

HEPTAGON INFORMATION TECHNOLOGY

RANGER FRIENDLY CAREERS

Rangers move further, faster and fight harder than any other Soldier. It's more than just a creed: it's who you are. Heptagon IT recognizes these values as a lifelong skill set, both on and off the battlefield. We are actively seeking Rangers that have the Drive, Discipline and Depth with experience in communications, technology and leadership to continue the mission in civilian life.

Network Administration
Zero Trust Security Applications
SEIM and SOAR Applications
Windows / Linux Server
Administration

Heptagon IT's reputation is built by prioritizing our people more than we value the technology. People are our no. 1 asset.

We make complex seem easy. You just sit back and we'll handle everything!

ABOUT US

Heptagon Information Technology is a Veteran Owned Small Business (VOSB). Founded in 2014 by highly skilled and experienced network and cybersecurity professionals, Heptagon engineers and operators provide daily support and execution of the systems administration, network engineering, cybersecurity, and customer support required by our nation's warfighters. Heptagon Information Technology is a true seven layer solution provider that prides itself on its core values of Drive, Discipline and Depth.
