**Company Profile**

**TARIQ FLOAT GLASS**

For the past 40 years, Tariq Glass Industries Ltd. has been the premier glass tableware manufacturer in Pakistan. In addition to being the market leader in Pakistan, Tariq Glass Industries Ltd.'s brands **Toyo Nasic**, **Omroc**, **Nova** and **Tariq Float Glass** are exported across the world.

In 2013, Tariq Glass Industries Ltd. launched its latest venture, Tariq Float Glass. An ultra-modern plant having a production capacity of 550 tons per day, Tariq Float Glass, has quickly established brand recognition not only in Pakistan, but in the international markets as well. This facility is capable of producing clear float glass ranging from 2mm to 12mm as well as tinted and reflective glass through an online CVD coating process, along with sandblasted glass and aluminum coated mirrors.

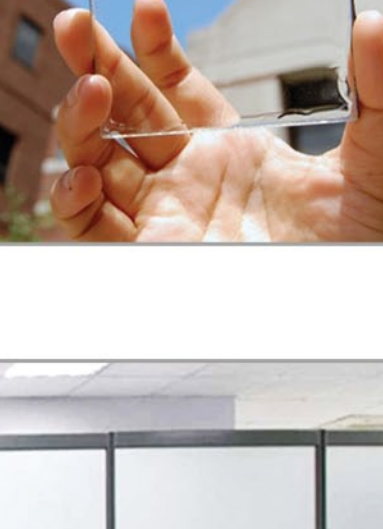

Innovation, quality and reliability are the cornerstones of Tariq Glass Industries Ltd. Its vast product offering of tableware and float glass are designed to meet and exceed the expectations of the customers.

**Clear**

**Tinted / Reflective**

**Mirror**

**Sandblasted**

**Clear**

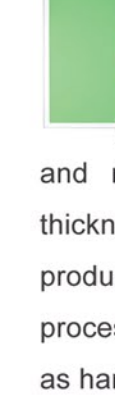

Our Clear glass is ideal to fulfill the high visibility, shine and clarity requirement for windows, display cases, appliances, partitions, shelves, furniture tabletops, skylights, picture frames, automobiles, high rise buildings and many other applications.

Colors: Dark Blue • Dark Blue Reflective  
Euro Bronze • Euro Bronze Reflective  
Dark Green • Dark Green Reflective  
Clear Reflective (Light Gold Appearance)

Thickness Range: 5mm  
Available Size: 72" x 96", 84" x 144"

