# BIOSECURITY

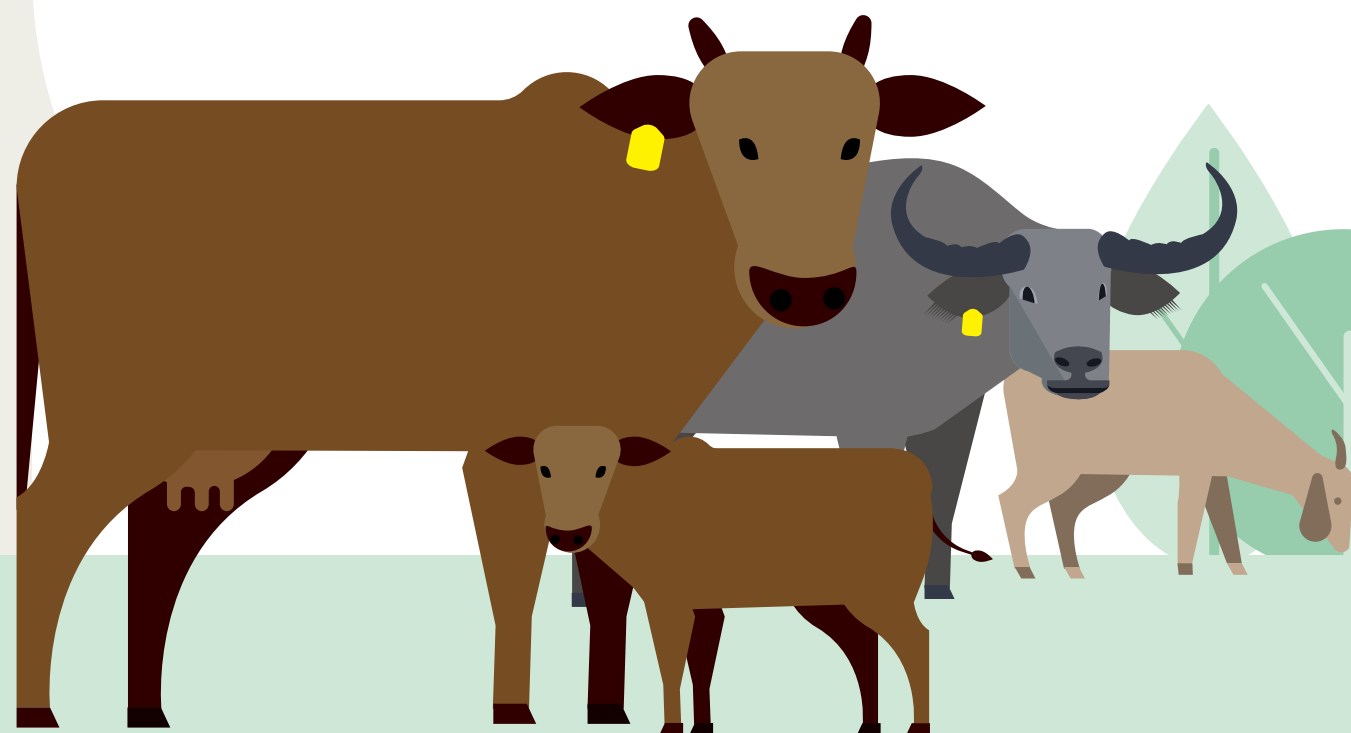

3 key principles to protect from  
Foot and Mouth Disease (FMD)

✓ Segregation

✓ Cleaning

✓ Disinfection

## QUARANTINE:

Isolate newly bought animals for at least 2 weeks and observe their clinical behaviour.

