Next Steps

Ready to roll out Tutor.com at your school? Reach out to us to reserve dates for staff, student and parent trainings. Here are a few tips to help you plan!

- ✓ **Plan in advance!** We schedule a minimum of two weeks in advance for workshops.
- ✓ **Create a student workshop schedule.** Workshops work best in small groups up to 30 students.
- ✓ **Determine a location.** Generally it's easiest for teachers if we move from classroom to classroom. However, some schools prefer to use a centralized location such as a media center. Students will need workspace for their device—we recommend a desk or table.