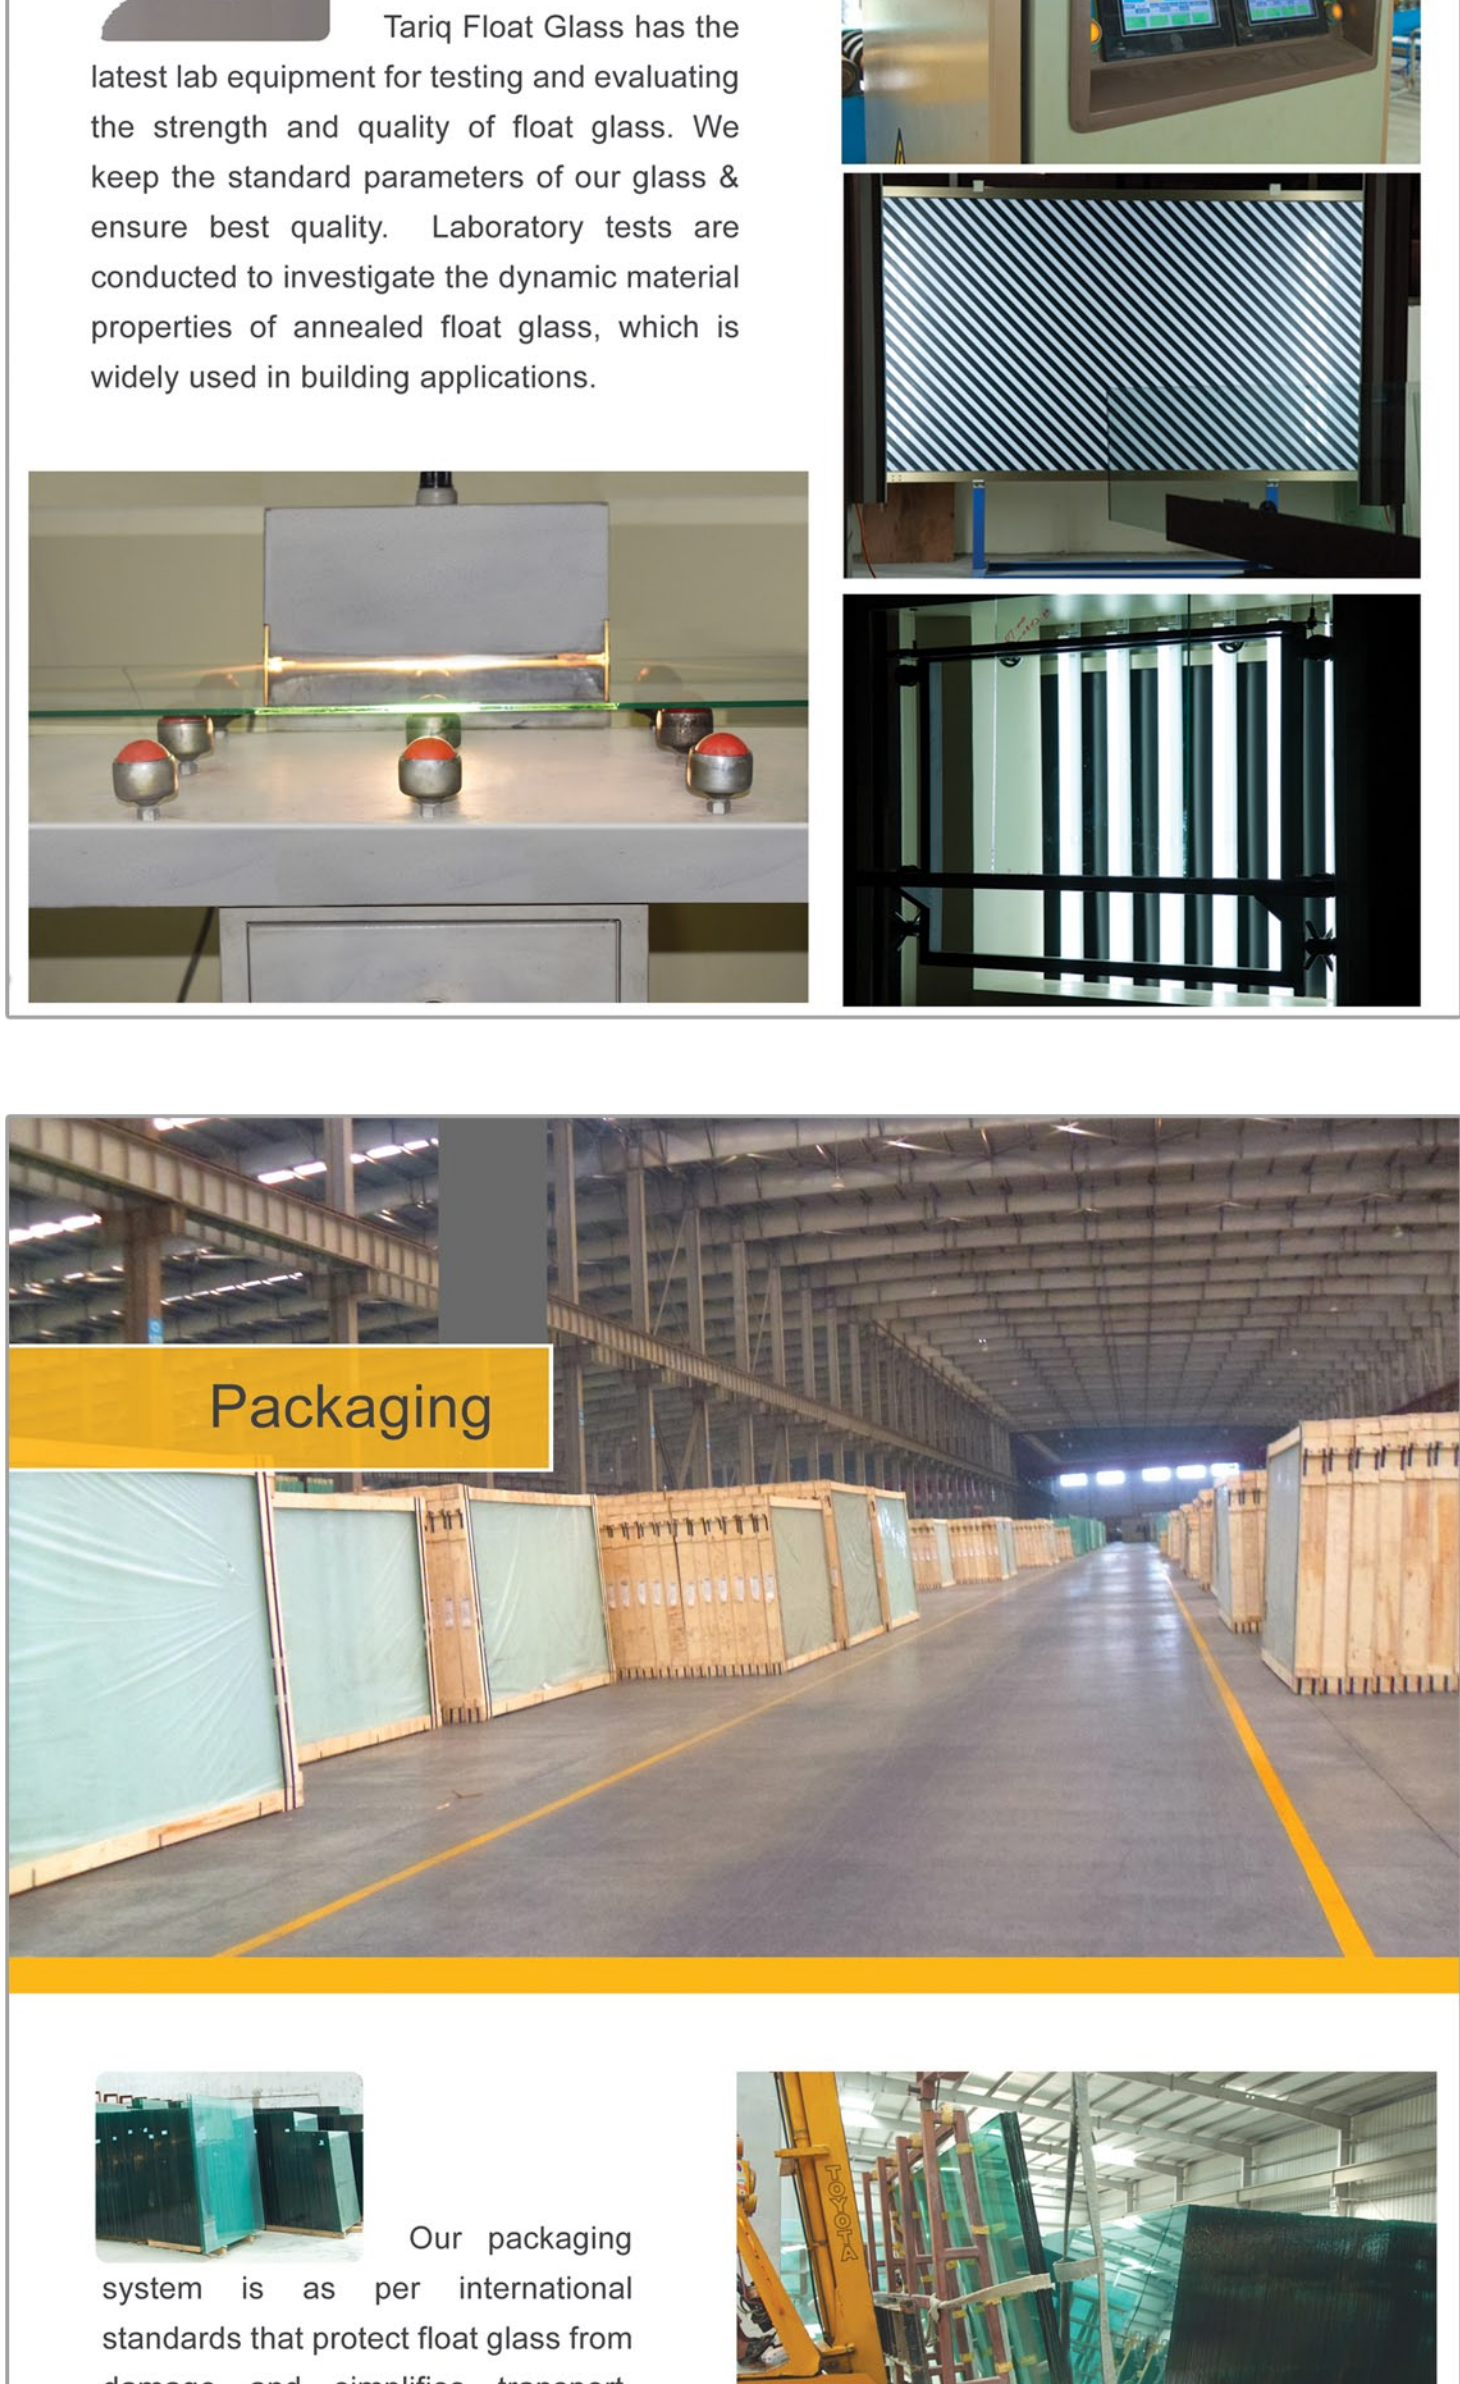

**Mirror**

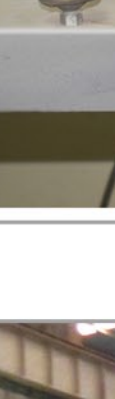

Our aluminum coated mirrors are produced on high quality float glass using state of the art machine.

