

**RESMAR LTD**

**WE HELP KEEP YOU SAFE**

# About Us

Our name Resmar is a combination of the word “Resuscitator” and “Marine”, our company came about from the merger between Weaver Vale Fire and Security and Resuscitator Marine. Originally Established in 1973, our focus has always been on fire safety in a very wide range of industries.

We have over 30 years experience in these highly specialised industries: Fire Safety, Gas Monitoring and Height Safety we are totally committed to bring you the very best in safety equipment at a highly competitive prices.

We strive to maintain the highest standards of excellence and reliability and have tried to maintain an excellent working relationship with our Manufacturing Partners and Suppliers.

## **Services Resmar Provide:**

Escape Set  
Breathing Equipment  
Gas Detection  
Respiratory Protection  
Drug & Alco Testing  
Fire Extinguishers  
Fall Arrest Protection  
Fixed CO2 Systems  
Fire Fighting Equipment  
Air Testing  
Hire of Safety Equipment

This catalogue only has a small number of products we supply, please visit our web site for more products [www.resmar-safety.co.uk](http://www.resmar-safety.co.uk) or contact us on

# Escape Sets

The Escape set is the most commonly used for evacuating an environment which may have a possible threat of hazardous substances or lack of oxygen

An escape set provides immediate breathing air and users need very little training.

**Scott Elsa Sprint 10/15-B Escape set**

10 or 15 min escape time

Vision 3 mask

**Dräger PP10/15 Escape set**

10 or 15 min escape time

Standard Mask

**Scott Elsa 10/15-B Escape set**

10/15 min escape

Hooded

**Dräger CF 10/15 Escape set**

10/15 min escape

Hooded

# Full Breathing Apparatus

**Scott Sigma 2 Type 2**

Ship wheel approved BA set designed with the marine industry in mind

- ◆ CE Marked with EN137:206 Type 2
- ◆ Clear gauge for reading air pressure
- ◆ Easy to wear harness

**Dräger PAS Lite**

Ship Wheel approved BA set that is robust and easy to use ideal for the Marine and Industrial applications

- ◆ Lightweight
- ◆ Resistant to chemical and heat
- ◆ Excellent load distribution

# Full Breathing Apparatus

## Scott ProPAK-I (v2)

The ProPAK-I replaces Version 1 with new harnesses and back plate giving more comfort

- ◆ Extremely durable harness material
- ◆ Versatile integrated hose routing
- ◆ Sturdy construction

## Dräger PSS 3000

This set represents the latest generation of high-performance breathing apparatus for professional firefighters

- ◆ Pneumatic performance
- ◆ Exceptionally comfortable
- ◆ Lightweight & robust

# Full Breathing Apparatus

## Scott ProPAK-F & FX

These 2 are the top of the range sets for Professional Firefighters and Industrial sites that want the best.

- ◆ Extremely durable harness material
- ◆ Adjustable pivoting waste belt
- ◆ Comfort is number one here

ProPAK– FX shown

## Drager PSS 5000 & 7000

This set represents the latest generation of high-performance breathing apparatus for professional firefighters

- ◆ Electronic monitoring system can be fitted
- ◆ Height Adjustable
- ◆ Sliding and pivoting waste belt

PSS 7000 shown

# FACE MASKS

**Drager Panorama Nova face mask**

- ◆ Designed for hazardous environments
- ◆ Easy to put on and wear
- ◆ Impact and chemical resistance visor

**Drager FPS 7000 face mask**

- ◆ Unobstructed field of vision
- ◆ Unique triple edged seal
- ◆ Internal coms and speech amplifier can be fitted

