# Hertz can help you keep your moving costs within your moving allowance.

By renting a truck from Hertz, you can save up to half of what having someone else move you would charge.

What's more, you move when you want to. And your furniture arrives when you do.

And moving yourself is less expensive and more convenient.

We have Ford Econolines, 12-foot and 18-foot vans. The Econolines and Ford 12-foot vans come with automatic transmission. The 12- and 18-foot vans are available with loading ramps; some of the 18-footers have power lift gates, and each one-way truck has a radio.

(Not a big deal, perhaps, but on the road it seems like one.)

And we make available all sorts of moving aids to make packing, loading and unloading your furniture as easy as possible.

As a little incentive, Hertz will give you a free transistor radio after you've made your first one-way rental. Just fill out the coupon below, attach it to your paid Truck Rental agreement, and mail it to the address shown. The radio will be sent to you by return mail. To get a complimentary copy of The Hertz Guide to Do-It-Yourself Moving and to reserve a Hertz truck at the location nearest you call the number listed below.

**Call: 781-0740**

Dear Hertz,

I've rented one of your trucks. Attached is my paid agreement. Send me the radio.
