RECOGNITION AND ACHIEVEMENTS

ICONS

We are well known for our wide range of fully certified, tested and competitively priced products, all compliant in line with health, safety and sustainability standards.

Ask for further information about our range of Green Option, Cordless and Safety products.

INTRODUCTION TO SPEEDY EVENTS

EXPERTLY EQUIPPED FOR EVERY STEP

As the UK's leading tools, equipment and plant hire company, we are equipped to support your business, at every stage of the event; from event planning and build, live event support, to post event and project evaluation.

TAKING CARE OF THE EVERYDAY. EVERY DAY.

Speedy Events takes away the hassle of everyday supply chain management, so you can focus on the more important tasks. Think of us as an extra pair of hands, here to help you keep your project on plan, on track and on budget.

HIRE OR BUY

Products can be hired or purchased – choose from our wide range of over 3,000 product lines for hire and 8,000 to purchase. In addition we can supply non-standard items, which we source directly from our network of quality approved partners.

HEALTH & SAFETY

We are committed to keeping our customers and employees healthy and safe. We invest in our Intelligent Safety programme, which is a free online resource dedicated to raising awareness, knowledge and skills across key safety themes:

- > Dust control
- > Hand arm vibration
- > Noise
- > Manual handling
- > Slips, trips and falls
- > Working at height
- > Confined space / ATEX

The impact of work-related illness and workplace injuries on the health of individuals, as well as the cost to business, is immense. Visit speedyservices.com/intelligentsafety for the latest, free health and safety information, videos, toolbox talks, pocket guides, industry news and specific products and service recommendations.

