PAD PRINTED PENS TEMPLATE
50mm x 6mm

PAD PRINTED PENS INSTRUCTIONS
50mm x 6mm

- Artwork should be set up as vector only, as this is required to produce a screen print, so we will only offer these templates in illustrator, indesign and PDF.

- Artwork needs to be supplied using colours from the Pantone Coated library only - no CMYK, RGB or unnamed spots (examples: companygreen, companyblue).

- All of the design must be contained within the template size. As this isn't trimmed there is no bleed or safe zone required.

- Please submit your files without cut marks and printer marks.
