# COMMERCIAL PARTS

DATA AS A SERVICE - MOTOR Commercial Parts provides the largest library of medium- and heavy-duty part numbers and parts cross-references delivered using Data as a Service (DaaS), MOTOR's standardized RESTful web services. Advanced search and filter options accelerate your parts lookup capabilities to efficiently narrow down results and find the replacement parts you are looking for.

WHAT'S INCLUDED

- Medium- and heavy-duty part numbers with cross-references including parts from alternate vendors and competitive interchanges
- Supports medium- and heavy-duty part suppliers for the U.S. market
- Formatted as XML, JSON, or BSON via RESTful web services
- Nine-digit Vehicle Maintenance Reporting Standards (VMRS)
- Filter part manufacturers by VIN

SUPERIOR SUPPORT

Online Tech Support Backed by Subject-Matter Experts

- E-commerce platforms
- Inventory management
- Fleet Management Systems (FMS)
- Shop Management Systems (SMS)
- Dealer Management Systems (DMS)
- Purchasing systems
- Enhance master parts files
- Retail parts point-of-sales
- Reduced implementation and operating costs

COMPANION PRODUCTS

- Many-to-One E-Commerce
- FleetCross
- Estimated Work Times
- Maintenance Schedules
- Data Cleansing
- Light-Duty Parts

FEATURES AND BENEFITS

Advanced global search

- Keyword search expands your look-up capabilities to include searching by part number, part manufacturer, part description and part category
- Advanced search engine allows for optional searching by part number or partial part number only (searches the part number field only)
- Search results are sorted to show the most likely matches at the top of the list
- Filter searches for specific part manufacturer or VMRS code
- Filter part manufacturers by specified vehicle VIN

Largest medium- and heavy-duty parts cross-reference database

- Offers over 45 million one-to-one crosses of same form, fit and function
- Hundreds of thousands of part numbers and cross-references added to database monthly
- Over 4 million searches and views of parts conducted each month

VMRS coding

- VMRS coding for millions of the most looked-up parts

Delivery via web services

- Automatic content updates
- Technology-agnostic accelerated product development for faster time-to-market
- Hosted in a redundant, scalable and secure data center
