In attendance:

#### **1. Apologies for Absence**

#### **2. Declarations of interest**

#### **3. Minutes of the previous meeting – 28<sup>th</sup> June 2022**

**RESOLVED:** That the minutes of the meeting held on 28<sup>th</sup> June 2022 having been circulated, be approved, and signed as a correct record.

#### **4. Ringwood Winter Wanderland**

Winter Wanderland Planning Proposal submitted to the committee (*see Annex A*).

Before the Event Manager went through the document, Cllr Frederick pointed out that she felt we should be working together with Ringwood Business Association to make sure the Christmas event is as successful as possible. It was agreed that they would be added to the list of consultees when talking with community organisations and groups.

It was also agreed that the biggest impact is made when having one to one discussion with the local shop and business owners, which will also be actioned.

When going through the events planning document the following items were discussed:

**Overall Programme timings** – Following feedback the Event Manager proposed to move the light switch on forward by half an hour from 18:00 to 17:30. A discussion took place, and a few concerns were highlighted, including if there was enough time for families to visit the grotto, as one of the main attractions at the event and a shorter lead time for the market to operate.

The Event Sub-Committee recommended not to change timings this year and to monitor how a possible change next year could affect the stall holders and families attending the event.

**Grotto and Parade** – Discussions took place on how to sell tickets for the grotto including pros and cons for selling tickets in advance and in time slots. Main points that came out of the discussion were concerns that if tickets were sold in advance, they may sell out too quickly, additional work for the Gateway staff when selling the

tickets at the office and how to manage the time slots on the day. It was pointed out that if tickets were only sold on the day, would this cause another queuing problem?

The event sub-committee agreed that a time slot system on ticket sales would allow the grotto to run more smoothly and stated that a clear instruction would be given when purchasing the ticket, that customers must stick to their allotted time slot. Further discussion was needed to confirm if the tickets would be sold in advance or on the day.

Cllr Frederick raised the point of the possibility of needed two Santa's on shift during the event as the length of time required in the grotto and on the parade is long with no breaks.

The Event Sub-Committee agreed to increase the price of Santa's Grotto admission ticket to £4 from £3 per person.

It was also agreed that a member of the committee would speak to Café Velo in advance with regards to the volume of their festive music at the event, which made it difficult for Santa to hear the children.

Discussions took place regarding the daytime and evening parade. Cllr Day confirmed the horses would not be part of the parade in the evening and more than likely not available in the day as well. The Event Manager stated that they were looking at having the Roundtable vehicle with music and lights and the Chitty Chitty Bang Bang vehicle, which she thought would provide enough animation.

**Reindeer** – The Event Sub-Committee agreed to having the Reindeer on site at the event for 2022 but said location of the Reindeer would need to be considered as at the 2021 event the location was too tight and caused issues with movement of people.

**Stage** – The Event Manager asked the committee to offer suggestions for acts on the stage. A suggestion was to approach the community choir who attended the Jubilee Beacon event. The Event Committee supported re-booking the Michael Bubl  Tribute act used in 2021 as the headline act again this year.

**Road Closure** – The Event Sub-Committee agreed to the recommendations in the report and stated that further discussion was needed to iron out the details of road closures and communications with the public and local businesses affected by this.

**Southampton Road Activity** – Consideration will be made as to extending some activity into Southampton Road, during the event.

It was agreed that on the day of the event, each committee member would take a lead on a particular zone to ensure the smooth running of the event.

The budget for street entertainment was agreed by the sub-committee. The Event Manager confirmed that the Ringwood & Burley Band had been booked and she was liaising with local schools to look at performing at the event. Noted that when liaising with these groups we must make sure we ask them to specify any requirements for on the day, in advance so the event can run smoothly.

With regards to non-event activities, it was agreed to keep the window competition to the same format as last year and do a small print run of route maps for people to pick up at the Gateway.

It was agreed to not run the "Spot the Oddity" competition for 2022 as take up in 2021 was low.

It was agreed to commission an article in the local paper to promote Ringwood in December. There was also discussion about linking this with the message that the A31 roadworks would be finished by then with a completion date in November expected.

|----------|---|
| ACTIONS: | <ol style="list-style-type: none"> <li>1. The Event Manager to look further into selling grotto tickets in advance and report back to the group.</li> <li>2. Committee member to engage with a Men's Shed representative to see if they are happy to construct the Grotto this year.</li> <li>3. The Event Manager to talk to Lara and Charlie at The Furlong Centre regarding the possibility of having the Reindeer there. Also look at exploring the church yard as another possible location.</li> <li>4. The Event Manager to look at options for acts on the stage and book the professional acts.</li> <li>5. The Event Manager to submit Road Closure Application as early as possible for the event, ideally early September.</li> <li>6. The Event Manger to circulate the event plan with the sub-committee via email before the Road Closure Application goes in, and ready for approval at September's event sub-committee meeting.</li> <li>7. The Event Manger to speak to the fairground supplier to work out a stacking system in the car park to enable the rides and stalls to be positioned on site smoothly.</li> <li>8. Cllr Frederick and Cllr Ring to look at activity/attraction options for the Southampton Road area.</li> <li>9. Cllr Frederick to speak to the film maker used last year to discuss a film for 2022 to incorporate more about the destination as a whole in December and not just focus on the one-day event.</li> <li>10. Cllr Frederick to liaise with the Ringwood Business Association with regards to running an event in December to add to the Winter Wanderland offering.</li> </ol> |
|----------|---|

## **5. Event Sponsorship**

Sponsorship Package document submitted to the committee (**see Annex B**).

