

Care homes

Voyage Care specialise in providing care and support for adults with learning disabilities, physical disabilities, brain injuries, autism and complex needs. Our specialist residential care homes are more than somewhere to live, we offer somewhere for you to make your home. Our experienced staff deliver safe, personalised care and support for you or your loved one, 24 hours a day.

Our focus is on finding you a home within your chosen community, where you can develop and maintain relationships. We provide the support you need to live a healthy, safe and rewarding life. We're here to support you to do the things that are important to you, every step of the way, including when and if the time is right to transition to more independent settings.

We ensure you are included in all decisions about your care and support, either directly or through your family or advocate. This could include choices about menus, activities or holiday destinations. We also involve you in our staff recruitment processes to help us find the right people to support you.

We offer opportunities for you to learn new skills, become more independent and try new experiences.

As well as providing tailored in-house activities, such as craft sessions, music therapy or sensory sessions, we also encourage you to be active members of your community. This can include accessing volunteering, work and training opportunities as well as local leisure and social activities.

CARE HOMES by

voyagecare

Person-centred support

Each of our homes have been carefully designed and adapted to meet the needs of every person who lives there. Specialist features in the homes can include assisted baths, assistive technologies, hoists, sensory rooms and hydrotherapy facilities as required to meet individual needs.

Our person-centred planning ensures that every person living in our care homes is enabled to meet their physical, emotional, vocational, educational, spiritual, safety and social needs. We work with you to find out what you enjoy doing, how you prefer to communicate, and what your goals and aspirations are.

We also have clinically-led services available in some areas, which can provide 24 hour care to manage complex health conditions.

"The staff communicate with me very well and support Brandon to make appropriate decisions. They do very well, teaching lots of life skills. They treat him as an individual. They guide him and he gets a good quality of life. They do an absolute marvellous job supporting him. He told me he's the happiest he's ever been"