# ANIMAL HOUSING:

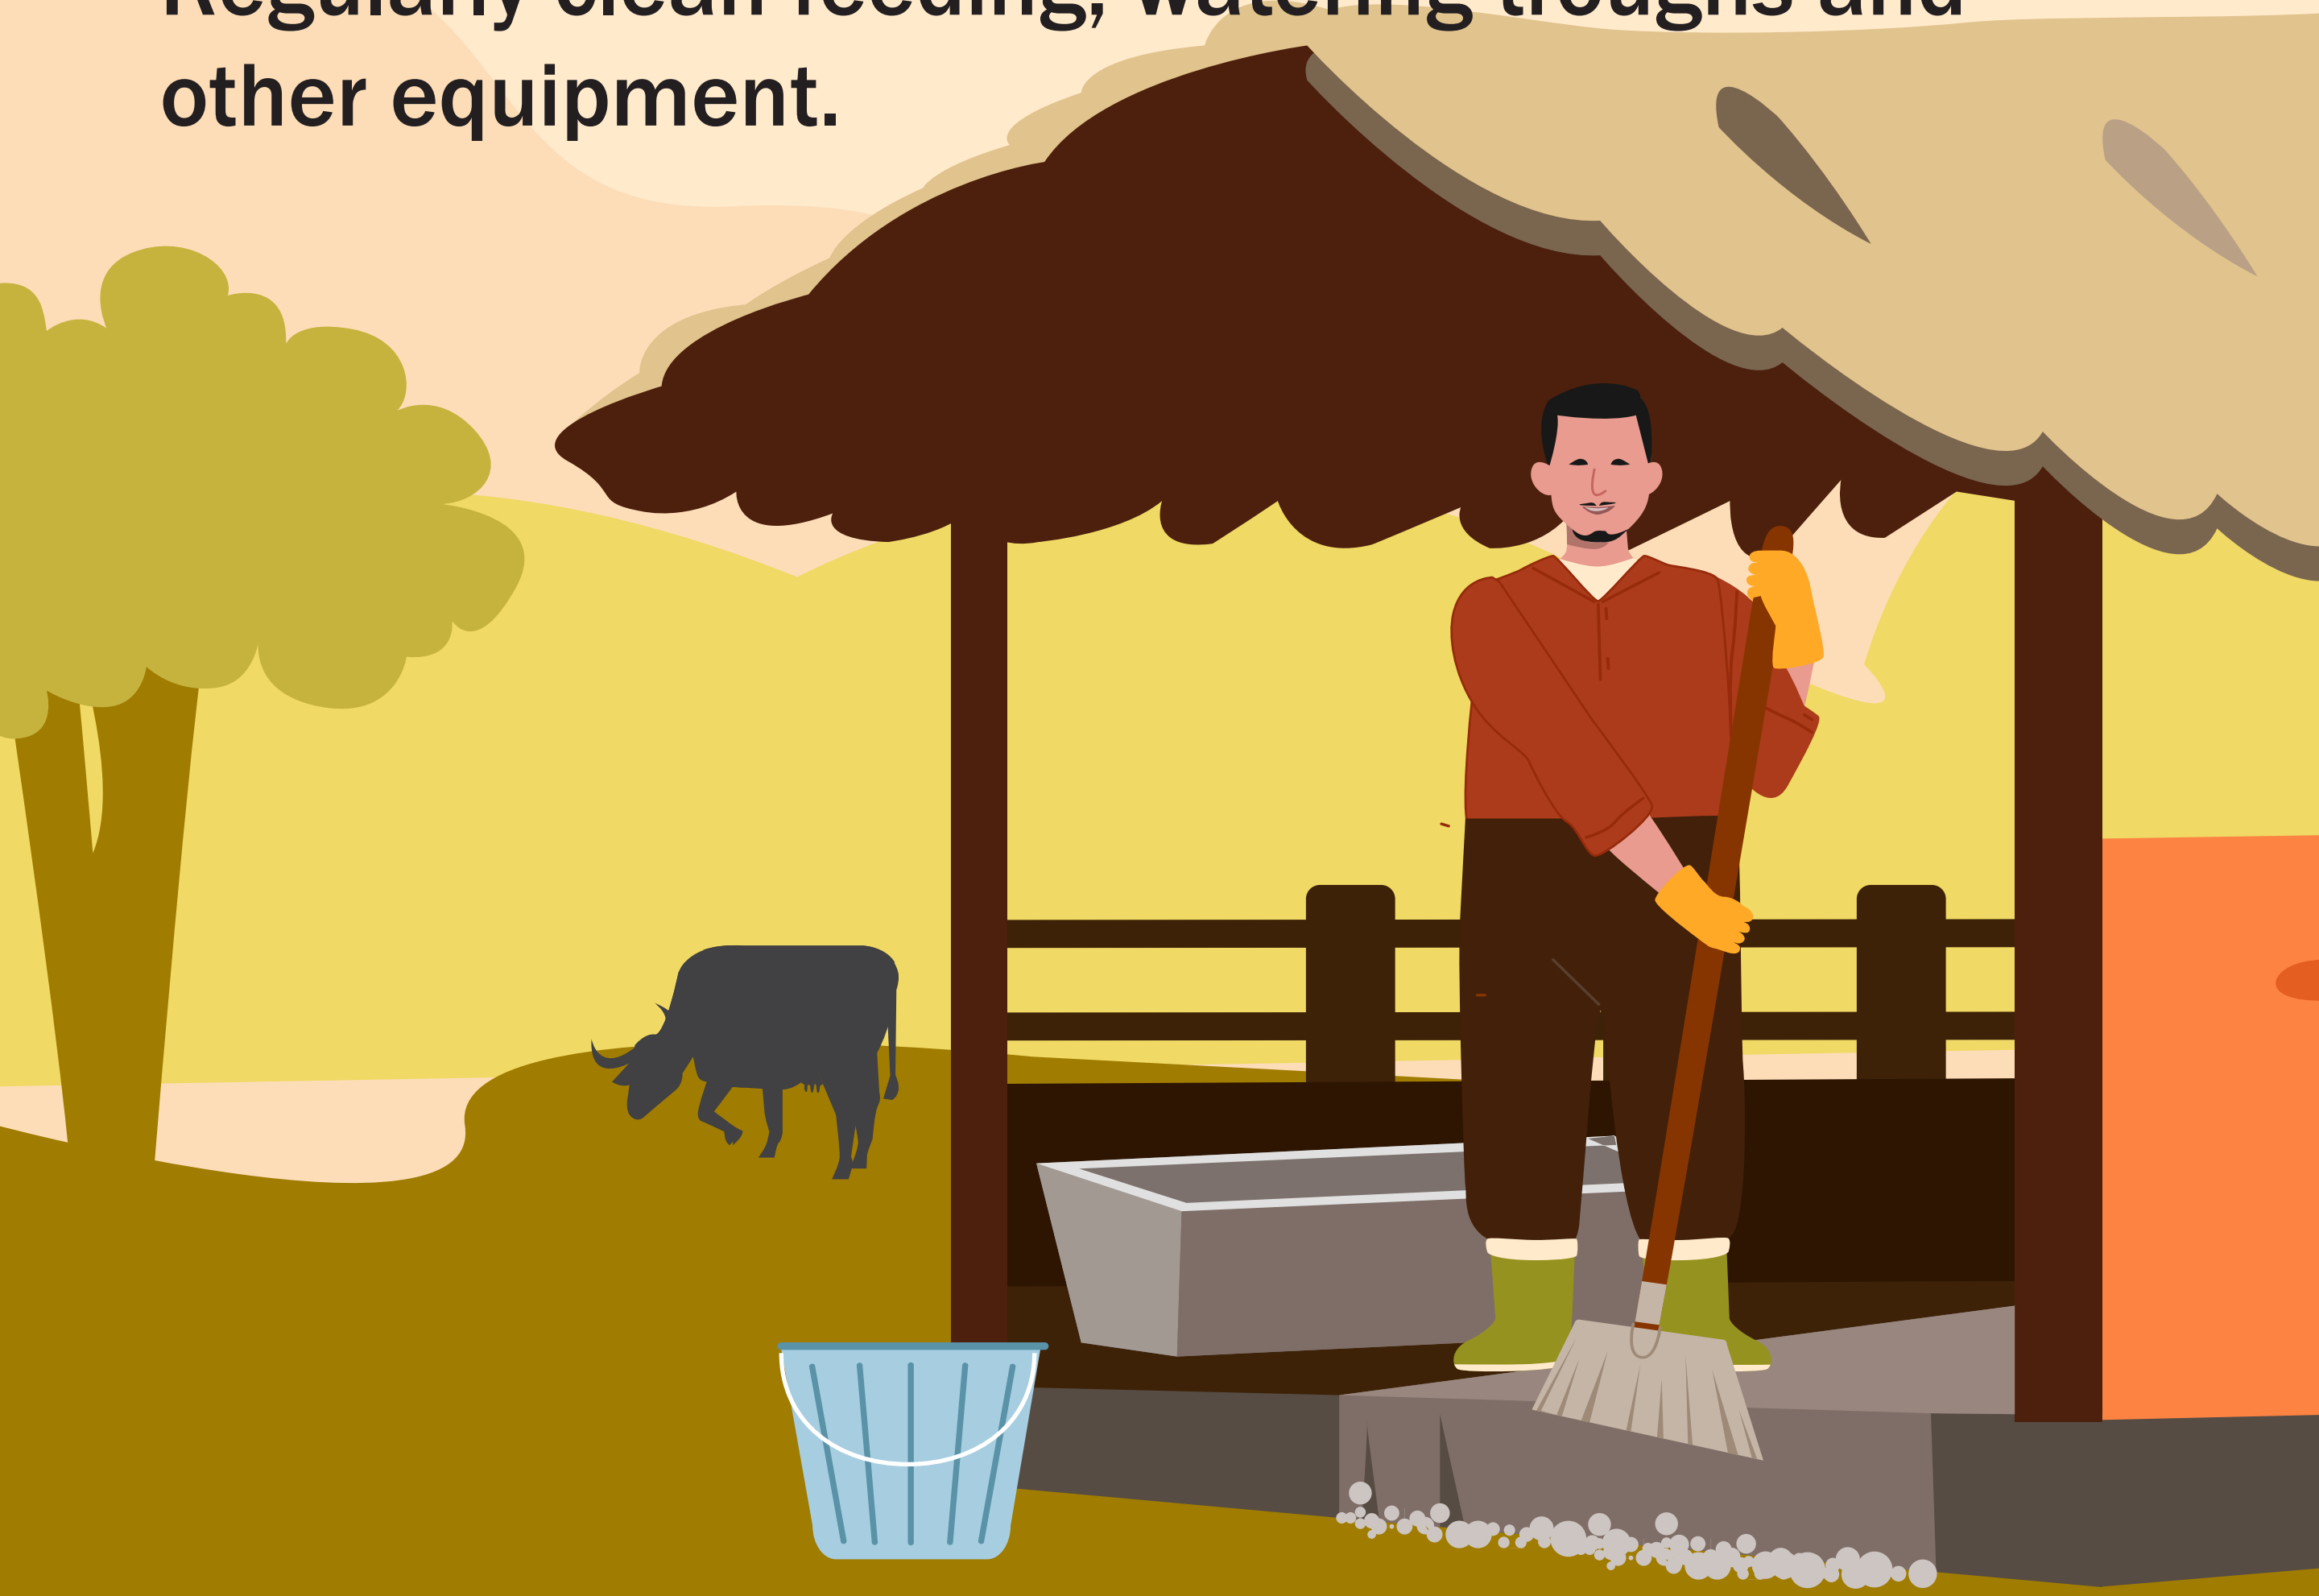

Clean animal shed frequently and maintain good hygiene.

## TOOLS AND TROUGHS:

Regularly clean feeding, watering troughs and other equipment.

## PERSONAL HYGIENE:

Always wash your hands, shoes, clothing and tools after handling the animals.

## SEPARATE:

Keep clean clothes, shoes and equipment separate from contaminated area and items.

# DISINFECTION:

Always clean first, disinfect later. Use appropriate disinfectant as recommended by a veterinarian.
