

FCC Releases Public Notice for February 8, 2024 ACP Enrollment Freeze

February 7, 2024

On February 6, the FCC issued a [public notice](#) reminding the public of the Affordable Connectivity Program (ACP) enrollment freeze that will be effective February 8, 2024. The enrollment freeze is a part of the steps for ACP Wind-Down outlined in the FCC [Order](#) released on January 11. The Order announced the procedures for the wind-down of ACP due to a lack of additional funding from Congress. Funding for the program is anticipated to run through April 2024 (this date is an estimate and may change). For more information on the Order's requirements for service providers, please refer to the bulletins USAC released on [January 11](#) and [February 5](#).

Providers are encouraged to review the above bulletins and the FCC's Order carefully for detailed information on notice requirements to households, updates on claims deadlines, and other wind-down procedures and requirements. If the program receives additional funding, USAC and the FCC will provide further information later.
