## USAC Implements Affordable Connectivity Program (ACP) Connection with Missouri

---

October 7, 2022

### National Verifier Can Now Leverage 24 State and Federal Connections for the ACP

On October 6, 2022, USAC implemented an automated database connection between the National Verifier and the Missouri Department of Social Services to determine and verify the eligibility of applicants to and subscribers of the Affordable Connectivity Program (ACP). A household may qualify for the ACP benefit under various criteria, including an individual qualifying for the Lifeline program. The ACP connection with Missouri will allow for the automatic verification of consumers participating in Supplemental Nutrition Assistance Program (SNAP). Consumers applying for the ACP in Missouri will also continue to benefit from the National Verifier's two federal connections with the United States Department of Housing and Urban Development (HUD) to verify participation in the Federal Public Housing Assistance (FPHA) and with the Centers for Medicare and Medicaid Services (CMS) to verify participation in Medicaid.

We sincerely appreciate the dedication and ongoing support of our state partners in Missouri. USAC looks forward to partnering with additional state and federal partners on implementing connections with the National Verifier for the Affordable Connectivity Program and the Lifeline program. For a review of all states and territories and their available connections for ACP please review the [ACP Database Connection](#) webpage. For a review of all states and territories and their available connections for Lifeline please review the [Lifeline Database Connection](#) webpage.