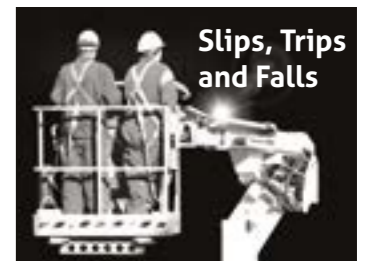

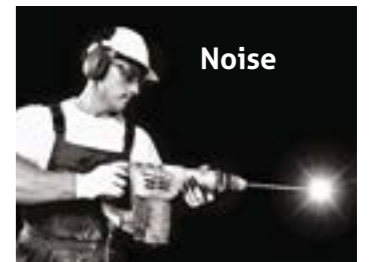

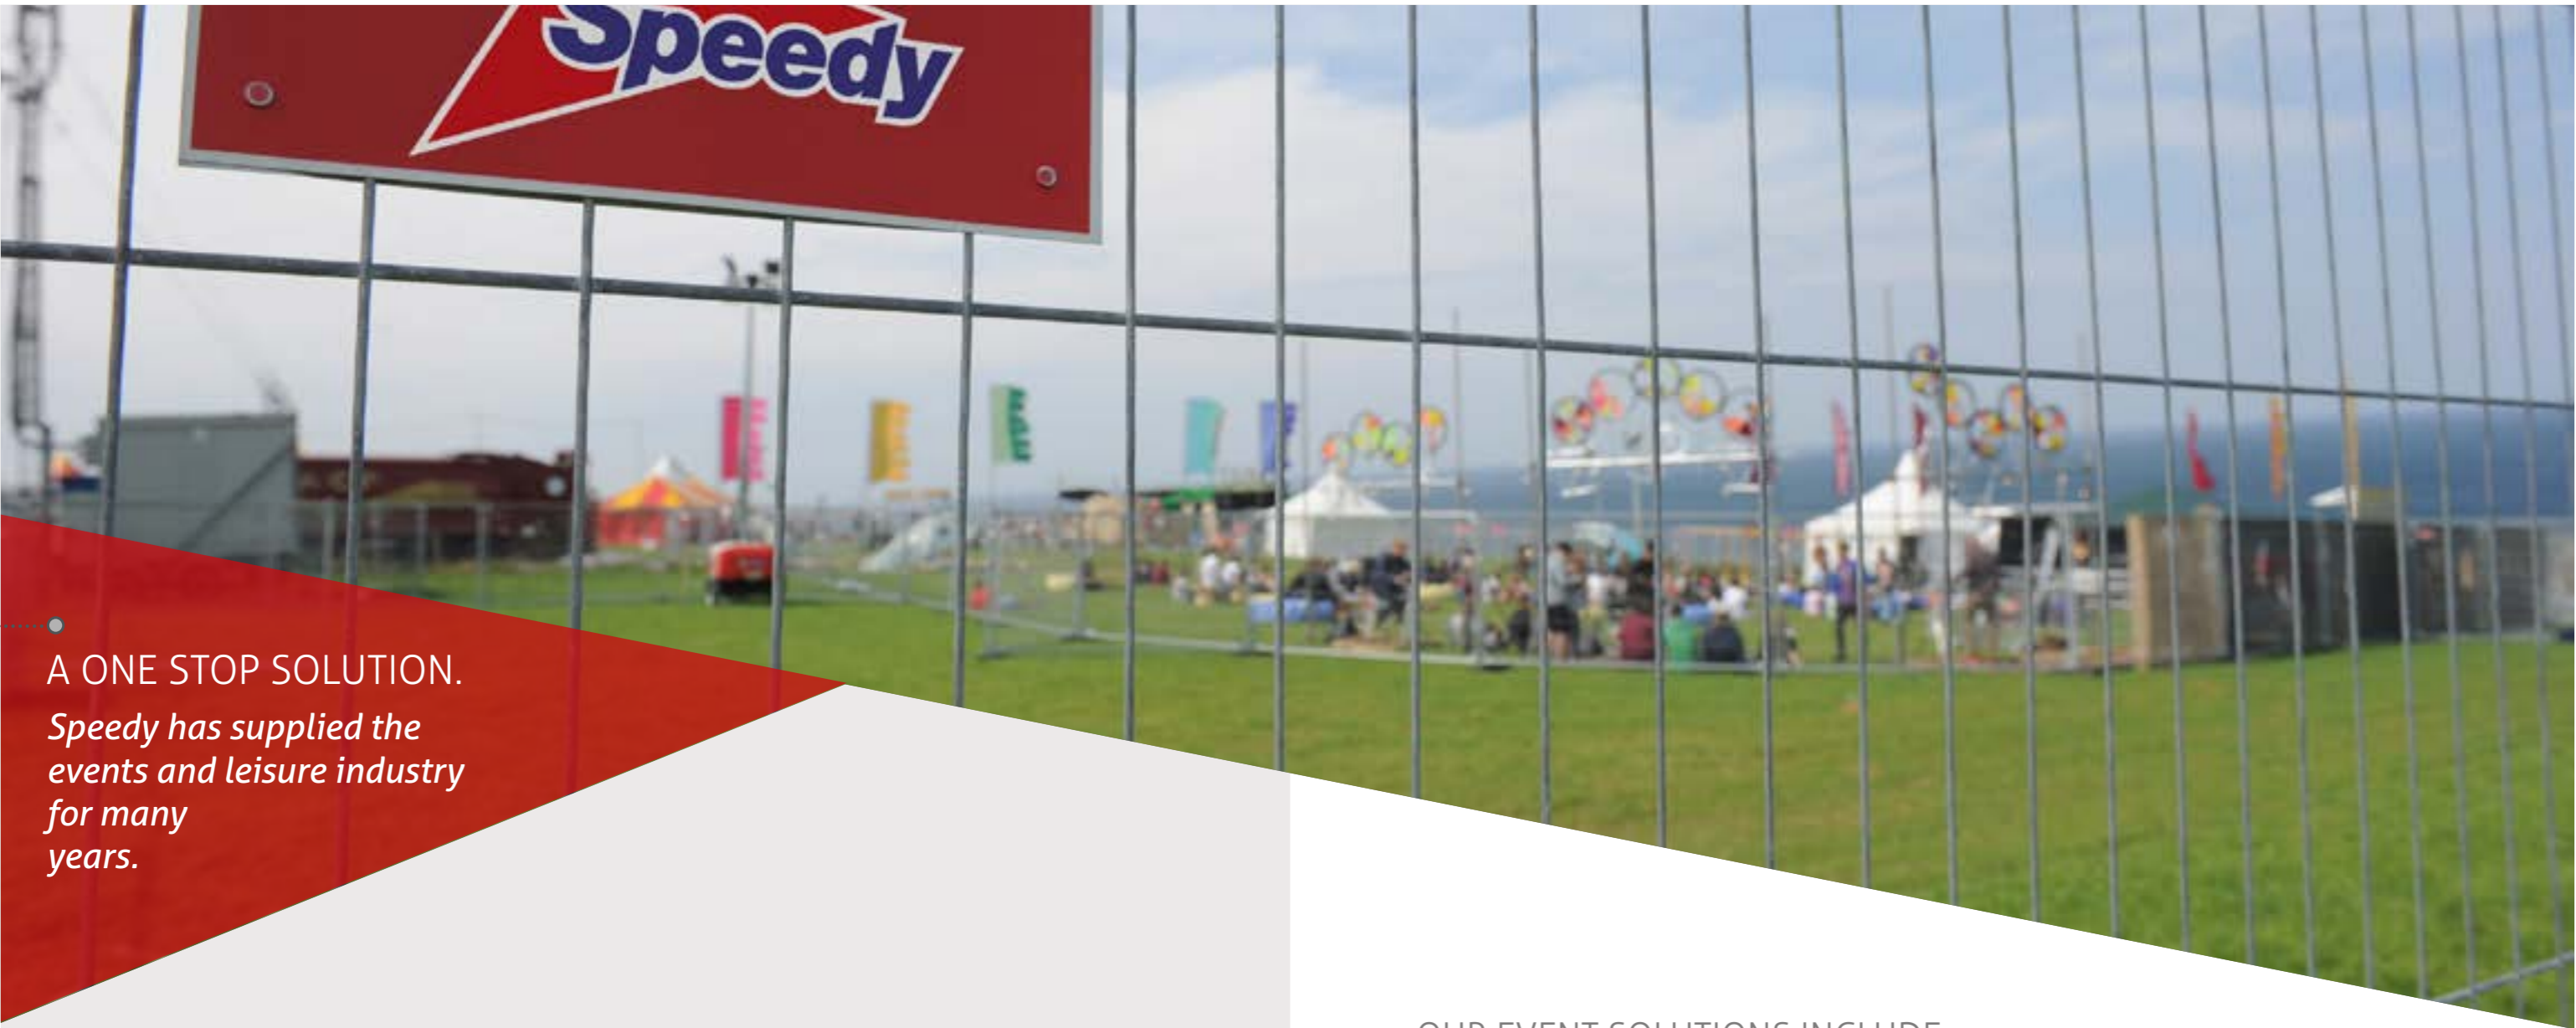

Toolbox Talks

We are committed to keeping our customers and employees healthy and safe. To download the latest toolbox talks free of charge, visit speedyservices.com/intelligentsafety

We currently have toolbox talks covering the following topics:

- > Dust control
- > Hand arm vibration
- > Working at height
- > Slips, trips and falls
- > Manual handling
- > Noise
- > Confined space / ATEX

A ONE STOP SOLUTION.
Speedy has supplied the events and leisure industry for many years.

SPEEDY HAS ALL THE PRODUCTS, SERVICES AND EXPERTISE TO ENSURE YOUR EVENT IS A SUCCESS.

We have extensive experience of working on major national and international sporting events, national news events, outdoor festivals, indoor arenas, TV and film productions and exhibitions.

In 2014, a specialist dedicated support desk was set up, providing one point of contact for all your event requirements.

Working with budgets large or small and to strict deadlines, we deliver an unrivalled service with the attention to detail that the events industry demands.

We also offer a fully project managed installation and recovery service on everything we supply.

POST EVENT

Strip out

Waste management

SPEEDY AT A GLANCE

OVER 40 YEARS OF DELIVERING EXCELLENCE

HIRE FROM OVER 3,600 PRODUCT LINES

* based on published data.

OUR COMMITMENT TO YOU

