

Bechtel is a trusted engineering, procurement, construction, and project management partner to industry and government. Since 1898, Bechtel has completed more than 25,000 projects in 160 countries on all seven continents. These efforts have generated jobs, boosted economies, enhanced infrastructure, and promoted global safety and environmental cleanliness. Bechtel serves the Energy, Infrastructure, Nuclear, Security and Environmental; Mining and Metals, and Manufacturing & Technology markets.

Across the US Gulf Coast, Bechtel has been selected as the EPC contractor to support delivery of the Port Arthur LNG, Rio Grande LNG, and Corpus Christi Liquefaction Projects. Bechtel is recruiting for hundreds of roles across the US Gulf Coast LNG Projects. Bechtel offers career development and long-term employment opportunities, where safety and wellbeing are a priority.

Corpus Christi Liquefaction Project

CCL is a 1,000+ acre facility with three operational liquefaction units, or trains, with a total capacity of 15 million tonnes per annum.

In June 2022, Cheniere announced the Corpus Christi Stage 3 expansion, which includes Bechtel's EPC execution of seven midscale trains, powered by Chart Technology with motor driven refrigeration compressors.

Port Arthur LNG Project

Currently under construction, PALNG is a natural gas liquefaction and export terminal in Southeast Texas with direct access to the Gulf of Mexico.

The Port Arthur LNG Phase 1 project is fully permitted and is designed to include two natural gas liquefaction trains, two liquefied natural gas (LNG) storage tanks and associated facilities with a total capacity of 13 million tonnes per annum.

Rio Grande LNG Project

RGLNG is a natural gas and export terminal situated on a 984-acre site on the banks of the Brownsville ship channel.

RGLNG phase one consists of three liquefaction trains, two storage tanks and one marine berth. At full capacity, the five-train facility will have a production capacity of 27 million tonnes per annum.

Veterans at Bechtel

Bechtel values the qualities and attributes service members develop while serving our country: agility, integrity, and unparalleled commitment.

We recruit and retain top talent from all service branches and all components (transitioning service members, veterans, National Guard, and Reserve).

Bechtel offers multiple pathways for transitioning service members and veterans to join our project teams and is proud to be the industry leader for proactive mental health. We encourage all prior service employees to join their project's Military Veterans Employee Resource group, BSERV, for camaraderie, community, and support.

Craft Professional Careers

IMMEDIATE NEED:

- Pipefitter
- Ironworker
- Rigger
- Electrician

OTHER OPPORTUNITIES:

- Boilermaker
- Carpenter
- Combo Welder
- Laborer / Helper
- Materials
- Mechanic
- Millwright
- Operator
- Scaffolding
- Surveyor
- Field Support / Field Admin

BENEFITS:

- Career growth/progression
- Long-term employment
- Safety and wellbeing are prioritized
- Health (Medical, Dental, Vision)
- Per diem (where applicable)
- Completion and other incentives
