## Affordable Connectivity Program (ACP)

Broadband service providers should complete this form to obtain FCC approval to participate in the ACP.

The purpose of this form is to allow broadband service providers to submit an application to participate in the FCC's Affordable Connectivity Program (ACP). Providers deemed eligible to participate in the ACP will need to submit a separate election to the Universal Service Administrative Company (USAC) prior to being able to receive reimbursement for providing discounts to eligible households during the emergency period related to the COVID-19 pandemic.

Provider eligibility for the ACP will be determined only after successful submission of this form. Once your application has been reviewed and processed, you will receive an email notification with your FCC approval determination. A member of the FCC may reach out to you for additional information during the review process.