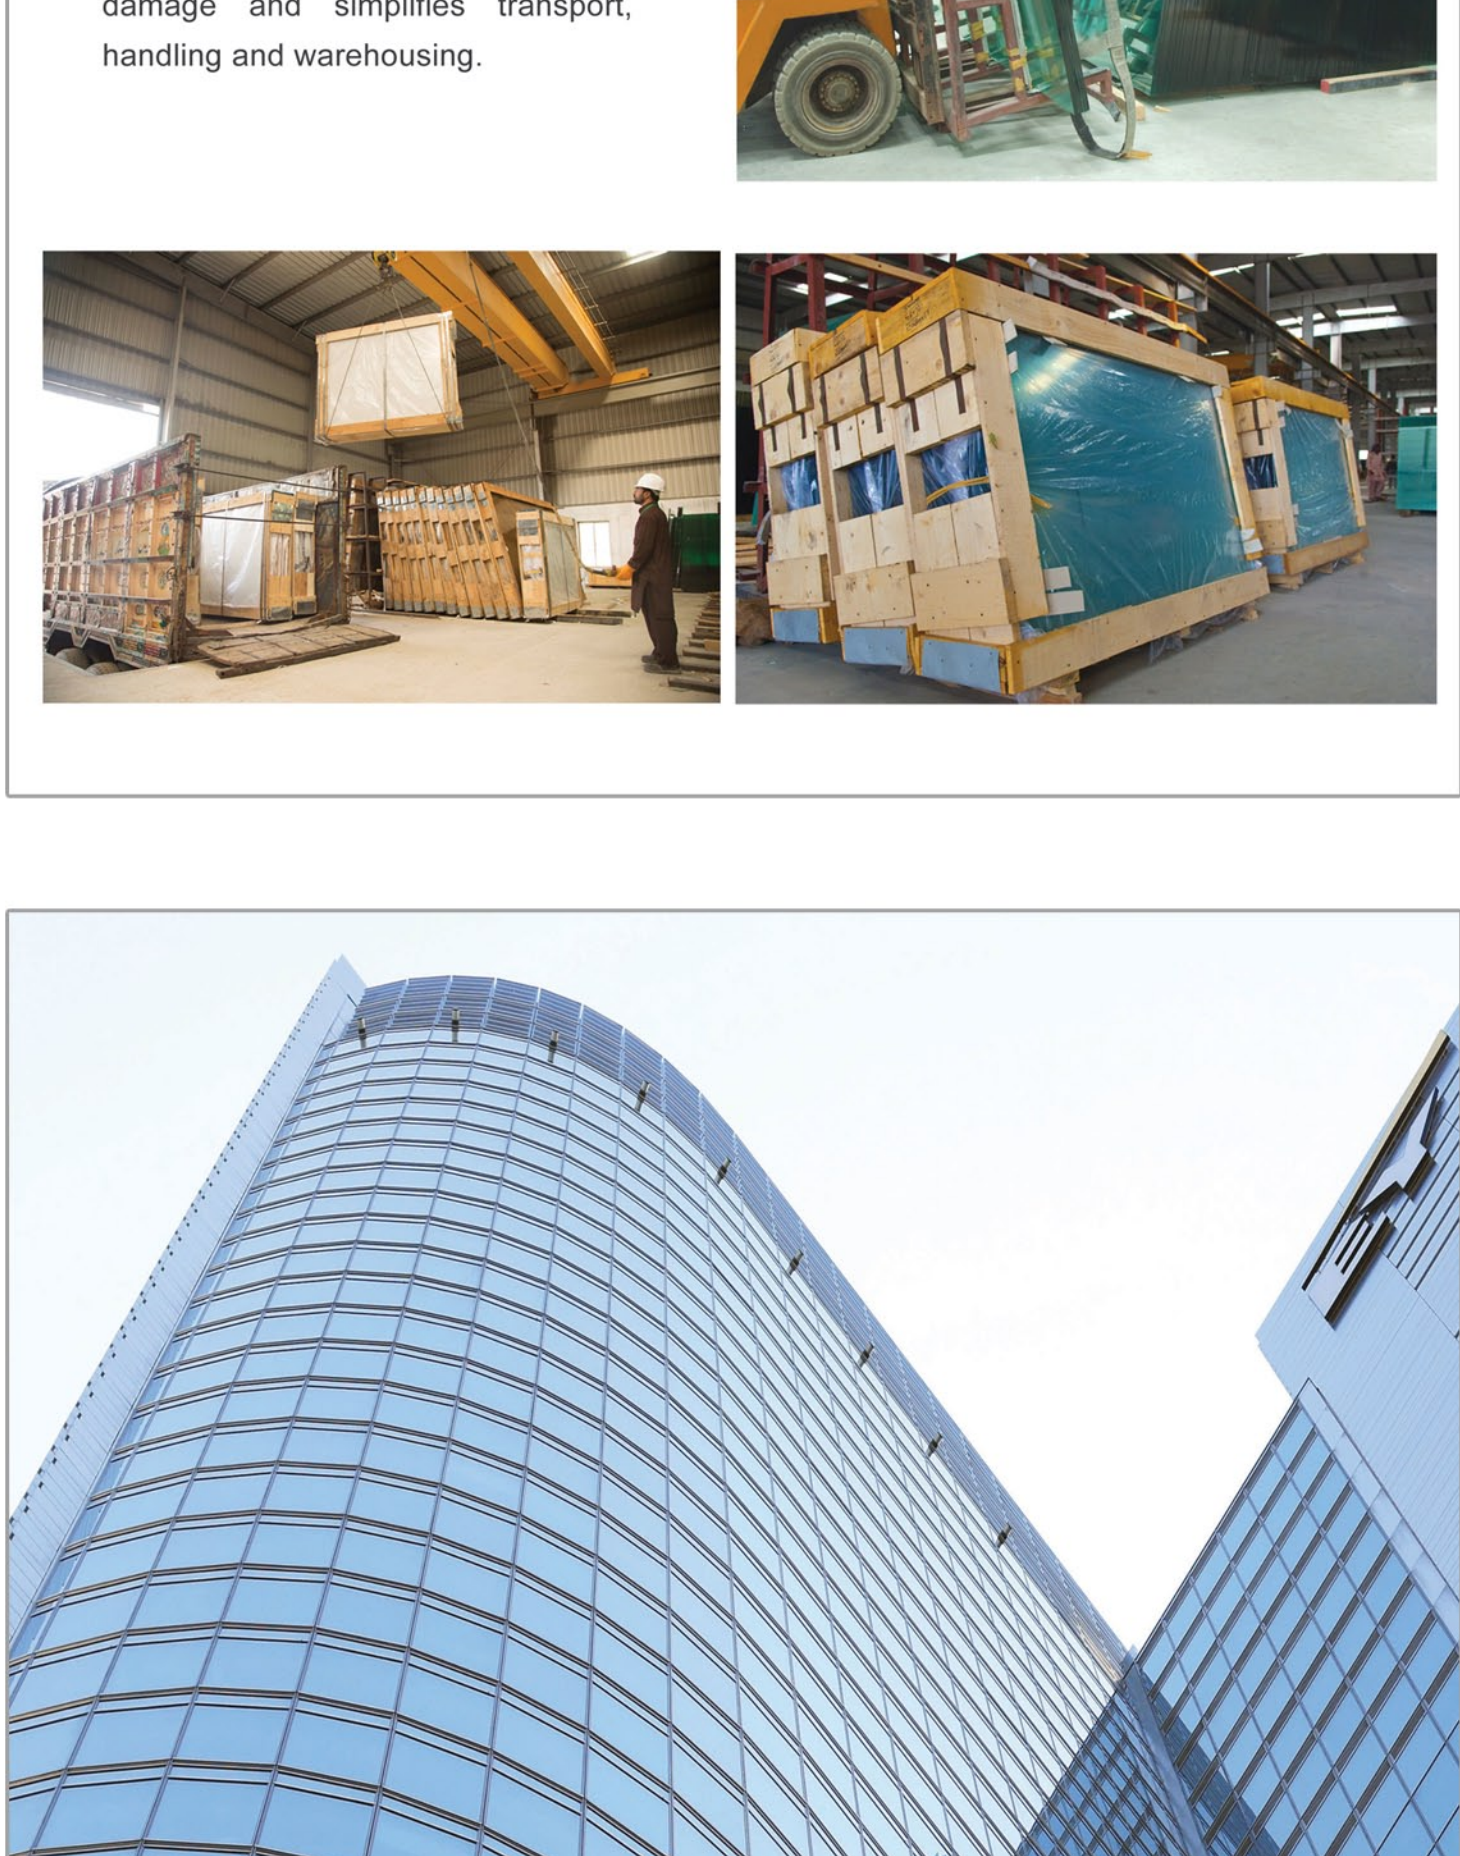

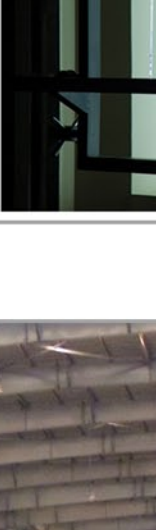

Thickness Range: 3mm - 6mm  
Available Size: 72" x 84", 72" x 96" etc.  
Back Paint: Grey

