagnosis 1482 • Management 1482 • Asphyxiants 1484
 • Carbon Monoxide Poisoning 1484 • Cyanide Poisoning 1485
- 213. Iron and Heavy Metals** **1487**

 • Anatomical and Physiological Differences 1641 • Evaluating a Pediatric Trauma Patient 1641
 • Primary Survey 1642 • Secondary Survey 1644 • Tertiary Survey 1645 • Disposition 1645
- 235. Trauma in Pregnancy** **1646**
Wael Hakmeh, Mustafa Sabak, Behçet AL
 • Etiology 1646 • Anatomical and Physiological Changes of Pregnancy 1646 • Clinical Presentation 1648 • Evaluation 1648 • Investigations 1649 • Pregnant Patients Needing Fetal Monitoring 1650 • Specific Conditions of Pregnancy Trauma 1650
- 236. Basics of Wound Management** **1653**
Sukhdeep Singh, Aditya Agarwal, Devendra Richhariya
 • Classification of Wound 1653 • Wounds Commonly Managed in Emergency 1655
 • Assessment of the Wound 1655 • Wound Preparation 1657 • Materials Used for Closure of Lacerations 1657 • Types of Wound Closure 1659 • Wound Closure 1659
 • Antibiotics in Wound Care 1660 • After-care Instruction 1660
- 237. Advanced Laceration Management** **1663**
Aditya Agarwal, Sukhdeep Singh
 • Initial Management 1663 • Diagnostic Workup 1664 • Selection of Sutures and Suturing Methods 1664 • Periorbital Wound 1664 • Nasolacrimal Duct Injuries 1666 • Cheek Lacerations (Zygoma) 1666 • Ear Lacerations 1666 • Nose Lacerations 1667 • Scalp Laceration 1667 • Lip Laceration 1667 • Tongue Laceration 1669 • Face Laceration 1669
 • Human Bites 1670 • Special Considerations for Animal Bites (Dog and Cat) 1671
 • Limb Injuries 1671 • Crush Injuries 1671
- 238. Burns** **1675**
Gaurav B Shetty, Sahanya Ramesh Shetty
 • Etiology 1675 • Determining the Severity of Burn: Classification 1675 • Initial Management of Burn 1677 • Burn Care in the Emergency Department 1678 • Nutrition in Burns 1681 • Wound Care 1682 • Indications of Hospitalization for a Burn Patient 1682 • Inhalation Injury: Early Diagnosis and Treatment 1683 • Criteria for Referral to A Burn Unit/Specialist 1683
 • Medicolegal Insights and Child Abuse 1683 • Prognostication of the Burn Patient 1684

SECTION 22: ENVIRONMENTAL, WILDERNESS, OCCUPATIONAL EMERGENCIES

- 239. Accidental Hypothermia** **1686**
Rahul Solanki
 • Pathophysiology 1686 • Clinical Features and Classification 1686 • Diagnosis 1686
 • Management 1688 • Hypothermia of Extremities 1689 • Avalanche 1691
- 240. Heat Illness** **1692**
Omar Ghazanfar, Saleh Fares
 • Classification of Heat Illness 1692 • Heat Cramp 1692 • Heat Edema 1693 • Heat Rash 1693
 • Heat Tetany 1693 • Heat Syncope 1693 • Heat Exhaustion 1694 • Heat Stroke 1694
- 241. Decompression Illness** **1697**
Goma Bajaj, Devendra Richhariya
 • Diving Physics 1697 • Developing Decompression Sickness 1697 • Signs and Symptoms 1697
 • Medical Assessment of the Injured Diver 1698 • Diagnostic Workup 1699

