

HOW SUSPENDER CLIPS WORK AND HOW TO FASTEN THEM

SUSPENDER STYLES

X-BACK SUSPENDER

- Need to find where on your body the strap meets the pants without having any folds, buckling, or looping
- This will generally be 3-5" on either side of the center of your back
- Exact placement will vary with your build and dimensions

Y-BACK SUSPENDER

- Put the clip exactly in the middle of the top of the pants in the back, if there is no center rear belt loop
- Put the clip just to either side of the belt loop if there is a belt loop in the middle of the back of your trousers

SUSPENDER CLIPS

FINGER CLIP

- Do not place the clips over a belt loop (or a belt) since over time that will loosen the grip
- High marks with those seeking both a traditional look and the versatility to be worn with either a suit or casual pants
- Comes in both X-Back and Y-Back styles

CONSTRUCTION CLIP

- Do not place the clips over a belt loop (or a belt) since over time that will loosen the grip
- These heavy-duty construction clips have a super strong grip that will not let you down

BELT CLIP

- Heavy duty plastic hooks that slide onto your belt (up to 1.5-inches wide)
- Provides dual support of the belt and the suspenders

PIN CLIP

- Made with heavy-duty nickel pins that go straight through the fabric for a 100% no slip grip
- Decorative clips are also reinforced with plastic teeth securely holding both sides of the fabric

BUZZ NOT AIRPORT FRIENDLY CLIP

- Easy-open plastic suspender clips that securely grip any material or fabric
- Convenient suspenders keep your pants up and your travel schedule on time
- Also good for active sports wear like ski and bike pants since the plastic clips will not damage the material

TRIGGER SNAP CLIP

- Traditionally found on leather and western wear but now also available on regular elastic suspenders
- Similar to a dog leash attachment- push down on the clip and attach to your belt loops

SIDE CLIP

- Put your arms through the suspenders as though you are putting on a shirt
- Attach the clips one on each side
- Exactly where the clips attach will depend on your build

CONVERTIBLE ATTACHMENTS

- Two suspenders for the price of one - choose to wear them as clip suspenders one day and button suspenders the next
- Simply undo the leather tab, remove the attachment you don't need and refasten the tab
