REVISED 11/2/2016

BEE RAW HONEY

United States

SENSORY PROFILE

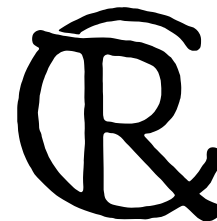

These wonderful honey varieties are each made from a single flower species. Bee Raw has been working with eight individual beekeepers from eight different states since 1999.

Bee Raw is completely pure, unfiltered and unprocessed. Each variety has a unique aroma because it is harvested from the nectar of a single floral source.

TRADITION

Growing up on his family's farm in Northwestern Pennsylvania, Zeke Freeman gained an appreciation for homegrown fruits and vegetables and the rich heritage of artisanal food production.

Zeke actively promotes the importance of American family-owned apiaries and works to educate the public about beekeeping and its vital role in agriculture. Zeke is committed to supporting American artisanal beekeepers by ensuring that they receive a premium price for a premium product.
