

TRANSFORM YOUR SPACE IN A DAY

ReadyDisplay™ FROM WATCHFIRE and Think Digital Signs

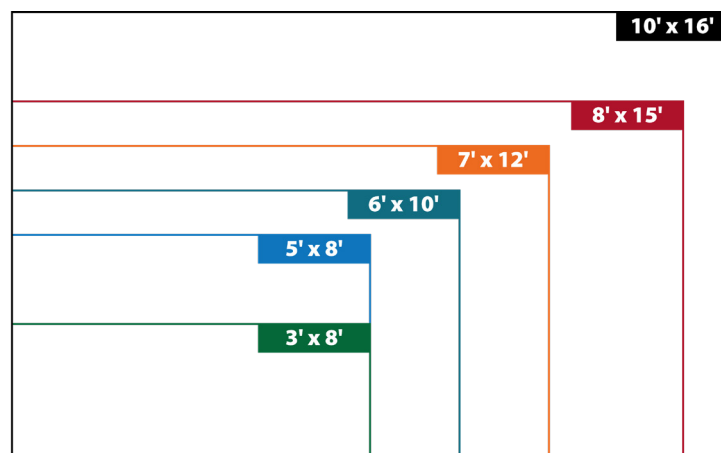

Engage people inside your venue with messaging on a vibrant ReadyDisplay. These interior all-in-one LED video walls are engineered to install quickly and impress instantly.

MINIMAL DISRUPTION FOR INSTALLATION

The ReadyDisplay is preassembled and ships in one or two pieces, depending on the finished size. These pieces are built to fit through most interior doors and lift quickly onto a mounting system for single-day installation.

PREMIUM TECHNOLOGY

The ReadyDisplay contains the same Watchfire state-of-the-art technology as our popular S-Series displays. These high-resolution displays are manufactured to be long lasting, low maintenance and, like all Watchfire products, is backed by the industry's best warranty. The ReadyDisplay is a seamless, high contrast, glare-free display that produces vivid content in any lighting situation.

PROFESSIONAL CONTENT MANAGEMENT

Watchfire's content management software, Ignite OPx, gives users a powerful, intuitive interface to design custom content, create zones within a display, incorporate real-time data, and schedule messages months in advance or at the last minute. Our EasyArt library is the only collection of animations and still images that comes free with every sign purchase and includes periodic updates.

IDEAL FOR ANY INTERIOR LOCATION

- Corporate Lobbies
- Conference Rooms
- Colleges and Universities
- Museums
- Houses of Worship
- Transportation Hubs
- Retail and Convenience Stores
- Restaurants and Bars

Engage visitors with new a high-resolution ReadyDisplay™ from Watchfire.
