

RING MEASUREMENTS

1. Choose a ring that you own that already fits your finger.
2. In the US, most people wear their engagement/wedding rings on the ring finger on the left hand. It's your choice, of course.

The solid circles on the right refer to ring size. Place your ring over the circle that best fits the inside edge. This is the **inside diameter**.

3. If your ring sits between two different sizes, order the next size up.

Circles represent US ring size and diameters.

FINGER MEASUREMENTS

Your ring should comfortably fit the preferred finger; not too tight where it can cut off the circulation and not too loose where it can accidentally fall off and get lost.

Fingers change size depending on weather and time of the day. For more accurate results:

1. Measure your finger at the end of the day and when your hands are warm. (Fingers get slightly thinner during the early morning hours and when cold.)
2. Measure your finger size 3 to 4 times to ensure an accurate measurement.

Try not using string or paper to measure ring size. String and paper don't conform to your finger all that well, which can result in an inaccurate measurement.

CUSTOMER SERVICE

Free Ring Resizing included 180 days from the date of delivery. Please contact us using the information below.

Phone: 1 (847)367-7022

Monday - Thursday, 9AM to 4:45PM CST; Friday, 9AM to 3PM CST.
Phone is unavailable Saturdays, Sundays, and National Holidays.

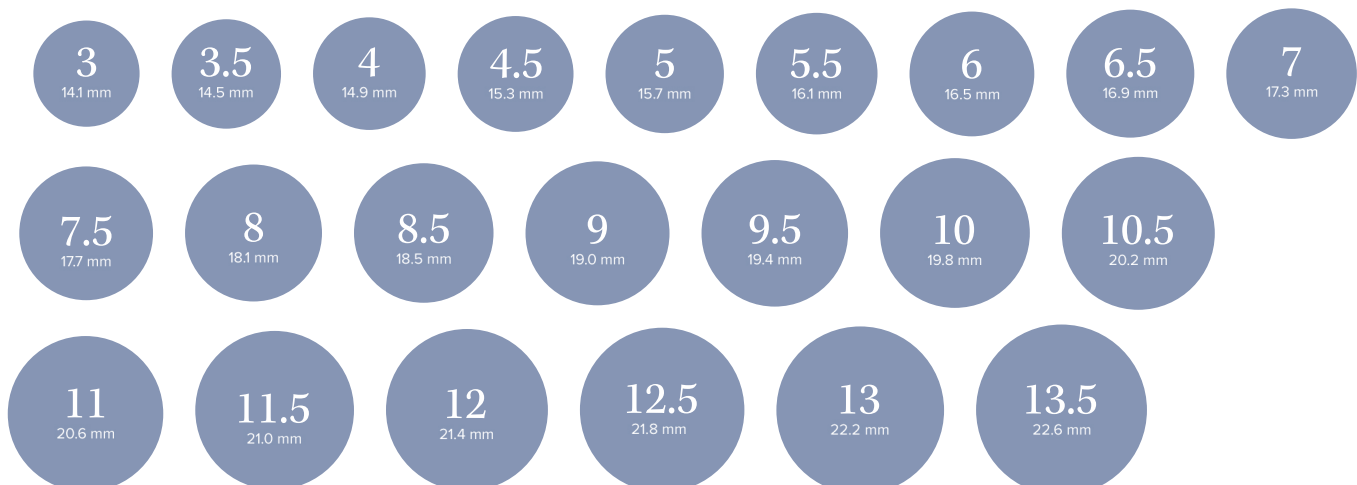

Email: support@pompeii3.com

Please allow up to 24 business hours for a reply.

Before you print, make sure that the **PAGE SCALING** option is set to **100%** in the print dialog box.

(To open the print dialog box, press CTRL + P).

The bar below must measure exactly 30 mm long.

INTERNATIONAL RING SIZE CHART