- Differential Diagnosis of Decompression Illness 1699 • Treating Decompression Illness 1699 • Hyperbaric Oxygen Therapy 1699 • Adjunctive Therapies 1700
 - Alternative Treatment Technique: In-water Recompression 1700
- 242. Drowning 1702**
Pratika Agarwal, Devendra Richhariya
- Definition and Terminology 1702 • Risk Factors for Drowning 1703 • Pathophysiology and Staging of Drowning 1703 • Rescue from Water and Resuscitation in Drowning Victim 1703
 - Complications 1706 • Prognosis 1706 • Prevention 1706
- 243. High-altitude Emergencies 1708**
Eric Revue, Anthony Chauvin
- Pathophysiology and Acclimatization 1708 • Acute Mountain Sickness 1708
 - High-altitude Cerebral Edema 1709 • High-altitude Pulmonary Edema 1710
 - Prevention of High-altitude Illness 1710
- 244. Electrical and Lightning Injuries 1712**
Neeraj Mangla, Sahanya Ramesh Shetty
- Etiology 1712 • Pathophysiology 1712 • Clinical Manifestations 1713 • Evaluation of Electrical Injuries 1715 • Treatment 1716 • Taser Injuries 1716 • Injuries Caused by Lightning Strikes 1717 • Disposition 1718
- 245. Snake Bite 1720**
Jaideep C Menon, Joseph K Joseph
- Epidemiology 1720 • Snakes 1720 • Venom 1722 • Clinical Features of Snake Envenomation 1722 • Management of Venomous Snakebite 1722 • Specific Treatment for Snake Bite 1725 • Special Situations 1726 • Complications 1726 • Disposition 1726
- 246. Arthropods: Insect Bites and Stings 1728**
Au Kin Heng Constantine
- Pathophysiology 1728 • Clinical Presentation 1734 • Evaluation 1734
 - Treatment 1735 • Scorpion Sting 1736
- 247. Marine Envenomation 1738**
Deepak Singhal, Devendra Richhariya
- Sponges 1738 • Hydroids and Fire Coral 1739 • Jellyfish 1739 • Sea Anemones 1740
 - Box-shaped Jellyfish 1740 • Annelid Worms 1740 • Starfish and Sea Urchins 1740
 - Mollusks 1740 • Scorpionfish 1741 • Stingrays 1741 • Sea Snakes 1741
 - Treatment and Complications 1742
- 248. Preparation for International Travel 1744**
Neeraj Mangla, Sahanya Ramesh Shetty
- Considerations: Prior to Travel 1744 • Risk Assessment: Individual Approach 1744
 - Immunization: Prior to Travel 1745 • Arthropod-Specific Protection Guidelines 1745 • Malaria—Chemoprophylaxis 1748 • Traveler’s Diarrhea 1748 • Prevention of Injury 1749 • Travel with Children/Infant 1749 • Jet Lag 1750 • Insurance of Travel 1750 • Specific Considerations: Healthcare Personnel 1750 • Sports Recreation 1751 • Water Environment and Diving 1751 • Thrombosis 1751 • Acute Altitude Illness 1752 • Terrorism/Unstable Political Situations 1752 • Updated Who Recommendations for International Traffic in Relation to COVID-19 Outbreak 1752

249. In-flight Medical Emergencies 1755***Devendra Richhariya***

- The Flight Environment, Cabin Altitude, and Cabin Air 1755 • Pressure and Dysbarism 1755
- On-Board Medical Resources 1756 • Automated External Defibrillators 1756 • On-Board Medical Oxygen (Portable Oxygen Bottles) 1757 • Specific Medical Conditions 1757 • Approach to Patient Care during In-flight Emergencies 1759 • Death on Board 1760 • Future Challenges 1760

250. Occupational and Industrial Health 1762***Devendra Richhariya***

- Introduction: A Global View on Occupational Health 1762 • Value of Occupational Health for all Stakeholders 1762 • Work Environment 1763 • Occupational and Other Work-related Disease 1764 • Early Detection of Occupational Disease 1765 • Occupational Ergonomics 1765 • Stress and Adverse Psychological Factors at Work 1766 • Occupational Safety and Accident Prevention 1766 • Epidemiology and Biostatistics in Occupational Health 1767 • Record Keeping 1767 • Occupational Health for Women 1768
