

PerfectSeal™ Electric Embossers

MOTORIZED

Standard Duty

Designed to convert common hand held seals to a touch-of-a-button electric operation.

MOTORIZED

Standard Duty Electric Embosser

Simply remove the die holder from your hand seal and install it in the PerfectSeal™ MOTORIZED electric unit for the easiest and safest seal impressions. No chance of hand stress injuries, no more struggle or strain guaranteed!

Auto Reverse SMART Activation

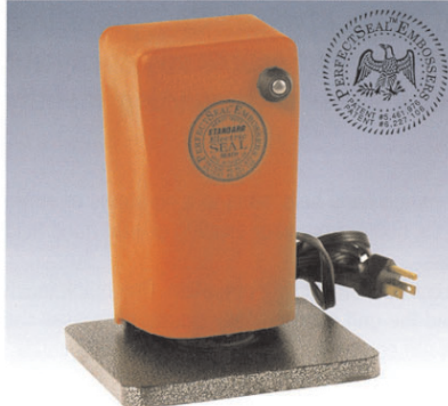

One quick touch of the switch, and the optional SMART system will automatically make the seal impression and reopen the unit for paper removal. Completely controls embossing pressure, makes impressions 30% faster and extends warranty.

- Unlimited number of different seals can be used
- Quick change for fast and easy-seal installation
- Tested to 20,000 use as directed impressions
- Removes any change of hand stress injury
- Designed for one sheet of 20#-24# paper
- One year / 20k warranty with SMART activation
- Unique design - Patent #6,227,106

Requires 110-120VAC • Size: 4" x 4.5" x 8" • Wgt: 9 pounds

STANDARD

Heavy Duty

Warranty: Two years or 200,000 impressions with life expectancy close to a million cycles!

STANDARD REACH

Heavy Duty Electric Embosser

The warranty alone puts PerfectSeal™ heavy duty units in a class by themselves! Patented direct drive with only two moving internal parts, comes standard with extra durable brass die and my exclusive "ALLOY COUNTER" for the longest lasting impressions available!

Foot Pedal Activation

Optional foot pedal activation leaves both hands free to handle large volumes of paper.

- Available with forensic impression identity
- Patented "Direct Drive" Patent #5,461,976
- Warranty: Two year up to 200k impressions
- Life expectancy close to a million cycles
- Removes any chance of hand stress injury
- Impression depth approx. 2-1/2" (1-1/2" oc)
- ALLOY counter foils staple/paper clip damage
- Lightening fast seal application
- Multiple sheet or thick paper design available

Requires 110-120VAC • Size: 6" x 6.5" x 8" • Wgt: 13 pounds

LONG REACH

Heavy Duty

Warranty: Two years or 200,000 impressions with life expectancy close to a million cycles!

LONG REACH

Heavy Duty Electric Embosser

PerfectSeal™ LONG REACH heavy duty can leave an impression almost 5 inches from papers edge (4" oc). Like the STANDARD reach, it has the same patented direct drive with only two moving internal parts, comes standard with extra durable brass die and my exclusive "ALLOY COUNTER".

Foot Pedal Activation

Optional foot pedal activation leaves both hands free to handle large volumes of paper.

- Available with forensic impression identity
- Impression depth almost 5" from edge (4" oc)
- Patented "Direct Drive" Patent #5,461,976
- Warranty: Two year up to 200k impressions
- Life expectancy close to a million cycles
- Removes any chance of hand stress injury
- ALLOY counter foils staple/paper clip damage
- Lightening fast seal application
- Multiple sheet or thick paper design available

Requires 110-120VAC • Size: 6" x 6.5" x 8" • Wgt: 22 pounds

Other options available for the Heavy Duty Models:

- Foot Pedal Operation
- Emboss Pressure Control
- Paper Activation
- Paper Guide Plate (Adjustable)
