

KC Cattle Company was founded by Patrick Montgomery, a former member of 1st Ranger Battalion. KC Cattle Company currently ships Wagyu beef and other protein with a palatable difference to all 50 states and Canada. When we started KCCC, we set out on a journey of bold aspirations. To challenge the status quo and offer something truly authentic to our customers. We rejected the shortcuts and false claims in the food industry, and instead decided to focus on what truly matters, taste and the animal. As a company founded on a foundation of military service, we understand the gravity of life and death. The meat we eat wasn't just produced; it was given life. And that life was taken away to sustain yours. This is a responsibility we take seriously. We are determined to make a difference in the way meat is sourced, processed, and delivered to the consumer's table. We believe the journey from ranch to plate is just as important as the final product. We are committed to doing things the right way so you can taste the difference in every bite. Hard right, over easy wrong is a motto that mattered in the military, and it matters to those who choose to be a caretaker of the land and the food it provides. It's a motto you will constantly hear around KCCC. If you are interested in being a part of our mission we'd love to connect with you.

What does this mean for transitioning Rangers?

Here at KCCC we've discovered the value of hiring Veterans. When Patrick exited the military, he deeply missed the camaraderie and working with like-minded individuals willing to take the hard right over the easy wrong. If you're looking to continue the mission of serving, we here at KC Cattle Company are digging in deep to change the way beef protein is raised, processed, and delivered to the end consumer. If you're looking to get your hands dirty, learn on the job, take the bull by the horns (both literally and figuratively) and make things happen as we scale KCCC we'd love to get in touch!

What do we expect from you?

Bring the values, hard work, and determination you brought to Ranger Regiment to the ranch. Whether you are a strong ranger or a smart ranger, be prepared to put both to work at KCCC.
