

Associate in Fine Arts in Visual Arts

Arts & Sciences

FOLLOW US

ABOUT THIS FIELD

The Associate in Fine Arts in Visual Arts curriculum helps students strengthen and expand their creativity as well as their technical knowledge of the history and practice of creating art and design. The 60 credit degree program prepares students to move towards professional practice or the pursuit of a bachelor's degree at a four-year college or university in visual arts, graphic design, and interior design.

WHAT YOU'LL STUDY

Physical skills such as painting murals, signs, and interiors/exterior of buildings, framing artwork, photography, welding, carpentry, fine woodworking, blacksmithing, pottery, tilework, mold making, casting, metalsmithing, and drafting are skills all fine art students learn.

WHAT YOU CAN DO

Graduates find employment locally and nationally as painters, sculptors, illustrators, photographers, fine artists and graphic designers. You could design sets for movies, TV shows and theme parks – or produce animations and special effects - while working for graphic design studios, advertising agencies, printing companies or a wide variety of manufacturing industries.