Our mission is to provide safe, reliable hire equipment and services to enable the successful delivery of customer projects. Our commitment to our customers is always underpinned with health, safety, the environment and community at the forefront of our mind, ensuring that we remain a responsible business.

CONSUMABLES AND EQUIPMENT SALES

- > Purchase any of the products you see in our hire range
- > Over 8,000 core products and 36,000 extended range products
- > Access to a central, managed procurement team to source everything from specialist kit through to bulk purchase of materials

TESTING INSPECTION AND CERTIFICATION

- > Over 200 years' experience in testing, inspection and certification services delivered through Lloyds British
- > We help manage your lifting systems and the complex regulations that surround them, efficiently and safely
- > A wide range of extended services available

INTRODUCING GEASON TRAINING

- > Geason training is now part of the Speedy business and creates our centre of excellence for a range of training solutions
- > Available from 35 locations across the UK
- > Bringing together 15 years of industry-leading experience
- > Delivering a range of safety and skills courses alongside a wide variety of apprenticeships, NVQs and professional skills training
- > Providing customers with an end to end training solution including support on gaining Apprenticeship Levy funding

SITE SET UP

After your power and equipment requirements have been established for each life cycle stage of the event, your dedicated Project Manager will ensure the timely and efficient delivery, installation and set up of all hire items, be it lifting equipment, cabins, electrical cabling, generators or tower lights.

