September always brings the latest in what's hot and happening and we are ready to share all the exciting new designs and finishes which we have been working on.

This season we are embracing Rattan, a very attractive and sustainable material which has a natural warmth and lightness to it.

We've also worked with top designers Kathryn Ireland and Mark Gillette on some sculptural new shapes – and of course there's several updates to existing designs in wonderful new finishes to enjoy in our showrooms!