**Technical Lab**

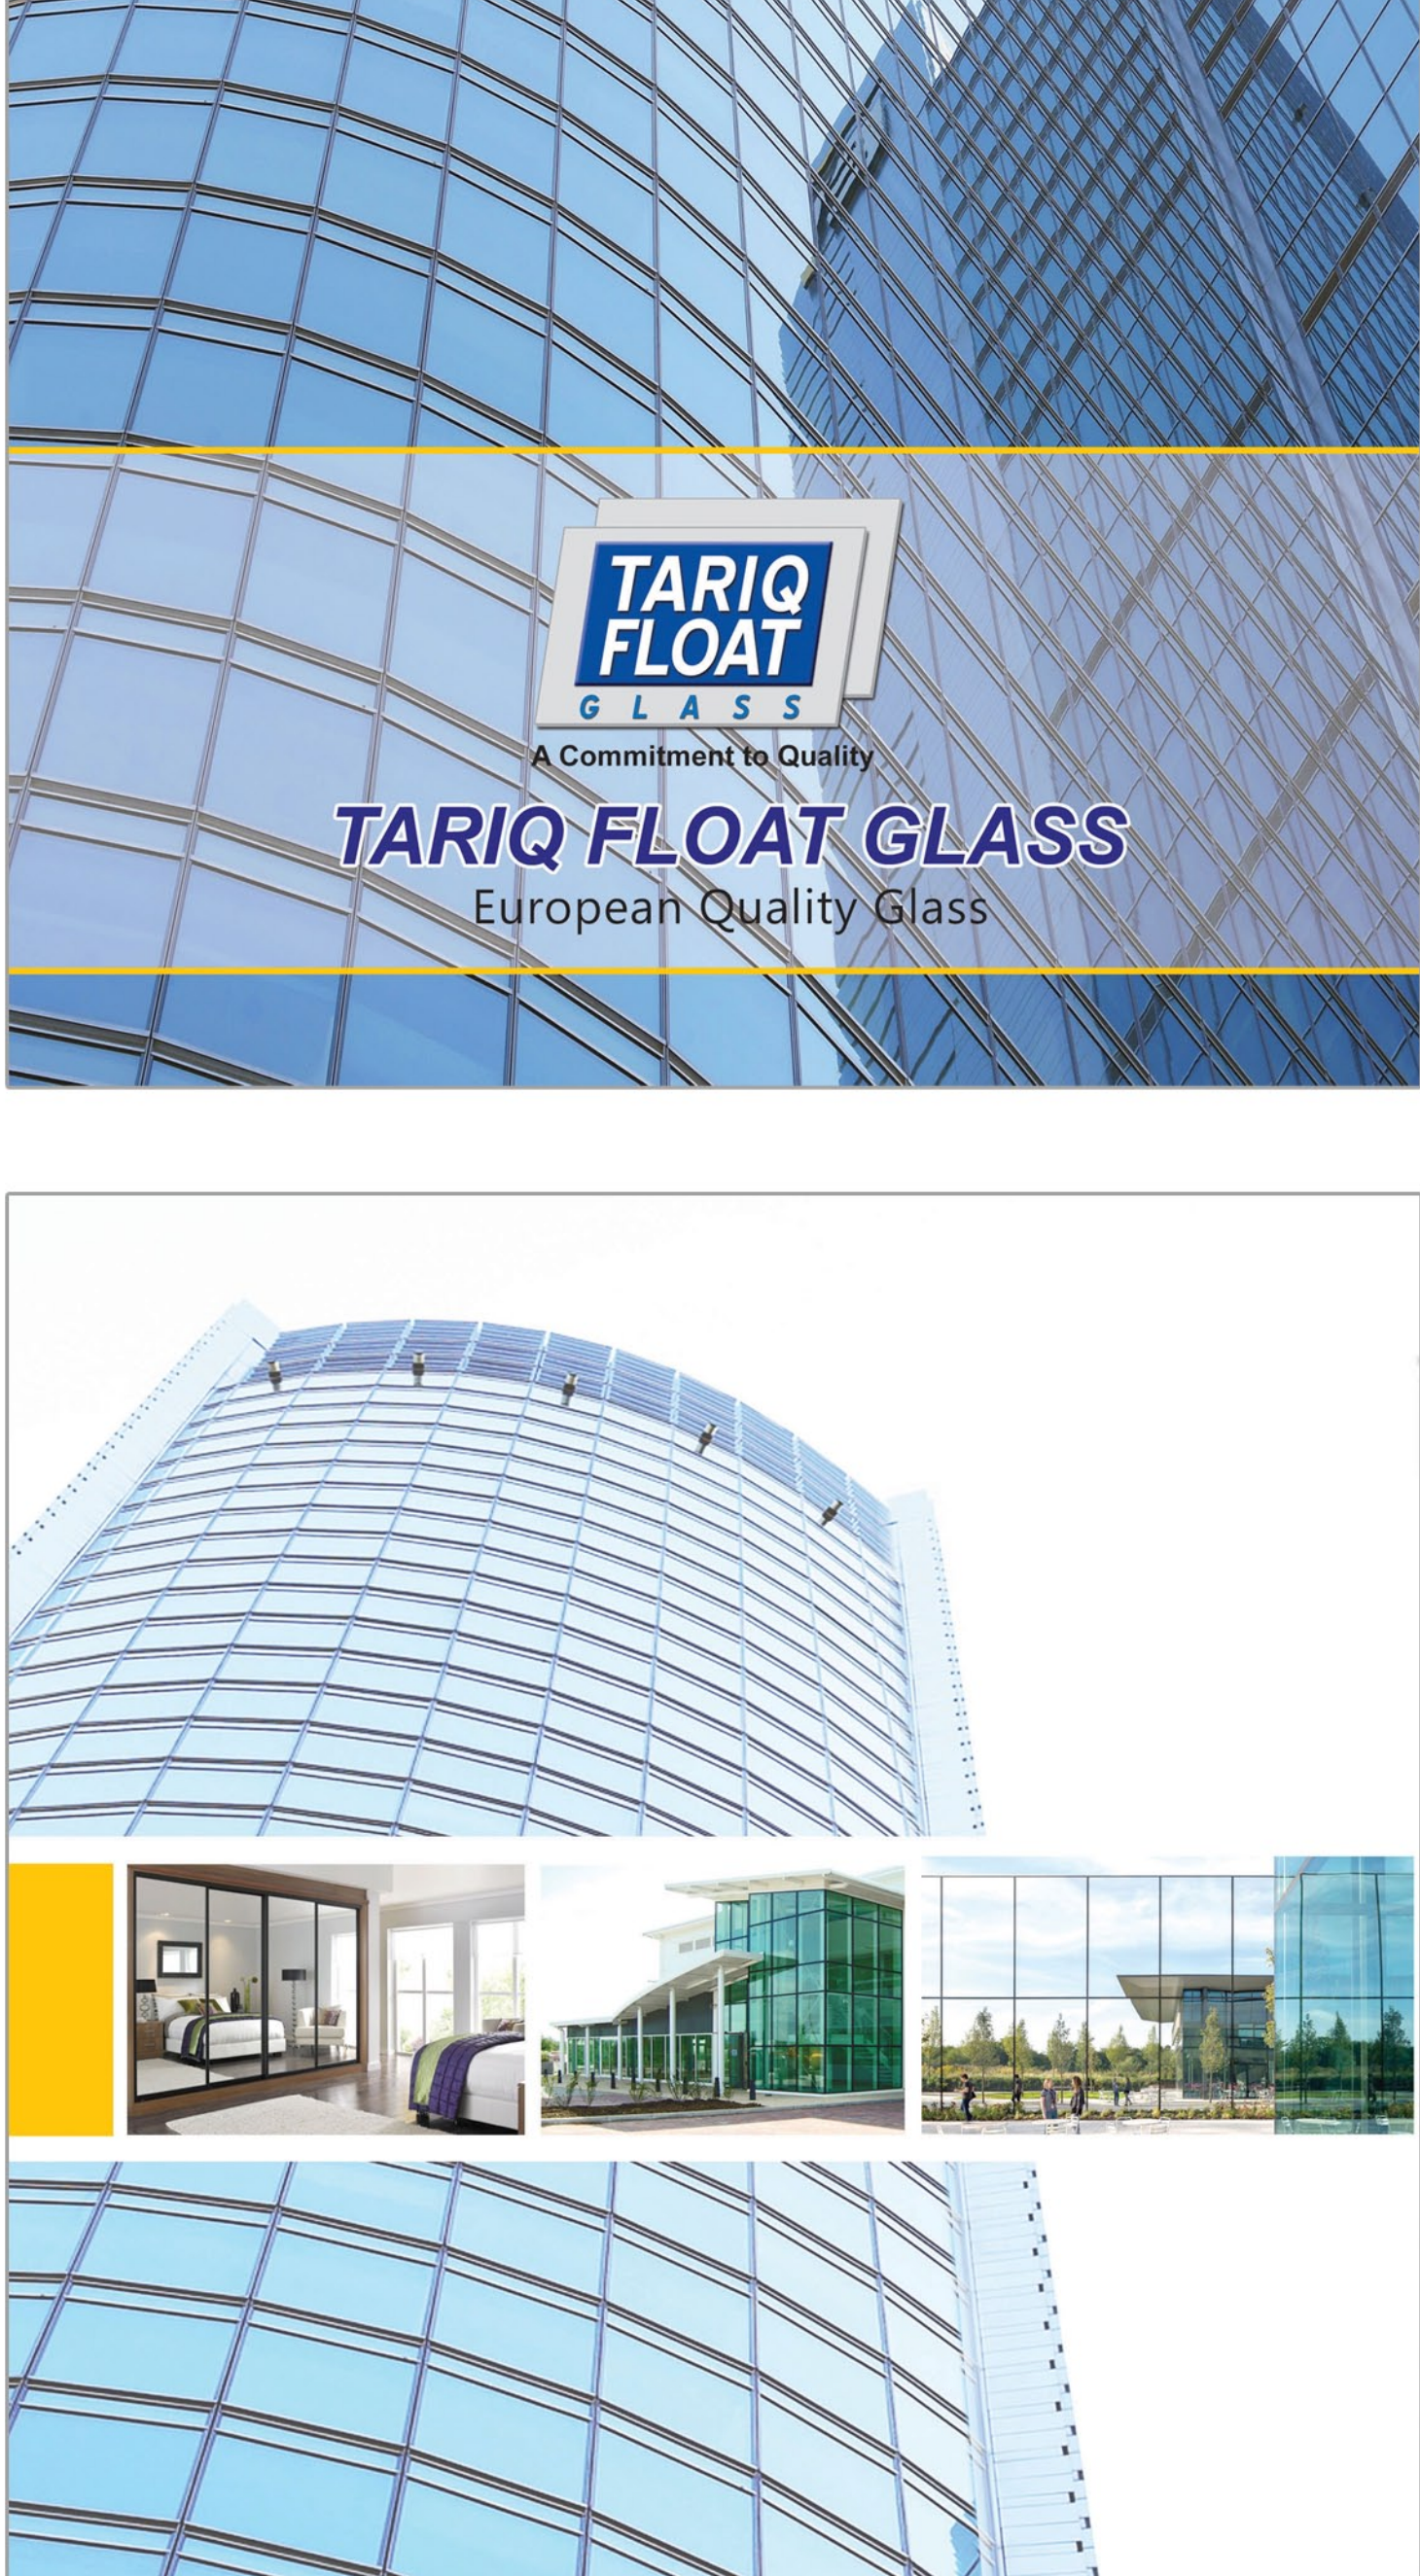

Tariq Float Glass has the latest lab equipment for testing and evaluating the strength and quality of float glass. We keep the standard parameters of our glass & ensure best quality. Laboratory tests are conducted to investigate the dynamic material properties of annealed float glass, which is widely used in building applications.

**Packaging**

Our packaging system is as per international standards that protect float glass from damage and simplifies transport, handling and warehousing.