# FACE MASKS

## Scott Panaseal face mask

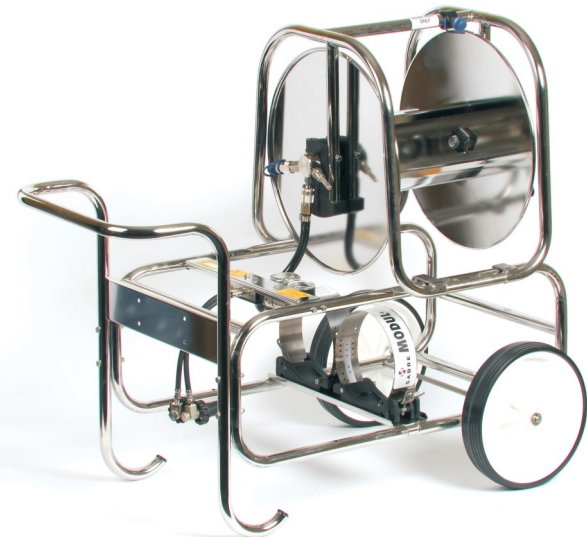

- ◆ Designed for hazardous environments
- ◆ Easy to put on and wear
- ◆ Impact and chemical resistance visor

## Scott Vision 3 Face Mask

- ◆ Unobstructed field of vision
- ◆ Netted head strap is an option
- ◆ Internal coms can be fitted

# Airline Equipment

## Scott Safety Modul+AIR Airline Trolley's

Modul+AIR is designed for 2-4 persons easily.

transported around site and light weight.

ModulairMAX is it big brother holds 2 x 50ltr 300 bar cylinder has 4 outlets and can be craned in or moved by forklift trucks.

Flite harness can be fitted with a 10 or 15 min escape cylinder.

There are 2 choices of hose PVC or anti static in different lengths 1 meter to 60 meter.

# Airline Equipment

## Dräger Airline Trolley

PAS Airpak 1 is designed for 2 persons. Easily transported around site and light weight.

PAS Airpak 2 holds 2 50ltr 300 bar cylinder has 4 outlets and 2 hose reels with 60 meter Ant-static hose.

PAS Colt Harness can be fitted with a 10 or 15 min escape cylinder.

Dräger can offer many lengths of Anti-static hose from 1 meter to 60 meter.

# SMOKE HOODS

## Drager Parat 4720 Soft Pack

For a safe escape from suddenly occurring industrial gases, vapours and particles

- Protection for 15 minutes
- High-quality filters
- Rapid deployment
- Self-adjusting internal head harness
- Dust protection

## Drager Parat 5520 Soft Pack

For a safe escape from suddenly occurring toxic fire related gases, vapours and particles

- Protection for 15 minutes
- High-quality filters
- Rapid deployment

## MSA S-cap

For a safe escape from suddenly occurring toxic fire related gases, vapours and particles

- Protection for 15 minutes
- High-quality filters
- Rapid deployment
- Dust protection

**More Smoke hoods are available online**

# GAS MONITORS

## Single Gas monitors

Here are some of the single gas monitors that we supply. Prices start from £75 upwards visit our web site for full details or gases. From **Oxygen** to **Hydrogen Peroxide** we have monitors to suit

# GAS MONITORS

## Standard 4 gas monitor

Here some of the leading makes of standard 4 Gas Monitors. Sensor fitted are Oxygen - Carbon Monoxide - Hydrogen Sulphide - Flammable gases

Pumped or un-pumped units are available please visit or website

[www.resmar-safety.co.uk](http://www.resmar-safety.co.uk)

# GAS MONITORS

## 5 Gas Monitor

Here some of the leading makes of more complex gas monitors with exotic sensors from SO<sub>2</sub>, CL<sub>2</sub>, NO, NO<sub>2</sub>, PH<sub>3</sub> CO<sub>2</sub>, Ozone, PID and many more please contact us for a full list.

All monitors are built to your spec of sensors and can be a pumped unit or Un-pumped. These units are more customisable to you the user. See our web site for options

[www.resmar-safety.co.uk](http://www.resmar-safety.co.uk)

# GAS MONITORS

## Bump / Calibration

All Gas Monitors will require some servicing depending on local rules. Here at Resmar Ltd we offer this service on site or at our workshop. We will service and calibrate your monitor to the manufacture recommendation and use manufacture parts. Plus you can purchase a Bump/Calibration Station. Here are some of the units available. With these units you can bump test your monitors and keep a record with not much training. See our web site for options

[www.resmar-safety.co.uk](http://www.resmar-safety.co.uk)

# ALCOHOL & DRUG TESTING

## Alcotest 5820

The tried and tested electro-chemical Dräger sensor in the Alcotest 5820 is distinguished by its very fast response times and a long service life. It operates with extreme precision and reliability. The analysis is reliable even at temperatures of -5 to +50 °C / 23 to 122 °F. The sensor also delivers reliable results quickly in case of a high alcohol content, for both active and passive measurements. The Alcotest® 5820 model also has data logging facility (100 tests).

