

Services for SAP Analytics Cloud

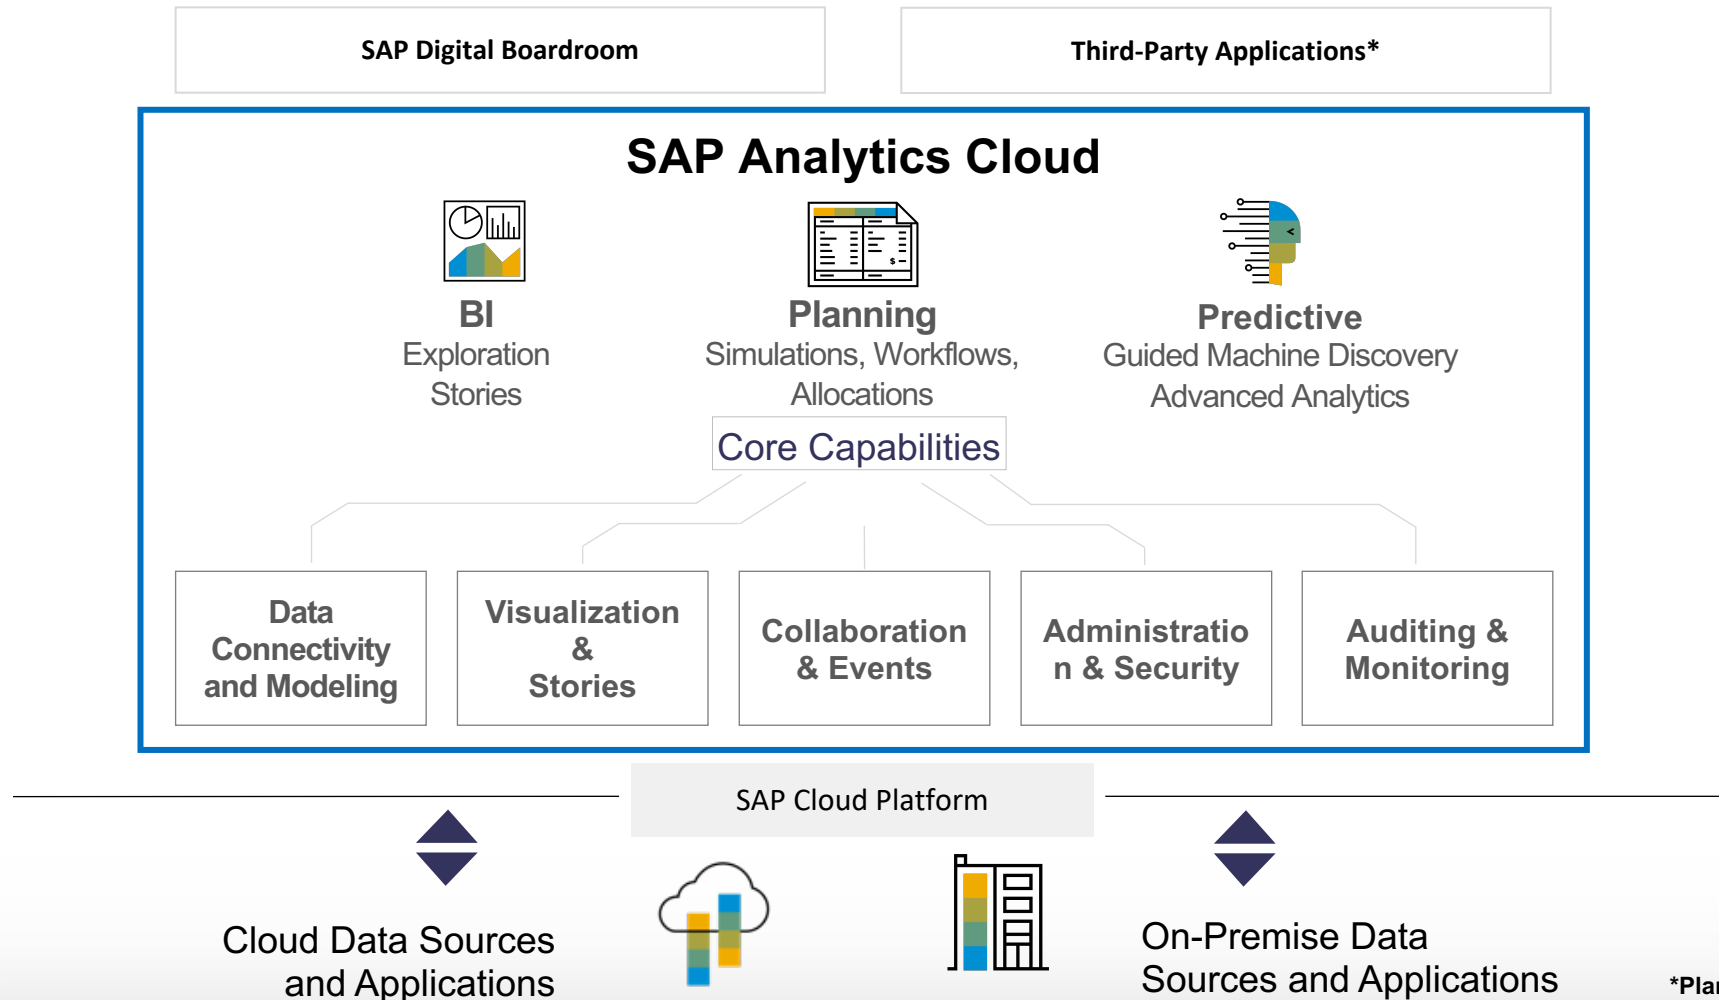

Does finding a partner with real customer SAP Analytics Cloud experience feel like an “Impossible Challenge”?

Meridian has proven experience providing SAP Analytics Cloud services to the public and commercial sectors.

With Meridian Partners helping you, it is possible to plan, implement, and run a SAP Cloud based reporting and analytics environment in record time.

Introducing SAP Analytics Cloud

Analyze, Plan, Predict, and Report all in One Place

*Planned.

SAP Analytics Cloud – Experience Counts

One Blood

> Products

SAP Business Objects
SAP Predictive Analytics
SAP Analytics Cloud
SAP HANA Cloud

> Background

Meridian Partners originally developed OneBlood's enterprise reporting environment leveraging SAP Business Objects on Microsoft SQL Server.

OneBlood's forward looking leadership sought out Meridian Partners for their expertise in migrating to SAP Analytics Cloud on SAP HANA Cloud.

> Lessons learned

SAP Analytics Cloud Dashboard functionality is comparable and superior in many ways to the functionality available in SAP Business Objects

It is important to understand and fine tune SAP Hana Cloud parameters as they can have an impact on performance

“Meridian has performed a variety of ERP and Reporting focused services to One Blood over the last decade. Their expertise was key to our success. True partnership and competence were displayed by the Meridian Team..”