The sponsorship framework submitted by the Event Manger was discussed. Cllr Day questioned if we should be putting a cap on sponsorship as in the past businesses have paid a lot more than the proposed prices.

The sub-committee agreed to look at different options to move away from putting up banners around the town promoting event sponsors businesses in the lead up to the event.

Cllr Frederick commented that she would like to look at approaching the larger companies in Ringwood to see if they would contribute with sponsorship. She asked if the report and discussion could be put on hold so she could look at the approach for this in more detail.

### Small Tools Budget

#### 1. Introduction and reason for report

- 1.1 Exceptional unplanned expenditure has been incurred to replace stolen tools as a result of which officers need members to review the budget for the purchase of small tools.

#### 2. Background information and options

- 2.1 On 28<sup>th</sup> July a long-reach hedge-trimmer and a leaf blower were stolen from a Council vehicle whilst it was parked in the car park at Poulner Infant School. The vehicle in question had no lockable compartment. The equipment was placed out of sight and only left unattended for about ten minutes.
- 2.2 The loss was notified to the Council's insurer but, after due consideration, it has declined to meet the claim, referring to the condition in the policy requiring that 'reasonable care' be taken to prevent such losses.
- 2.3 A long-reach hedge trimmer is needed urgently at this time of year to fulfil the Council's maintenance contract with the School and many other tasks. (Leaf blowers are less essential.) Research revealed that a battery-powered option would be only slightly more expensive but could not be supplied for several months. With considerable reluctance, officers concluded that there was no alternative to the immediate purchase of a replacement petrol-powered hedge trimmer at a cost of about £600. This has completely exhausted the budget for small tools purchase for the year. It is clearly foreseeable, though, that further purchases will be necessary.
- 2.4 Consideration was given to the possibility of disciplinary action against the members of staff involved. After due consideration, however, managers judged that the more appropriate response was to issue a formal managerial advisory about security of equipment including a warning that failure to heed this in future would result in disciplinary action.
- 2.5 Members are respectfully invited to recommend an increase in this budget of £600. This committee's recommendation would need to be considered by the Policy & Finance Committee.

#### 3. Issues for decision and any recommendations

##### **Issue for decision:**

- 3.1 Whether to recommend an increase of £600 in the budget for Small Tools Purchases this financial year as requested and recommended by officers?**

## RECREATION, LEISURE & OPEN SPACES COMMITTEE

### Cemetery Development

#### 1. Introduction and reason for report

- 1.1 This project needs further discussion and decisions pursuant to the decisions made in 2021 about the columbarium wall concept (7<sup>th</sup> July 2021, minute ref. OS/6088) and project financial modelling (6<sup>th</sup> October 2021, minute ref. OS/6103).

#### 2. Background information and options

- 2.1 In consultation with officers, CDS Group has produced the drawing attached (as Annexe A) of a design for a wall-type structure, two of which would be built back-to-back in the location shown in Figure 1 below. This design would provide a total of 90 cineraries (or 'niches'). This is many fewer than the number on which previous calculations had been based but produces a more pleasing appearance to the structure than one which fills the available space with cineraries and virtually nothing else.
- 2.2 The length of the wall is rather constrained by the need to avoid damage to the roots of a large lime tree growing by the existing wall. In time, however, it would still be possible to extend the wall or build a similar structure nearby.
- 2.3 The full construction cost of this design has now been estimated at £28,800-30,600 (equivalent to £340-360 per 'niche'). A sum of £25,000 has previously been set aside in an earmarked reserve for this project. Decisions are now needed in principle on how the balance of the construction cost should be met (or whether, in light of altered circumstances, it might be better to fund the entire cost in other ways and release the funds in earmarked reserve back into general funds). This committee's recommendation would then need to be considered by the Policy & Finance Committee.
- 2.4 Subject to the decisions about design and funding, officers would next:
- plan a process and timetable for discussions with planning officers, procurement of the construction contract and the build process; and
  - prepare options for a charging structure for further consideration by members (with the default being whatever would come closest to sustaining current income as previously indicated by members).

#### 3. Issues for decision and any recommendations

##### Issues for decision:

- 3.1 Should the refined design concept form the basis of further project planning (and, if not, what changes do members wish to be made to it)? and**
- 3.2 What recommendation does the Committee wish to make regarding the funding of the anticipated construction cost?**
