

BLACK DIAMOND
ADVANCED TECHNOLOGY

BDATech

Black Diamond Advanced Technology (BDATech) is a Small Business headquartered in Chandler, AZ and a demonstrated leader in the tactical computing and communication systems industry. Our focus is on the Dismounted Operator and providing them with innovative, trusted technology to ensure mission success. We specialize in creating customized hub systems that are engineered to withstand any environment and control a variety of missions. Because when it matters most you want something **Built. Tested. Proven.**

BDATech has a long history of providing the dismounted Operator with technology to ensure mission success in the rugged conditions and extreme environments in which they must operate. Our products enable and enhance real and virtual lifelines by integrating with existing fielded equipment to maximize the performance and capabilities of the organic tools the Operator has today.

How We Help Transitioning Rangers

BDATech strives on hiring veterans not only to thank them for their service but also because veterans have impressive work ethics. Veterans are highly focused on the tasks they need to accomplish and work well as a team, ensuring that everyone contributes their part to a successful project. BDATech's core value is training employees, coaching, and guiding them to be successful within our company. Dedication, hard work and a strong work life balance is a major role BDATech plays in transiting veterans into the work place.
