Creating timeless & furniture

Julian Chichester has been involved in many high profile hotel projects around the world, working closely with interior designers and specifiers.

By working directly with you we are able to create new bespoke items via our experienced CAD design team or adapt existing pieces to suit individual requirements. Our own manufacturing facility specialises in working with a variety of different materials and finishes including aluminium, steel, bronze, brass, wood, parchment, lacquer, antique mirror, eglomisé, gilding and metal leaf.

Contact the showroom if you have a particular project in mind and wish to discuss it further.

RIVER BEATRICE LOUNGE PROJECT
above

120 of our standard library chairs were finished to order with ebonised chair legs and bespoke upholstery. Our standard Larson Coffee Table was made to smaller dimensions and supplied with an eglomise glass top.

LIBRARY CHAIR

W:727 D:720 H:920 (Seat H:460mm)
Customer's Own Material: 5m

LARSON COFFEE TABLE

Rect W:1240 D:800 H:510 mm
Square W:1240 D:1240 H:510 mm

RIVER COUNTESS LOUNGE PROJECT
left

Everything you see was created as bespoke items for this project, including adaptations of our library chair to be button-backed and upholstered in leather, the creation of elegant bar stools based on the classic Louis XIV chair, bespoke armchairs in the Gustavian style and a completely new design mirror with added filigree metalwork to the face of the mirror.

Creating your vision

WORKING WITH YOU

We work from anything you send us - even from a scribbled idea on a sticky note! From this we draw up your design with our CAD team for approval and any refinements then we proceed to manufacture.

BESPOKE FINISHES

We are constantly evolving new finishes for our products that will make your own designs look better and last longer, from natural vellum to burnt oak, polished rosewood to industrial reclaimed wood, burnished silver to polished nickel. The possibilities are almost endless.

Our experienced spray finishers have a wealth of knowledge in special effects. We are able to produce finishes to match anything our customers require - as long as we have a sample or photograph to match to.

We FIRA test our finishes to ensure they meet the contract standards. This includes severe scratch testing, adhesive testing, surface resistance, etc. For more details visit the FIRA website: www.fira.co.uk