Our specialist event staff are trained to deliver and set up the equipment inventory in a considered and professional manner, remaining orderly and safe at all times. Our utmost aim is to cause little or no disruption to other installation activities and third parties where possible.

The same goes for the strip-out of equipment post-event – we take away your hired equipment as professionally and as timely as we delivered it.

INSTALLATION AND STRIP-OUT

With extensive experience in working on major International Sporting Events, National News Events, Outdoor Festivals and other specialist events with an impressive track record, Speedy provides a full events management service.

We provide an effective management system along with all the specialist products and services requirements, ensure your event is a success and that your site is secure at all times.

Working with budgets large or small, and within strict deadlines, we ensure an unrivalled service with the attention to detail that the events business demands.

We offer a fully project managed installation and recovery service on everything we supply.

Our solutions include:

- > Load-in / load-out of equipment
- > Site design and management
- > Specialist Site Staff and Crew
- > Stock distribution and survey
- > Highway and Site Traffic Management

SITE SURVEY

We can attend your proposed or booked venue site to assist with a site survey to ensure that all pertinent information is gathered regarding timings, number of attendees, traffic provisions, lighting requirements, distances and locations, and that specific areas such as main stages and camp sites will be fully catered for with all facilities.

We will advise on the best equipment and facility supply for all stages and requirements for your event, from crowd control, to cabins for security, right down to how much square footage will be covered by tower lighting for your camp sites and where best to place generators for optimum performance and minimum noise pollution.

LLOYDS BRITISH

Lloyds British is the national leader in providing a full range of engineering testing, inspection and certification services.

