

tutor.com™

A Service of The Princeton Review®

FOR LAUSD

Let's jump in!

Welcome back! We are excited to serve you and your students during the 2024-2025 school year.

Through our partnership with Los Angeles Unified, your students have access to **no-cost, 24/7 homework help** for their academic classes, scaffolding skills, job applications, and college applications.

Tutor.com has provided the following statistically significant outcomes for students, as found in a third-party research study conducted by LearnPlatform:

- ✓ Students who used Tutor.com had higher GPAs in spring 2023 compared to demographically similar non-users (3.02 vs. 2.87 on average).
- ✓ Tutor.com users had fewer 2022-23 school year absences (7.50 vs. 8.20).
- ✓ Tutor.com users who completed more than 300 minutes had fewer absences during the 2022-23 school year than students who completed less than 60 minutes.

While help on-demand can feel like a no-brainer, it's a new concept for many of your students. **We're here to help you demystify homework help with the following training, free of cost to your school:**

Parent Support

We can present to families at the beginning of the school year as part of your bridge program, or throughout the year at open-house events.

Teacher PD

We can present at a full-staff training, or to specific academic departments to highlight how Tutor.com can benefit your students and teachers.

Student Orientations

We'll introduce Tutor.com to your students through a guided session led by our team. They'll log in, work with a tutor on an assignment, ask questions, and discover how we can support them with their homework.

We can provide these sessions virtually or in-person; support based on the availability of our team members. Please scan the QR code to fill out our training request form and we will be in contact to schedule your session.

Scan the QR code to read excerpts from a Tutor.com effectiveness study (ESSA Evidence Level II: November 2023).
