(Kind Attn: Mr Mark Hanson, Head of office of Airworthiness)

Subject: Acceptance of FAA STC No. SR00886SE to install cargo hook kit equipped with Sling type system for Airbus helicopter Model AS350B3.

Sir,

Reference may please be made to your letter dated 19 Nov 2015 forwarded by FAA letter reference No 102S-15-338 dated 18.12.2015 to this office on the above subject.

The request for acceptance of FAA STC SR00886SE latest amendment dated 23/12/2011 for installation of Cargo hook kit equipped with Sling type System on AS350B3 helicopter has been examined along with the certification documents and information provided by Onboard Systems International. This is to inform that type design change which meets the airworthiness requirements of FAR 27 and certified vide above mentioned FAA STC is considered acceptable from design view point, subject to the following conditions:

1. The installation must be free from any adverse effect upon the airworthiness of the rotorcraft.
2. Limitations and conditions as specified in the certification documents shall be strictly adhered to.
3. The aircraft shall be fitted with mandatory instruments and equipments as per applicable civil aviation requirements (CARs) of DGCA, INDIA that are available on website www.dgca.nic.in

Yours faithfully

(S.K.Singh)

Director (AE)

for Director General of Civil Aviation