## Alcotest 6820

Alcotest 6820 is the logical successor to the Alcotest 6810. The compact handheld measuring instrument is quickly ready for use and is adaptable to international guidelines. With an even more sturdy enclosure and the proven Dräger sensor, Alcotest 6820 is a reliable partner for breath alcohol analyses.

## Drug Test 5000

DrugTest® 5000 Test Kits and the Dräger DrugTest® 5000 Analyzer. The system is a fast, accurate means of testing oral fluid samples for drugs abuse, such as amphetamines, designer amphetamines, opiates, cocaine and metabolites, benzodiazepines and cannabinoids, as well as precise diagnostic evaluation and data management. Reliable and easy to use, the Dräger DrugTest® 5000 Analyzer is a mobile measurement device for providing qualitative detection of drugs in the oral fluids collected using the Dräger DrugTest® 5000 Test-kits.

# SAFETY HARNESSSES

**ABTECH AB10**

Single Point Harness with rear 'D'  
Attachment Point

EN361

**ABTECH ABRES**

Three Point Rescue Harness with Rear &  
Thora 'D' and Overhead 'D' Attachment

EN361, EN1497

**RIDGEGEAR RGH2**

Rear 'D' and a Chest Mounted  
Font 'D' Harness

EN 361

**RIDGEGEAR RGH5**

Confined Space harness 3 Point 'D'  
Attachments

EN 361 EN1497

# SAFETY HARNESSSES

## MSA Workman

Single Point Harness with Rear 'D'  
Attachment Point

EN 361, EN 1497

## Personal Rescue Device - significantly reduces rescue time

The MSA Latchways PRD is a lightweight, unobtrusive personal rescue device that is an integrated full body harness system for self-rescue. In the event of a fall the device lowers the person gently to the ground in a controlled descent.

- 65ft (20m) length
- Significantly reduces rescue time
- Self-activated
- Available model for Arc-Flash

EN361, EN341

# TRIPODS & FALL ARRESTERS

## ABTECH SAFETY

**AB15RT**  
15m Fall Arrest with  
Recovery

**TO3**  
Two Person Tripod

**RT3**  
Two Person Rescue Tripod

**60005**  
Tuff 30m Man Riding Winch

# TRIPODS & FALL ARRESTERS

**RIDGEGEAR**

RGR1  
Rescue Tripod

RGR7 Rescue Winch 50m

RGA4  
15m Fall Arrest with Recovery

# Thermal Imaging Cameras

## Scott X380

There are 4 models to choose from

- Extremely lightweight
- Robust
- Hot spot tracker
- High-resolution display
- 384 x 288 3.5" LCD

## Drager UCF1600

- 2 X Zoom
- Six different colour pallets
- High lightweight
- Ergonomically balanced
- Compliant with IP67
- Weight 1.3kg

# Drager Tubes

Since as early as 1937 Drager have been world leaders in the field of gas detection and monitoring and the Drager Tubes technology along with the Drager Acuro Pump offer the highest levels of accuracy. (an average of +/- 10% standard deviation)

These tubes are highly respected in the industry because they deliver such accurate results, largely due to the wider diameter and graduation marks, which are perfectly spaced. Also the reagents used in their design always give well-defined results every time.

More than 500 different gases can be detected across a range of over 200 dedicated tubes. This high degree of accuracy allows them to be used in a wide range of industrial settings where ambient air has to be regularly tested and monitored for the presence of hazardous chemical and VOCs.

