

# Title, Labeling Axis, Scaling, and Graphing: Planetary Survey

Here is the bar graph of a planetary survey of moons of some planets. Answer the below questions with the help of the graph.

Planets	Moons
Earth	1
Mars	2
Venus	
Uranus	27
Neptune	14

- The "Venus" has \_\_\_\_\_ moons.
- The "Neptune" has \_\_\_\_\_ moons higher than the "Earth".
- Who has the most number of moons? \_\_\_\_\_.
- The Mars has \_\_\_\_\_ moons extra than the "Venus".
- The "Uranus" and the "Mars" have a total of \_\_\_\_\_ moons.
- The "Earth" has \_\_\_\_\_ moon.
