Techni-Core

CAPABILITIES PROFILE

Supporting US Military weapons research mission & goals with specialist systems engineering services & support.

● SOLUTION

Business Classification: Woman Owned-Small
SAM Registered Business (WOSB)
DUNS#: 005690156
Cage Code: 0FBT8

Primary NAICS: 541715
Weapon Sys R&D/Phy, Eng, Life
Other NAICS: 541330 Engineering Services
541511, 541512, 541513, 541519, 541611, 561320 , 541614

GSA SINs: 871 (1-6) (ENG SVCS), 132 51 (IT), 874 501 (LOG), 874 1 (MOBIS), 100-01/-03

Corporate Overview

For 30 years, Techni-Core Engineering has productively supported the US Army's evolving weapons research mission goals with engineering services to AMRDEC labs for Systems Engineering, Integration and Analysis, Test and Evaluation (T&E) for simulation exercises and joint interoperability test activities. Our UAS Engineers not only support *ALL* current fielded UAS systems including Grey Eagle, Predator, Reaper, Hunter, Shadow, and UGCS, but additionally provide UAS Trainer design, DoDAF design, warfighter training, and full documentation support. Techni-Core Engineers, credentialed to the Task Order (TO) minimum qualification, possess specialized knowledge for task elements in design, testing and analysis services, and provide these proven task-based skillsets to compile engineering trade studies that include requirements impact, technology assessments, new technology infusion studies, and a fully charted development implementation plan.

As a Woman-Owned Small Business (WOSB) Defense Contractor, Techni-Core has a local reputation for hiring the best and brightest in the Cyber and Defense Industries. Our Engineers hold industry certifications such as CISSP, COMPTIA Security+, Microsoft, Linux, CompTIA, CCNA. Our IT and Cyber Engineers provide task-based support to a wide-range of commercial DoD contractors to support systems administration, networking, Government Cloud, DFARS 7012 Compliance, HelpDesk, Managed Services, and Partnered solutions integrations.

Core Competencies

- Cyber Security Services
- IT Support & Helpdesk Staffing
- Program & Project Management
- Government/Federal Cloud IT Solutions
- Microsoft/Dell/Cisco/AWS partner
- RMF & Information Assurance
- Defense Systems Engineering
- UAS Systems Engineering
- UAS Trainer Systems Design
- Test & Evaluations Support
- Modeling & Simulations
- Verification & Validation Support
- Classified Audio/Video design

Differentiators

- **Woman-Owned Small Business (WOSB)** since 1978
- **Professional Engineering Firm** (Alabama Certificate No. CA1865E)
- **40 years** serving Redstone Arsenal, **30 years** of DoD technical and engineering excellence, **20 years** of Commercial & DoD IT & Cyber excellence.
- Task-responsive engineering teams highly experienced in **UAS Systems Engineering Design & Trainer Systems, IT and Helpdesk support and Cybersecurity & Cloud solutions.**

Contracts

SAM (System Award Management) –Active

GSA Contract Holder #GS00F0036M
SINS: 871 (1-6), 132 51, 874 501, 874 1, 100-01/03

*Celebrating 40 Years OF BUSINESS IN HUNTSVILLE*

- **GSA OASIS AMCOM Express:** SAIC BSES, Raytheon SSES
- **TUAS (Shadow):** Textron
- **AMCOM Express:** SAIC, Intuitive, Vencore, Torch, Quantum, CSC, Sigmatech
- **MSIC/DIA:** GSA Contract, Classified A/V support
- **SETAC 10:** Intrepid, Quantum, Radiance
- **SPAWAR Systems Center Pacific:** Colsa
- **D3I D2:** Quantum
- **CECOM:** Leidos
- **SSES Nextgen:** SAIC
- **Agile Cyber:** Radiance