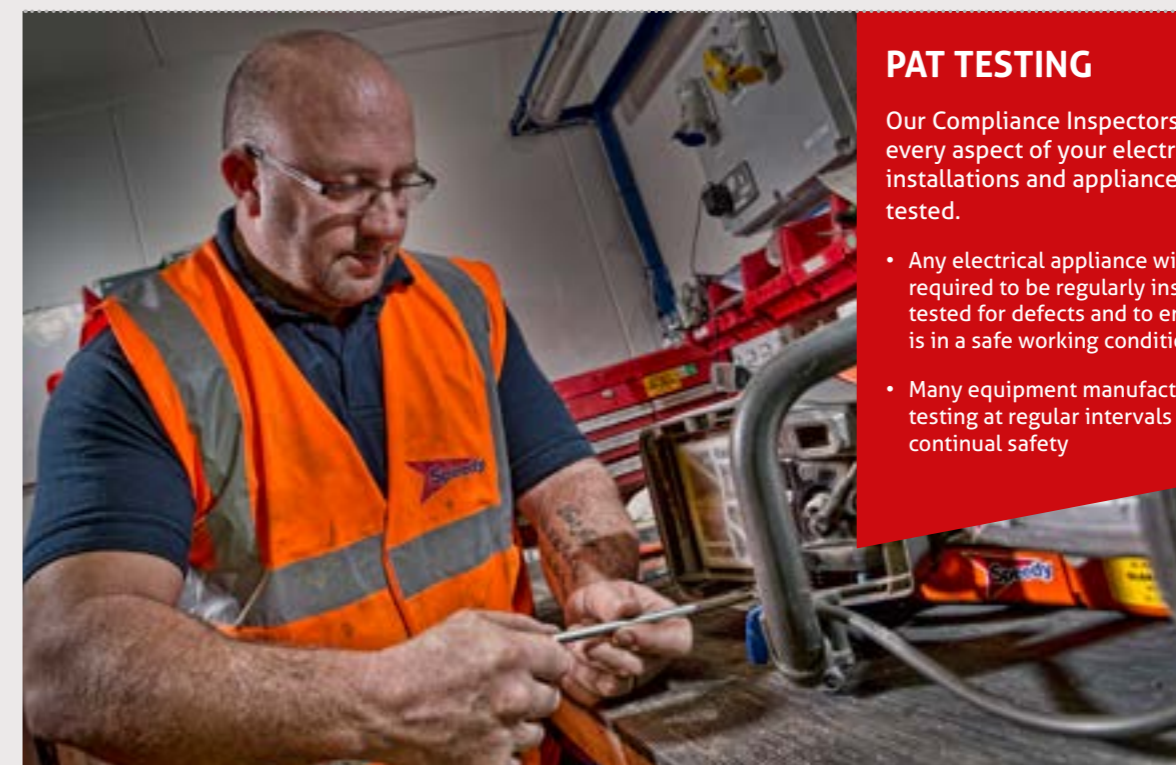

Our highly experienced engineers can certify all types of equipment to the relevant legislation, including:

- Lifting and Work
- Plant
- Access
- Barriers
- Electrical

Lloyds British also leads the market with height safety and fall protection systems.

As an approved distributor and installer of MSA Latchways fall protection systems, we are a leading expert in this field. We provide fall protection and working at height systems which comply with and exceed the relevant British Standards.

PAT TESTING

Our Compliance Inspectors will ensure that every aspect of your electrical systems, installations and appliances are thoroughly tested.

- Any electrical appliance with a plug is required to be regularly inspected and tested for defects and to ensure that it is in a safe working condition
- Many equipment manufacturers recommend testing at regular intervals to ensure continual safety

SUPPLYING THE EQUIPMENT YOU NEED

From generators and lighting, to heating, rigging, Wi-Fi and CCTV, Speedy Events can meet your every product need, with high performance equipment and quality service.

We understand the time-scales and extreme pressure involved in producing a large or small event and if the equipment doesn't turn up or is of low quality, then your event fails.

For any products we don't stock in our fleet, we work with specialist, selected partners who are rigorously audited, to provide you with an extensive range of equipment, all delivered together, as an events equipment package.

The next pages show our most popular product ranges for the events market. For further information on any products you require contact us.

Speedy continuously invest in the latest innovative, safe and sustainable products available in the market and employ specialist staff to install, test and inspect it prior to the event going live.

"Gary and Speedy Asset Services have supplied all of Glade Festival, Secret Garden Party and Wilderness for us this summer, providing a wide variety of different kit that we needed for each event, and their service has been excellent.

What I appreciate most, is their drive to supply me with what I need, when I'm trouble, as quickly and efficiently as possible. Have this level of support, on these kinds of shows, is invaluable."

"Once again, Speedy Event Services played their part in making my summer that little bit easier, with new heras conveniently stillaged to keep the crew happy and VT -1's serviced on site to illuminate the long nights and show weekends. Their growing understanding of the events industry, network of regional depots and the ability to supply at short notice leaves me happy to recommend Gary Allmark and the team for the supply of site infrastructure plus much more to any event."

SPEEDY -
THE POWER
BEHIND BRITISH
SUPERBIKES

What does it take to support 200 high performance motorcycles and events with over 50,000 spectators on site and a global TV audience of over 100 million. The answer, Speedy!!!

Since 2012 the UK's biggest motorsport series has called upon Speedy to support it with critical logistical and support solutions.

A British Superbike Championship event is literally a travelling circus with team, media, officials and support staff descending on often rural locations. Race tracks are turned into mini towns with a working community of over 3000 people and an incredibly high level of technical equipment and infrastructure.

The Speedy support comes in two distinct waves. First there's event power generation. Over 20,000 KVA of power with 3kms of distribution ensures the articulated paddock area is fully powered. Thousands of Pirelli's finest high specification tyres are warmed to perfect temperature in order to tame 220bhp Superbikes. The paddock workforce sets up base in 3 acres of motorhome village areas, all powered by Speedy.

A testament to the versatility and capability of Speedy services is from 2017 when the Oulton Park circuit in Cheshire suffered a total mains outage. Thanks to the skill and fast response from Speedy all the temporary power was able to diverted to additionally

support critical medical, TV production and essential site services to ensure a worldwide sporting event went ahead without the outside world knowing any different.

At each event the race organisation communicates using the latest state of the art crystal clear digital radio communications supplied by Speedy. With riders going wheel to wheel at 200mph the potential for incidents is obvious and so race and medical direction communications are critical.

At each event Speedy supplies 140 digital radios handsets together with high power base stations and repeaters.
