

**Who are we?**

SABO Outdoors is all in the title - "Sportsman Activities By Owner". We lease private land through a relationship with the landowner or broker direct to consumer to use for various outdoor and sporting activities, including (but not limited to) hunting, fishing, hiking, camping, ATV/Off-road, and overlanding. We're a venture capital funded startup, with far-reaching partnerships in the outdoor community and a staff that has an outdoor and conservation first mindset. Our properties can be leased from daily to season-long and have locations in most of the southeast. We officially launch August 1st, so be on the lookout for opportunities.

**What can we do for Rangers?**

We can provide an opportunity for landowners to make a supplemental income without the worry of having to manage the renter. We can also provide job opportunities in much of the southeast and mid-west as we expand into new markets and need land recruiters.

**What can Rangers do for us?**

Promote! As a Ranger-owned, Ranger-founded startup, we need all of the marketing and promotion we can get. Putting our name on the outdoor community is no small task, especially as a new startup.

**What next?**

Transitioning Rangers interested in a career with SABO Outdoors are encouraged to contact Justin Neal at [justin@sabooutdoors.com](mailto:justin@sabooutdoors.com).
