

# Outdoor Speakers

Architectural speakers for bold, built-in sound.

# SONOS

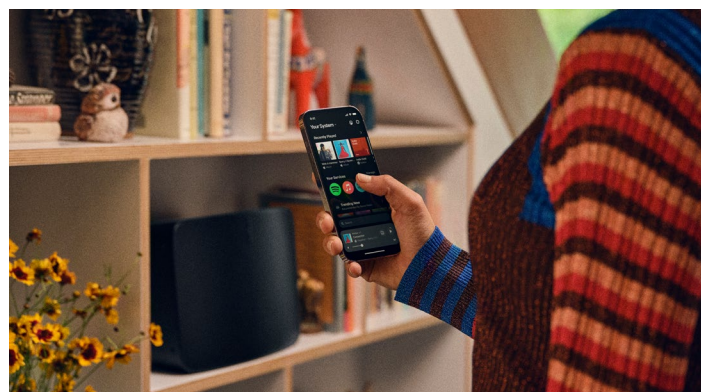

## Create a custom whole-home system with high-fidelity sound and low-key aesthetics

Sonos architectural speakers bring premium sound to every part of your home, indoors and outside. Designed and tuned in collaboration with Sonance, these speakers offer powerful sound with discreet installation. Combine Sonos in-ceiling, in-wall, and surface mount speakers with smart home systems for the ultimate in whole-home sound with wireless control.

## Sonos Amp: Power meets performance

Power Sonos architectural speakers and maximize your system's potential with Sonos' dedicated WiFi-enabled amplifier. Amp provides custom tunings and overdrive protection. Amp powers up to three pairs of Sonos passive speakers.

## Sonos app: Curation and control

Pairing your Outdoor Speakers with Sonos Amp also gives you access to the Sonos app, which brings all your content and controls together in one place. Play music and manage your Sonos system from any room; control everything with voice commands using Sonos Voice Control and Amazon Alexa.

## Built for any environment

Sonos outdoor speakers are perfect for installation indoors and outside. Rated to IP66 and Mil Spec 810, they are engineered for humidity, water, salt spray, heat, UV rays, and freezing temperatures, giving you years of use.

### Outdoor Speaker

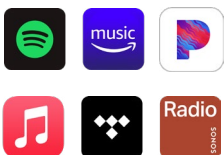

These surface-mount speakers withstand water, UV rays, and extreme temperatures. Inside, a 1" tweeter and 6.5" woofer for expansive sound. FastMount brackets allow installation on brick or stone surfaces.