Drager tubes are respected and used worldwide by professionals who demand the highest standards of accuracy and reliability. The design of these tubes enable specific gases to be detected even in a complex ambient background atmosphere.

# Chemical Suits

## Respirex Tychem GT Gas Tight Suit

Respirex Type 1A–ET Limited Life Gas Tight Suit. It has been purpose designed to protect emergency response team members from toxic and corrosive materials, either in liquid, gas or solids form.

- Non misting multi laminated visor
- Bat wing sleeves
- Adjustable internal support belt
- Chemical protective laminated inner gloves
- EN464 Leak Tightness
- 10 Year shelf life and 5 year maintenance free

## Dräger WorkMaster Gas Tight Suit

The Dräger WorkMaster Industry is a Gas Tight Chemical Protection Suit that is reusable that has a compressed air respirator that is externally worn.

- Built-in gas tight mask
- Externally worn respiratory system
- Lightweight material
- High level of abrasion resistance
- Generally durable and reliable
- EN9431:200 Type 1B

## Here is a list of our hire equipment we have for short or long term hire

### **Full Safety Kit**

(Escape Set, Tripod, FA Winch, Gas Detector, Safety Harness, Lifeline & Torch)  
Man Rider Winch Kit  
(Man Riding Winch, Tripod, Inertia Reel & Rescue Harness)  
Fall Arrest Rescue Kit  
(Fall Arrest Retrieval Winch, Tripod & Harness)  
Tripod Kit (Fall Arrest Retrieval Winch & Tripod)  
Escape Kit (10/15minute Escape Set)  
Gas Monitor (standard 4 Gas)

### **Gas Detection**

Standard 4 Gas (O2, H2S, CO, FLAM)  
PID (Voc's) 5 Gas (PID, O2, H2S, CO, FLAM)  
CO2 5 Gas (Co2, O2, H2S, CO, FLAM)  
MiniRae PID (Voc's) Pumped  
Chlorine (CL2) Monitor  
Ozone (O3) Monitor  
Ammonia (NH3) Monitor

### **Fall Arrest/Working at Height**

Fall Arrest Tripod  
Fall Arrest Retrieval/Rescue Winch  
Fall Arrest Inertia Reel  
Man Riding Winch  
Safety Rescue Harness  
Safety Lanyard (Fall Arrest or Fixed)  
Life Line (10/15mtr)

### **Breathing Apparatus/Escape Sets**

Full BA Set (inc Mask, Cylinder, Back plate)  
Escape Set Hooded 10/15min  
Escape Set Mask 10min  
Airline Trolley (2man inc bandolier, mask, 2 cylinders)  
Airline Trailer (4man 37 hours continuous air)

### **Atex Approved Equipment**

Intrinsically Safe Right Angle Torch  
Intrinsically Safe Cap Lamp  
Intrinsically Safe 2way

# Service of Safety Equipment

Here at Resmar, we pride ourselves on the quality of our safety equipment servicing we want you to be covered against equipment breakdown, failure, etc. We want to be there for you every step of the way whenever this happens. When you purchase safety equipment from us, we are always there to assist when needed.

Our service and maintenance staff are there for you 24/7 and, thanks to the superb quality of materials, design and manufacturing ultimately, you will not need us too often!

But, when you do, we have extensive experience that allow servicing and maintenance to be performed quickly and easily.

You will be glad you choose Resmar for your safety equipment needs and you will notice how much further your safety budget is going as a result of our advanced services.

Our services range from extensive training on virtually all of our safety products through routine cleaning and maintenance, refills, all the way to organizing complete plant shutdowns in extreme emergencies. We stock all the ancillary and test equipment you could need to keep your safety equipment in great shape at all times.

Our safety and service consultants are available to assist you in setting up and maintaining all your safety equipment as well as testing, data recording and management systems.

We offer comprehensive service packages for all of our gas monitoring equipment to ensure you can expect 100% functionality and reliability from your gas detection equipment at all times.

This includes full function analysis, sensor calibration, data log checking and battery charging systems testing.

