About Spadeoak

A recognised name in the asphalt surfacing industry, Spadeoak is **the premier surfacing, civils and sports pitch contractor**. Experts in our field we provide service solutions to the UK's leading companies.

Established in 1976, Spadeoak has a hard-earned reputation for quality workmanship with expertise throughout our business and provide an excellent customer service. Spadeoak are considered the premier contractor by our clients because they trust us to deliver quality and to safeguard the reputation of their business.

We pride ourselves on the versatility of our services. This is developed and enhanced through the ongoing investment in industry specialist plant and equipment, along with the continual learning and development of our workforce.

With over 45 years of experience Spadeoak has worked on some of the UK's most prestigious projects including

- Sports stadia
- Olympic venues
- Industrial & Commercial
- Retail parks
- Entertainment & exhibition venues
- Sports training facilities
- Educational premises
- Theme parks
- Royal Households
- Buckingham Palace

Spadeoak are also trusted upon by contractors of all sizes to undertake a range of works from **£10,000 to £5,000,000**.

The Spadeoak experts

At Spadeoak we value our employees as our most prized resources; it is their excellence in all areas of the business from our office teams to our on-the-ground skilled workers that puts us ahead of the competition. Where Spadeoak differs to other contractors is the majority of each project is carried out by our own directly employed resource; we have over 120 permanent employees and an extensive fleet of specialist plant and machinery.

With experienced staff comes knowledge. Backed by our strong supply chain and relationships with material suppliers we strive to deliver the latest innovations and products to offer cost-effective and sustainable surfacing and civil engineering solutions. Everything we do is informed by years of experience and our knowledge of proven solutions and technologies.

Our quality and safety

Spadeoak is proud to have received an Investors in People award and continues to be recognised by the industry for our commitment to training and the development of our people.

With the very best accreditations available, we take our health and safety obligations very seriously. We never take shortcuts to reduce costs. We have a dedicated in-house health and safety manager, keeping us up to date by implementing safe working practices. Spadeoak has qualified and trained people, using the latest equipment in the right way, backed by unmatched insurances and financial stability.

Our Values

Health & Safety

Above all, this is our overarching value. We always conduct our business in a way that creates a healthy and stable environment for all stakeholders, built on a true safety culture.

People

We aspire to be an employer of choice, which we do by providing an exciting and purposeful place for our people.

Integrity

In all areas of our business, including internal and external interactions, we always act with integrity.

From repair, maintain, upgrade or construct Spadeoak has you covered

Spadeoaks' specialist civils division has rapidly gained a reputation in the industry for delivering quality solutions utilising the latest innovations and sustainable materials. With over 45 years of experience gained on some of the UK's most complex building projects, we are ideally suited to give you the benefit of our knowledge and design input.

Our highly experienced employees are able to deliver a wide range of services to suit any project. Principally, we specialise in the construction of roads, car parks and other hard standing areas including any ancillary construction.

As a trusted provider to our clients, Spadeoak delivers these services on small local contracts as well as the highest-profile events on schemes up to £5m, many of which are for long-standing customers including the leading distribution organisations, royal palaces, NHS Trusts, and Premiership football clubs.

Expert advice

Our experience, knowledge and strong relationships with our material suppliers enables us to offer an expert opinion on the best design solutions.

Promoting the best outcome for your project tailored to your budget, ensuring you are in the best position to make the right informed decision for your project.

All the services you would expect of a first-class civil engineering service provider

Civil engineering is a term that can cover all manner of projects. At Spadeoak our work often focuses on the requirements of our clients and their needs for the environment around their warehouse or industrial property, commercial facility, retail park, business park, school, college or university or hospital.

Spadeoak civils capabilities include:

- Site preparation
- Groundworks
- Foundations
- Drainage systems
- Concrete works
- Hard landscaping
- Fencing
- Surfacing - Asphalt, Resin + Other materials
- Line Marking
- Lighting
- External seating and street furniture
- + Other associated packages

PROJECT CASE STUDY WEYBRIDGE ESTATE RESIN DRIVEWAY

Spadeoak were approached by a private client to resurface their driveway. The existing driveway was an old asphalt tar and chip surface, defected with loose chippings and the potential to cause damage Spadeoak recommended a new resin solution. Our client wanted to maintain the natural stone look of the existing driveway our solution was to lay a new open-graded asphalt, ready for a new Resin Bound surface. Upon the newly laid asphalt we installed a 6mm 'Barley Butter' Resin Bound Gravel. The final outcome was stunning and our client was over the moon with the delivery and quality finish.