We know you need all of your respiratory equipment fully reliable and working at all times and to this end we offer a full testing and calibration service as well as a repair and exchange service to keep you up and running at all times. If a unit you have is in need of repair, we offer a collection and replacement service to keep you covered so you will always be covered.

For further information, please contact our service centre.

We will also be happy to tell you about our new rental program, so there won't be any worrisome delays or downtime while you are waiting for your equipment to be repaired or serviced! Call today for full details.

# Terms and Condition's

## Definitions

- The term "Company" refers to Resmar Limited, the term "Customer" refers to the person, organisation or company who has accepted a Company quotation and all products and or services which are supplied by the Company to the Customer shall be known as "Goods"

## Formation of Contract

No order shall become binding upon the Company until the Company has expressly acknowledged it in writing or an invoice has been issued by the Company.

- These conditions are the only conditions upon which the Company is willing to conduct business and the Company hereby rejects and excludes all terms whatsoever preferred orally or in writing by the Customer. Any terms and conditions other than those contained in or implied by law into these conditions shall be ineffective unless specifically agreed to in writing by a Director of the Company. No other employee of the Company has any authority to contract on behalf of the Company any terms and conditions other than those contained in this document.
- The Company has drawn up these Terms and Conditions of Sale in the light of the Unfair Contract Terms Act 1977 as amended and believes them to be fair and reasonable. Prices, warranties and other terms are based on contracts made on these conditions. If the Customer considers any term to be unreasonable they must inform the Company in writing before any contract is made.

## Quotations and Prices

- Quotations are valid for a period of 30 days, unless otherwise stated.
- The price quoted is for the stipulated Goods only and must not be taken to apply to any order for different Goods.
- The Company reserves the right to amend prices. The price charged will be the price current at the date of despatch.

## Despatch and Delivery

- Any times for delivery stated in the quotation and / or confirmation of order are estimates only. In the event of the Company for any reason not being ready to make delivery within time specified, the Company shall not be liable for any loss or damage whatsoever sustained by the Customer or any other party.
- Goods dispatched are subject to a carriage charge which will be added to the invoice.
- Excess delivery charges resulting from methods of despatch nominated by the Customer will be charged to the Customer.

## Payment

- When not otherwise stated payment shall be Nett Cash 30 days from the date of invoice, and shall be in Pounds Sterling.
- When not otherwise stated, interest of 3% will be charged over Bank Base Rate as quoted by HBOS ruling at the time the account exceeds the payment terms stated on the invoice.
- The products shall, unless otherwise agreed remain the property of Resmar Ltd until the debts or future debts owing to Resmar Ltd have been paid in full.
- The Customer agrees not to sell, assign, sublet or otherwise part with the possession of the Goods until property in them has passed to the Customer.

## Return of Goods

- In all circumstances the Company reserves the right to refuse the return of Goods which were originally shipped to any Customer against a sales order.
- Any Goods that were originally shipped against a sales order contract will incur a 20% handling charge to the Customer if the reason for return is deemed to be outside the control of the Company. The charge incurred will be 20% of the original value for the Goods returned. Under all circumstances a minimum charge of £40.00 will be imposed.

## Warranties and Liabilities

- Any technical information or advice given, whether written or verbal, is to the best of the Company's knowledge true and accurate but such information or advice is not underwritten or guaranteed and is offered without warranty.
- The Company does not warranty in any way the suitability of Goods for the purpose to which they are put.
- The Company warrants to replace or repair any part of the Company's manufacture, which is proved to have been defective at the time of delivery in material or workmanship, provided such part is returned within 12 months from the date of delivery.
- In the case of any part not manufactured by the Company but supplied by them or incorporated in the Company's Goods, in place of the warranty the Company will pass on to the Customer any benefit received by them under any guarantee or warranty from the makers.
- The Company will not be liable in contract or in tort or otherwise for any loss, injury or damage either direct or indirect or consequential sustained by reason of any defect in any Goods supplied or services performed by the Company or anything done or omitted by reason of the negligence of any person or otherwise.

To see Full Terms and Condition's please see website [www.resmar-safety.co.uk](http://www.resmar-safety.co.uk) or contact or Head office