CIVILS

With commitment, diligence and dedication Spadeoak continually deliver world-class facilities to enable sport to be played and enjoyed throughout the UK.

Spadeoak has constructed many of the nation's most prestigious sporting projects which include numerous works at the 2012 London Olympic Park and Athletes Village; Glasgow 2014 Commonwealth Games, National Sports Centres, leading universities, private schools, MoD sites and top sporting clubs across all categories.

At Spadeoak we offer the full range of sports pitch installation, from athletic tracks and tennis courts to hockey pitches and Multi-Use Games Areas (MUGA's) including Type 1 and Type 2 macadam, Type 3 and Type 4 polymeric as well as Type 5 synthetic turf.

Our experienced sports team offer a full in-house design and build service using the latest technology to provide the best surface solution for our clients.

From inception to completion we install the full build package including earthworks and drainage, sub-bases and macadam, shockpad and final surface finish as well as fencing and floodlighting.

A key area where we differ from most sports contractors is that the majority of each project is carried out by our own directly employed resources; we have around 120 permanent employees and extensive fleet of plant and machinery.

Spadeoak are proud to be recognised for our quality as a Sport England Framework Contractor

Established by Royal Charter in 1996, Sport England are determined to give everyone in England the chance to benefit from sport and physical activity.

Sport England invest in sport and physical activity to make it a normal part of life for everyone in England, regardless of who you are.

Spadeoak, as a framework contractor, were hand-picked by Sport England to carry out framework projects across a number of sites throughout the UK.

Spadeoak sports capabilities include:

- Athletic tracks
- Cricket nets
- Multi-Use Game Areas (MUGA's)
- Sports pitches
- Tennis courts
- Training facilities
- + Other associated packages

PROJECT CASE STUDY LEEDS TRINITY UNIVERSITY

Leeds Trinity University required an area that gave them the flexibility to offer students a full-size football, 5-a-side football and hockey pitch. Having gained a thorough understanding of the specific requirements and our experience, Spadeoak were able to offer a total design and construction package, installing a polymeric surface, a material ideal for providing a wide variety of sports to be played on. A polymeric surface offers great grip when wet and a high degree of impact absorbency that reduce the risk of injury and increases comfort during play.

SPORTS

Whether you have a single project or take care of multiple sites; whether you need an area refurbishing, repairing or a complete resurface; or you are looking to construct a new roadway, car park, pedestrianised walkway or other service areas, you can trust Spadeoak to deliver your project.

Spadeoak has been an established name in the asphalt surfacing industry for over 45 years, providing quality and sustainable solutions to our clients and continue to be recognised as one of the leading contractors in the UK.

We enjoy excellent business relationships with a long and impressive list of clientele from small local builders to multi-national contractors. Spadeoak has worked across the UK's most prestigious projects including numerous works from sports stadia, commercial developments, entertainment facilities and retail parks, to works for the Royal Household and many exclusive private residences. We are also trusted by contractors of all sizes to undertake a variety of works including airport parking to private driveways and footpaths.

Purchasing circa 300,000 tonnes of asphalt and aggregates each year ensures we are able to offer competitive prices with a focus on quality and sustainability ensuring customer satisfaction.

When looking to instruct any project, clients need confidence that the supplier can not only offer great value for money but can deliver the project safely, efficiently and to the highest quality. It is because of these capabilities and our outstanding track record our clients return to us again and again.

Spadeoak are a specialist surfacing contractor, trusted by our clients for over 45 years.

At Spadeoak we specialise in the construction of roads, car parks and other hard-standing areas including any ancillary construction. Our work focuses on the requirements of our clients and their needs for the environment around their warehouse and industrial property, commercial facilities, retail park, business park, school, college or university or hospital.

Spadeoak surfacing capabilities include:

- Construction
- Roadway surfacing
- Car park surfacing
- Service area surfacing
- Specialist surfacing treatments
- + Other associated packages

PROJECT CASE STUDY LEAVESDEN - CAR PARK CONSTRUCTION

Spadeoak was commissioned to build a new car park for the studios in Leavesden. The existing undeveloped soft landscape area was not utilised. Spadeoak was tasked with developing the 30,000m² area into a car park with kerbing, drainage, lighting and CCTV columns. To improve visitor experience, safety tree pits and pedestrian islands were built within the car park and a new boundary fence was installed before 10km of thermoplastic white lining was applied to the car park to complete the project
